Enjoying, Achieving, Succeeding Together

31.01.22

Dear Parent/ Carer

We are currently experiencing a significant amount of absence amongst teaching and support staff due to Covid-19 and we are struggling to source supply teachers at times.

Although we aim to deliver live lessons for non-practical subjects, this is proving to be challenging at present due to the number of lessons being covered or on occasion doubled-up.

If a live lesson is not available, pupils should first check their subject Team for work as they do with practical subjects. In the unlikely event that there is not any work in the Team folder, pupils should then check the emergency cover folder. Alternatively, pupils should use the websites and links below to support their studies.

We would just like to reassure you that teachers and support staff are working extremely hard to ensure that pupils continue to receive the best education possible. I am sure you would like to join us in wishing all pupils, parents and staff a speedy recovery as we work through these challenging times.

Yours sincerely,

Sam Kerr
Assistant Headteacher

English

Year 6
