Sports Day

I am sorry to say that in the light of the Government announcement on Monday evening and Lancashire being considered a high risk area we are unfortunately not in a position where we can hold our traditional Sports Days.

However, we are determined that we will still give the children a sports day to remember. As all children are required to remain within year group bubbles, we will be holding class based sports day sessions. The children will earn points towards the overall trophy, stickers and of course there will be the traditional ice pops at the end. Unfortunately, we are not able to invite parents so therefore we intend to record videos of some of the events to share on ClassDojo and will of course keep you updated on the ongoing scores. I wonder who will win the 'Hellie Meaney' Sports Day trophy this year?

The sports day sessions will be taking place over the next few weeks, weather dependent so please could you make sure that PE kits and water bottles are in school and that your child has suncream and a hat on a sunny day.

Happy Hives – Our Very Own Swarm of Bees

As you may have seen on our Facebook page we have adopted a swarm of bees! One of our parents Sarah Bundred has arranged this for us and will be keeping us updated on the progress they are making via the Happy Hives, Kirkham facebook page.

<https://www.facebook.com/Happy-Hives-Kirkham-101414645499329/>

Next week the children will be choosing the name of the Queen Bee and hopefully we can look forwards to sampling the honey the worker bees produce in the future.

Visit by the New Headteacher – Mr Lee Glynn

Some of you may well have had chance to talk to Mr Glynn who came into school on Wednesday afternoon. He popped round to see the children too and was impressed with how hard they were working and how tall their sunflowers are already growing. He will be coming in this Wednesday morning and will be out and about in the playground before school in the morning.

Finally, I would like to thank you for continuing to follow the school and Government guidelines in relation to COVID – 19. Cases are still increasing in the local area but we are very much hoping that, with your support, we can get through the next few weeks without having to isolate any bubbles.

Best wishes

Rhiannon Jones
