The Governors and staff at Kennington Primary School wish to ensure that the children with medical needs receive proper care and support at school.

- 1. Medicine will only be accepted in school if it has been prescribed by a doctor. School WILL NOT give unprescribed, over the counter medicines to children e.g. Calpol, eye drops, ear drops. A parent/carer will need to administer these by coming into school.
- 2. Medicine will not be accepted in school without complete written and signed instructions from the parent/ carer.
- 3. Only reasonable quantities of medication should be supplied to the school.
- 4. Each item of medication should be delivered in its original container and handed directly to the Headteacher, the Deputy Headteacher or the school secretary.
- 5. Where the child travels on school transport with an escort, parents/ carers should entrust the escort with the child's medication.
- 6. Each item of medication must be clearly labeled with the following information:
  - Child's name
  - Name of medication
  - Dosage
  - Dosage frequency (time of medication)
  - Date of dispensing
  - Storage requirements
  - Expiry date
  - Any special requirements e.g. before/after food
- 7. The school will not accept items of medication which are in unlabelled containers.
- 8. Unless otherwise indicated all medication to be administered in school will be kept in the classroom in a medicine tray out of reach of children.
- 9. The school will be able to provide parents/ carers with a copy of the details of when the medication was administered to their child if requested.
- 10. Where it is appropriate to do so children will be encouraged to administer their own medication, under staff supervision. Parents/ carers will be asked to confirm in writing if they wish their child to carry their medication with them in school (e.g. inhalers). If children are too young to administer the medication themselves, a member of staff will

administer and witnessed and recorded by another member of staff.

- 11. It is the responsibility of the parents/ carers to notify the school, in writing if there is a change in medication, a change in dosage requirements or in the discontinuation of the child's need for the medication.
- 12. The school will make every effort to continue the administration of the medication to a child whilst on trips away from the school premises. However, there may be occasions when it may not be possible to include a child on a school trip if appropriate supervision cannot be guaranteed.
- 13. It is helpful, where clinically appropriate, if medicines can be prescribed in dose frequencies which enable it to be taken outside school hours. Parents will be encouraged to ask the prescriber about this. Medicines that need to be taken three times a day could be taken in the morning, after school and at bedtime.
- 14. Any member of staff giving medicines to a child should check:
  - the child's name
  - the prescribed dose
  - the expiry date
  - The written instructions provided by the prescriber on the label or container.
  - \* If in doubt about any procedure, staff should not administer the medicine but check with the parents or a health professional before taking further action. However in the event of an emergency, and particularly for those pupils who have a care plan, the procedure outlined in the care plan will be followed.

Each time a medicine is given to a child, the member of staff administering the medicine must complete and record it. The forms for this purpose are held in the appropriate folder in the child's class. By completing these forms, we are demonstrating that we have exercised a duty of care.

## Parental agreement for administering medicine in school

The school/setting will not give your child medicine unless you complete and sign this form, and the school or setting has a policy that the staff can administer medicine.
