Summer 1:

Revision and

Exam

Technique

Deepen knowledge, understanding and geographical skills

Topic overview

A study of how a growing percentage of the world's population lives in cities and the opportunities and challenges this causes both in the UK and globally.

Topic overview

A study of how LICs and NEEs are experiencing rapid economic developments and how major changes in the UK economy will impact us.

Topic overview

A study of how the coast is shaped by processes and the landforms they create. We will also look at the management we put in place to protect it.

Topic overview

An overview to resources and their management. We focus on food but also look at water and energy to give a breadth of knowledge.

Topic overview

An overview to ecosystems including the UK, tropical rainforests and hot deserts.
