

# KNUTSFORD ACADEMY

## Our Vision and Values

Academic achievement and success is really important to us, for the qualifications students gain represent a passport through to their next stage after the Academy, be that into employment or continuing education.

### Our Vision

**Academic excellence:** We provide a supportive and challenging learning environment to ensure our students achieve academic excellence.

**Strong Community:** We promote a strong sense of belonging within out school and work supportively with our local community.

**Word class opportunities:** We develop our students to be confident citizens by providing world class opportunities.

### Our Values

Ambition

**Ambition:** We provide academic excellence and personal development. We have the highest expectations and work hard to achieve them.

Respect

**Respect:** Our school is built on positive relationships. We are calm, polite and appreciative of each other.

Kindness

**Kindness:** We are an inclusive school. We care about each other and celebrate each other's unique differences.

Ambition

## Subject Specific Information

### Tips for revising English

- **Read Regularly:** Read a variety of texts (books, articles, and poems) to improve vocabulary, comprehension, and understanding of different writing styles.
- **Practice Writing:** Write regularly, focusing on different forms (narrative, descriptive, persuasive). Try to vary sentence structure and vocabulary.
- **Review Grammar and Punctuation:** Go over key grammar rules (e.g., sentence structure, punctuation, tenses) and practice with worksheets or quizzes.
- **Expand Vocabulary:** Learn new words daily. Use them in sentences and find synonyms to avoid repetition in writing.
- **Use BBC bitesize to revise key content for KS3.**
- **Complete Sparx Reader weekly.**

### Useful websites

[Sparx Reader - Home](#)  
[KS3 English - BBC Bitesize](#)

### Command Words

- **Analyse:** Examine the text in detail to understand how its parts work together and contribute to the overall meaning.
- **Compare:** Identify the similarities and differences between two or more things, such as characters, themes, or texts.
- **Describe:** Provide a detailed account of something, focusing on the characteristics or features.
- **Discuss:** Explore a topic or issue by presenting different viewpoints, offering reasons, and supporting your points.
- **Evaluate:** Assess the strengths and weaknesses of something, providing a judgment based on evidence.
- **Explain:** Make something clear by describing how it works or why something happens, giving reasons or details.
- **Identify:** Point out or recognize specific features, elements, or ideas in a text.
- **Interpret:** Explain the meaning of something, often looking at symbols or themes in the text.
- **Justify:** Provide reasons or evidence to support your opinion or argument.
- **Summarise:** Give a brief overview of the main points or ideas, without unnecessary details.

Ambition

Respect

Kindness

## Assessments

### End of Unit Tests

**Year 7-** There will be an end of unit test at the end of each term. This will be based on analysing language/structure or creative writing.

**Year 8-** There will be an end of unit test at the end of each term. This will be based on analysing language/structure or creative writing.

**Year 9-** There will be an end of unit test at the end of each term. This will be based on analysing language/structure or creative writing.

### End of Year Exams

**Year 7-** Students will complete an exam that tests their ability to analyse language and structure, evaluate how a writer has created a certain emotion and their ability to write creatively.

**Year 8-** Students will complete an exam that tests their ability to analyse language and structure, evaluate how a writer has created a certain emotion and their ability to write creatively.

**Year 9-** Students will complete an exam that tests their ability to analyse language and structure, evaluate how a writer has created a certain emotion and their ability to write creatively.

## Year 7 Subject Content

Year 7 Subject Content	
Half Term 1	Half Term 2
Narratives	A Christmas Carol
<p>Exploring the earliest written texts in the English language, explore genre and perspective.</p> <p><u>Additional Learning</u></p> <ul style="list-style-type: none"> <li><a href="#">KS3 English - BBC Bitesize</a></li> </ul>	<p>Explore the story and context of A Christmas Carol and analyse Dickens use of language.</p> <p><u>Additional Learning</u></p> <ul style="list-style-type: none"> <li><a href="#">A Christmas Carol by Charles Dickens - KS3 English - BBC Bitesize</a></li> </ul>
Half Term 3	Half Term 4
Heroes and Villains	Trash
<p>Explore myths, legends, modern hero stories and the traits of heroes and villains.</p> <p><u>Additional Learning</u></p> <ul style="list-style-type: none"> <li><a href="#">Critical reading - KS3 English - BBC Bitesize</a></li> </ul>	<p>Read the novel Trash, explore the context and analyse the language and structure Mulligan uses.</p> <p><u>Additional Learning</u></p> <ul style="list-style-type: none"> <li><a href="#">Critical reading - KS3 English - BBC Bitesize</a></li> </ul>
Half Term 5	Half Term 6
Trash and Exam Prep	Intro to Shakespeare
<p>Continue to read Trash and prepare for end of year exam by practising analysing language and structure.</p> <p><u>Additional Learning</u></p> <ul style="list-style-type: none"> <li><a href="#">Critical reading - KS3 English - BBC Bitesize</a></li> </ul>	<p>Explore Shakespeare's comedies.</p> <p><u>Additional Learning</u></p> <ul style="list-style-type: none"> <li><a href="#">About Shakespeare - KS3 English - BBC Bitesize</a></li> </ul>

