## 1. Aims

Schools are required under the Equality Act 2010 to have an accessibility plan. The purpose of the plan is to:

- Increase the extent to which disabled pupils can participate in the curriculum
- Improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided
- Improve the availability of accessible information to disabled pupils

Our school aims to treat all its pupils fairly and with respect. This involves providing access and opportunities for all pupils without discrimination of any kind.

The plan will be made available online on the school website, and paper copies are available upon request.

Our school is also committed to ensuring staff are trained in equality issues with reference to the Equality Act 2010, including understanding disability issues.

The school supports any available partnerships to develop and implement the plan.

Our school's complaints procedure covers the accessibility plan. If you have any concerns relating to accessibility in school, this procedure sets out the process for raising these concerns.

We have included a range of stakeholders in the development of this accessibility plan, including pupils, parents, staff and governors.

## 2. Legislation and guidance

This document meets the requirements of [schedule 10 of the Equality Act 2010](#) and the Department for Education (DfE) [guidance for schools on the Equality Act 2010](#).

The Equality Act 2010 defines an individual as disabled if he or she has a physical or mental impairment that has a 'substantial' and 'long-term' adverse effect on his or her ability to undertake normal day to day activities.

Under the [Special Educational Needs and Disability \(SEND\) Code of Practice](#), 'long-term' is defined as 'a year or more' and 'substantial' is defined as 'more than minor or trivial'. The definition includes sensory impairments such as those affecting sight or hearing, and long-term health conditions such as asthma, diabetes, epilepsy and cancer.

Schools are required to make 'reasonable adjustments' for pupils with disabilities under the Equality Act 2010, to alleviate any substantial disadvantage that a disabled pupil faces in comparison with non-disabled pupils. This can include, for example, the provision of an auxiliary aid or adjustments to premises. This policy complies with our funding agreement and articles of association.

### 3. Background

The school currently has a number of pupils on the Special Educational Needs and Disabilities (SEND) register with varied needs. At any one time, these may include autistic spectrum disorders (ASD), attention deficit disorders (ADD), attention deficit and hyperactivity disorder (ADHD), speech and language, dyslexia, tourettes, hearing/visual impairment, global developmental delay, anxiety and attachment disorders, and specific medical needs. The proportion of children on the SEN register are reported as a percentage on a termly basis to Governors.

The main building was constructed in 2012 and, therefore, contains many features which allow equality of access for all our pupils, staff and members of the public. It is built on three levels: a lift connects the three floors of the building and a sloping pathway allows access to the main reception area. There is a disabled toilet on upper and ground floors.

Emergency and evacuation procedures are accessible to all. Alarms are auditory and visual and the assembly point is in the KS2 playground to the rear of the school.

The school car park has one disabled parking space.

All pupils are encouraged to take part in the full curriculum. School visits are made accessible to all irrespective of attainment or impairment. Advice will be sought from the relevant professionals regarding the suitability of some activities for children with specific disabilities.

Lessons provide opportunities for all to succeed through inclusive, differentiated planning and the adoption of a variety of teaching styles and strategies.

Photographs of children with specific medical needs and/or allergies are displayed in the kitchen and are available for staff in each of the classroom cupboards.

### 3. Action plan

This action plan sets out the aims of our accessibility plan in accordance with the Equality Act 2010.
