Equality objectives: year summative statement 2026-2027

During the year, we have continued to work towards our equality objectives by promoting respect, broadening children's understanding of diversity and seeking to make opportunities accessible to all.

Equality objective 1: Raise equality awareness among children and staff.
Our work has focused on promoting tolerance and respect for people with protected characteristics. Assemblies and follow-up discussions have provided opportunities to explore equality-related themes and reinforce the school's values. We will continue to build these themes into the school year so that children can discuss difference respectfully and recognise prejudice.

Equality objective 2: Promote diverse role models.
We have worked to ensure that children encounter role models who reflect and broaden their understanding of diversity, including in relation to race, gender and disability. This includes using examples in lessons and celebrating people with a range of backgrounds and experiences. We will continue to review whose achievements are represented around the school and across the curriculum.

Equality objective 3: Promote participation in clubs and leadership opportunities.
We have continued to focus on fair access to extracurricular activities and leadership roles, particularly for children eligible for pupil premium funding and children with SEND. We will use participation information and children's views to identify barriers, understand who is not taking part and improve how opportunities are communicated and allocated.

Overall, these objectives remain important to ensuring that every child feels respected, represented and able to participate in school life. Our next steps are to review the evidence of impact—including children's participation, feedback and examples of learning—and use it to shape the objectives and actions for the coming year.