## Year 8 Subject Content

Year 8 Subject Content	
Half Term 1	Half Term 2
<b>Powerful Voices</b> Exploring and analysing the use of rhetoric in the English language. <u>Additional Learning</u> <ul style="list-style-type: none"> <li><a href="#">Exploring persuasive writing - English - Learning with BBC Bitesize</a></li> </ul>	<b>Animal Farm</b> Read, explore and analyse the novel Animal Farm and its context. <u>Additional Learning</u> <ul style="list-style-type: none"> <li><a href="#">Animal Farm by George Orwell - BBC Bitesize</a></li> </ul>
Half Term 3	Half Term 4
<b>Animal Farm</b> Read, explore and analyse the novel Animal Farm and its context. <u>Additional Learning</u> <ul style="list-style-type: none"> <li><a href="#">Animal Farm by George Orwell - BBC Bitesize</a></li> </ul>	<b>Powerful Poetry</b> Explore and analyse poetry that highlights key issues in society. <u>Additional Learning</u> <ul style="list-style-type: none"> <li><a href="#">Reading poetry - KS3 English - BBC Bitesize</a></li> </ul>
Half Term 5	Half Term 6
<b>Up for Debate</b> Explore the format of debating, the terminology of debate and the art of arguing your point. <u>Additional Learning</u> <ul style="list-style-type: none"> <li><a href="#">How to discuss and debate guide for KS3 English students - BBC Bitesize</a></li> </ul>	<b>Romeo and Juliet</b> Read and explore key scenes focussing on plot character and themes. <u>Additional Learning</u> <ul style="list-style-type: none"> <li><a href="#">Romeo and Juliet - KS3 English - BBC Bitesize</a></li> </ul>

Ambition

Respect

Kindness

## Year 9 Subject Content

Year 9 Subject Content	
Half Term 1	Half Term 2
<b>Of Mice and Men</b> Explore classic literature, key context/ themes and Steinbecks use of language.  <u>Additional Learning</u> <ul style="list-style-type: none"> <li><a href="#">Of Mice and Men - GCSE English Literature - BBC Bitesize</a></li> </ul>	<b>Unseen Poetry</b> Understand key poetry terminology, explore poems from different cultures and analyse the use of language and structure.  <u>Additional Learning</u> <ul style="list-style-type: none"> <li><a href="#">Unseen prose - GCSE English Literature - BBC Bitesize</a></li> </ul>
Half Term 3	Half Term 4
<b>The Gothic</b> Explore the conventions of genre, the creation of character and writers use of language and structure.  <u>Additional Learning</u> <ul style="list-style-type: none"> <li><a href="#">Gothic literature guide for KS3 English students - BBC Bitesize</a></li> </ul>	<b>People and Perspectives</b> Introduce students to a taste of GCSE media by analysing representation in the media and different media formats.  <u>Additional Learning</u> <ul style="list-style-type: none"> <li><a href="#">Analysing media texts - KS3 English - BBC Bitesize</a></li> </ul>
Half Term 5	Half Term 6
<b>The Hunger Games</b> Read the novel, explore the context and analyse the language and structure Collin uses.  <u>Additional Learning</u> <ul style="list-style-type: none"> <li><a href="#">Investigating themes in fiction guide for KS3 English students - BBC Bitesize</a></li> </ul>	<b>Shakespearean Tragedy</b> Explore tragedy genre conventions, Shakespeare's use of language and creation of character.  <u>Additional Learning</u> <ul style="list-style-type: none"> <li><a href="#">About Shakespeare - KS3 English - BBC Bitesize</a></li> </ul>

## Subject Specific Information

### Tips for revising Mathematics

- Complete your homework on SPARX every week.
- Use your learning objectives to link areas of weakness to SPARX. (These codes are below. Search for them on the independent study section)
- Complete Mathswatch revision homework set by your teacher.
- Ensure you understand what all the command words mean.
- Use your Question Level Analysis sheets to reflect on areas of weakness.
- Practice using your calculator efficiently.

**Use the Sparx codes on pages 8 – 14 to support your learning.**

Remember: The only way to get better at Maths is to do it!

