

Reception children investigate the world around them.

Year 5, investigate/sort scientific equipment according to their materials and uses.

Years 3 and 4, have fun investigating science, during Science Club. Can you build a structure that will withstand an earthquake? Or blow up a balloon in a bottle? They can!

Year 1 investigating the senses: - touch, taste, and smell. They had a range of different objects, smells and food and had to use our sense to help us experience them.

Year 4 investigate the anatomy of a fish.
