

Dear Parent/Carers

Please take a moment to look at these links with your children.

<https://careerpilot.org.uk/job-sectors/subjects>

<https://www.gohigherwestyorks.ac.uk/resources/hub/>

The career Pilot link helps them look into careers that connect to the subjects they take at school and the Go Higher West Yorkshire link allows them to watch youtube videos of students telling their stories about the course they do at local colleges and universities. They will need to read the purple rectangle and see if there are any courses they would like to study for instance Animal Management at College or Games Designer at University.

Thank you for your support.
