

Information for Our Children - Return to School

We are really looking forward to seeing you back at school. It may feel a little different, as we will be missing some of our children and will be working in much smaller groups. So we thought it would be useful to give you a little information so that you know what to expect. There is also a video which you will be able to watch on our website.

- You will need to wear your school uniform but not your tie and you may wear trainers or pumps instead of school shoes. You will not need a school bag, just a water bottle and a healthy snack! If you are in Year 6, and have a packed lunch, you will need to bring this. Please don't bring anything else to school with you.
- You are going to be coming into school through a different entrance and will be coming in through the double gates and up the slope into the Junior Activity Playground.
- There are some red footprints painted on the ground for you to stand on in a line. Your parent can come in with you and will remind you to keep a safe distance from your friends - but you can wave and smile!

- Mrs Coxon will come to the playground to welcome you. She will ask you to use hand sanitiser to clean your hands so that we have Healthy Hands (clean) and not Horrid Hands full of microbes (germs). Then follow the stars to the classroom.

- Once inside school you will enter your classroom. This will be your `Learning Bubble` where you will be based. In this classroom you will have 9 friends from your class to learn alongside plus Mrs Coxon and Mrs Tiffen.
- Inside your new classroom you will have a special table. This table belongs to you and no one else. It is your special place at which you can complete your activities. Your table will have all the equipment you need such as pencils and crayons in your tray. We will not be sharing these.
- When you go into your classroom you will need to put your water bottle and snack on your table and coat (if you have one) on your chair.
- Once you have put your things on your table you will then need to wash your hands in the sink in your classroom - remember to do it for 20 seconds and to wash all the different parts of your hand. Can you remember the song?

- Your tray on the table will also have tissues! These are for catching sneezes, coughs and things that run out of your nose! Germs can come out of our noses and mouths so we have to **CATCH** them in our tissues and then put the tissue in the bin.
- This is a special bin with a lid on it - you just press the pedal with your foot to open it.
- When you`ve used a tissue and put it in the bin you will need to wash your hands - remember we want **Healthy Hands** not **Horrid Hands!**
- Washing our hands all the time will become part of our routine - Chasing those germs away throughout the day! The teachers will be helping you to wash your hands well especially after using the toilet!
- We will all try our hardest not to touch our faces.
- Hopefully the weather will be lovely when we return so that we can go outside to learn and play! When we are outside we may see other children playing in their own `Learning Bubble` they too will have two teachers. We can wave and smile and shout hello, but we must stay within our own bubble
- Each bubble will have their own space outside to play. All your games will be fun but they will not involve touching, hugging or being too close!
- At lunchtime your bubble, including your two teachers, will have lunch together in your classroom or outside. We will be sitting a little further apart than usual, but we will be able to chat, smile and wave!
- At the end of the day, one of your teachers will take you to your parents, who will be waiting for you! Remember to keep your distance here too!

We are looking forward to seeing you on Tuesday!
