

# Fylde Dental Clinic

Private Dental Health Services

Dear Parent/Guardian,

Here at Fylde Dental Clinic we offer a service to local schools to provide their pupils with custom fitted gumshields. For the convenience of parents we actually attend the school on a pre-arranged day and take impressions for each child that has requested a gum shield. However if you prefer appointments can be made direct at our surgery at no extra cost .Please call (01253) 714581.

A large number of dental injuries occur during sporting activities, which is why wearing a custom fitted gumshield is essential and provides much better protection than the 'boil & bite' gumshields that are available over the counter.

Custom fitted gumshields differ from 'boil & bite' in that impressions are taken of the individual's mouth so that an exact model of the individuals mouth can be made, which our gumshields are then precisely fitted to. Every mouth is different, varying in shape and size which is why we would not recommend a 'one size fits all' - boil and bite gumshield. Gumshields range in price from £32.00 to £52.00 pending the complexity of design chosen. Gumshield boxes and name tag's are also available if requested, this helps reduce the chances of them being misplaced or lost.
