

2025-2026 - Annual Assessment Results

A detailed Strengths and Developments analysis document is created alongside the data below, this has a wealth of additional information that supports future developments in school.

We have introduced an 'X' mark to identify students who did not attend during the relevant term, helping to ensure that our data remains as accurate and reliable as possible.

Our school target is for 85% of students to meet expectations or exceed expectations. This is indicated below using coloured cells.
