

Dear Year 7,

Hopefully when the pandemic has stopped , you will be joining us at secondary school. It took me a few days to settle in but you'll get there eventually. If you want to make a change maybe make new friends or pick up a new hobby ,Now is the time!
People won't know who you are !

I definitely recommend joining a club. Homework club especially then you can spend the rest of your free time at home!

If you don't want to join a club the library is a great place too.

Yes the school seems massive but most people get used to it pretty quickly and if not there's a map of the ground floor in your planner but it's always best to ask a teacher or older student.

Please don't skip the queue people can spend ages waiting and you're really not helping anyone . Remember you're not alone everyone goes through it, everyone is very friendly. I love design , drama and music. Most people tend to like ICT but I don't really like it myself . Remember to practice tying your tie it takes a while for most to learn !

Thank you for reading
