

KNSTE: GCSE Equivalent Qualifications for Initial Teacher Education (ITE)

This policy has been equality impact assessed and we believe in line with the Equality Act 2010. It does not have an adverse effect on race, gender or disability equality.

A primary teacher will be expected to teach all aspects of English, Mathematics and Science. This is why it is necessary to have a minimum of a GCSE grade 4/C in these subjects. At present, the National College for Teaching and Leadership (NCTL) does not provide a list of qualifications that can be considered equivalent to the GCSE examinations in English, Mathematics and Science. When we are deciding on equivalencies, we look for evidence that a qualification is of a standard equivalent to GCSE grade 4/C. We look at the content not only in terms of its level but also in terms of its breadth. This is why we accept only certain qualifications. For KNSTE it is the standard, not the certificate that matters.

Contents

1. What is not acceptable
2. Common GCSE equivalent qualifications
3. GCSE English
4. GCSE Mathematics
5. GCSE Science
6. Advice for applicants who do not have a GCSE

1. What is not acceptable?

- Level 2 Key skills/Functional Skills in application of number and communication
- Certificates in adult literacy and numeracy.
- Modules in Foundation Degrees (or any other degree course).
