

Shapes for a frame structure

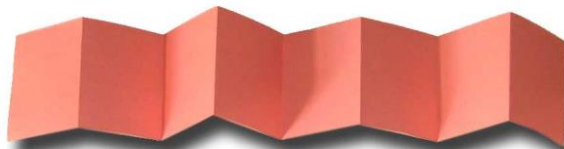

Vocabulary

Aesthetic	How an object or product looks.
Cladding	A material put on top of another material for protection or to improve appearance.
Design criteria	A set of rules to help designers focus their ideas and measure the success of them.
Frame structure	A way of building something so that the inside supports are built first and the outside covering is added afterwards.
Pavilion	A decorative building or structure for leisure activities.
Reinforce	To make a structure or material stronger, especially by adding another material to it.
Stable	Object that does not topple over easily.
Target audience	A person or particular group of people who the product is aimed at.
Target customer	A person or particular group of people who you expect to buy the product.
Theme	An idea or specific design that your product or structure is based on (e.g. space themed).