### Useful websites

SPARX: [www.sparxmaths.uk](http://www.sparxmaths.uk) (Topic codes are on your pre assessment learning sheets)

MathsWatch: <https://vle.mathswatch.co.uk/vle/>

Both of the above use your school login details

### Command Words

- **Calculate:** A calculator and some working will be needed.
- **Change:** Usually convert from one unit to another; either using known metric unit conversions or the use of a conversion graph.
- **Complete:** Fill in missing values.
- **Describe:** Write a sentence that gives the features of the situation.
- **Draw:** Produce an accurate drawing (unless a sketch is being drawn).
- **Expand:** Remove brackets.
- **Expand and simplify:** Remove brackets and the collect like terms.
- **Explain:** Write a sentence or a mathematical statement to show how you got to your answer or reached your conclusion.
- **Express:** Re-write in another form, some working may be needed.
- **Factorise:** Insert brackets by taking out common factors.
- **Factorise fully:** Insert brackets by taking out all the common factors.
- **Find:** Some working will be needed to get to the final answer.
- **Give a reason:** Must be clear and accurate reasons. If the reasons are geometrical then make sure you: -
- **Justify:** Show all working and/or give a written explanation

## Year 7 Subject Content

### Half Term 1

### Half Term 2

#### Number sense and calculations

#### Expressions and Equations

Using number lines	M763	Algebraic notation	M813
Integer place value	M704	Algebraic terminology	M830
Decimal place value	M522	Simplifying expressions (single variable)	M795
Ordering negative numbers	M527	Simplifying expressions (multiple)	M531
Rounding integers	M111	Simplifying expressions (non-linear)	M949
Rounding decimals	M431	Substituting with one operation	M417
Adding integers	M928	Substituting with multiple operations	M327
Adding decimals	M429	Substituting into algebraic formulae	M208
Subtracting integers	M347	Substituting into real-life formulae	M979
Subtracting decimals	M152	Solving equations with one step	M707
Multiplying/dividing by 10, 100 and 1000	M113	Solving equations of the form $ax+b=c$	M634
Multiplying using place value	M911	Solving equations of the form $x/a+b=c$	M647
Using a written method to $\times$ integers	M187	<b>Measures</b>	
Using a written method to $\times$ decimals	M803	Converting units of time	M515
Dividing numbers into equal groups	M462	Using clocks	M892
Using a written method to $\div$ integers	M354	Calculating with time	M627
Dividing with remainder	M873	Using timetables	M963
Divide by integers to = a decimal	M262	Using calendars	M747
Using a written method to $\div$ decimals	M491	Estimate/measure length, mass & capacity	M828
+ and - with negative numbers	M106	Convert length, mass & capacity units	M774
$\times$ and $\div$ with negative numbers	M288	Using appropriate units	M487
Calculating with roots and powers	M135	<b>2D Shapes</b>	
Using the correct order of operations	M521	Line properties	M814
Using the commutative laws	M952	Shape properties	M276
Using the associative laws	M409	Symmetry	M523
		<b>Perimeter and Area</b>	
		Finding perimeters using grids	M920
		Finding the perimeter of rectangles	M635
		Finding the perimeter of compound shapes	M690
		Finding areas using grids	M900
		Finding the area of rectangles	M390
		Finding the area of compound shapes	M269
		Finding the area of triangles	M610
		Finding the area of compound shapes containing triangles	M996

### Half Term 3

### Half Term 4

Ambition

Respect

Kindness

Coordinates		Brackets	
Reading and plotting coordinates	M618	Using the distributive law	M637
Shape problems involving coordinates	M230	Expanding single brackets	M237
<b>Factors, Multiples and Primes</b>		Expanding single brackets and simplify	M792
Finding the lowest common multiple	M227	Factorising into one bracket	M100
Finding factors and using divisibility tests	M823	<b>Angles</b>	
Finding the highest common factor	M698	Types of angles	M502
Finding prime numbers	M322	Estimating angles	M541
Prime factor decomposition	M108	Measuring angles	M780
<b>Fractions</b>		Drawing angles	M331
Finding fractions of shapes	M158	Angles on a line and about a point	M818
Constructing fractions	M939	Vertically opposite angles	M163
Finding equivalent fractions	M410	Angles in triangles	M351
Simplifying fractions	M671		
Ordering fractions	M335		
Converting between mixed numbers and improper fractions	M601		
Adding and subtracting fractions	M835		
Adding and subtracting mixed numbers	M931		
Half Term 5		Half Term 6	
Handling Data and Statistical Diagrams		Fractions, Decimals and Percentages	
Calculating the range	M328	Reciprocals	M216
Calculating the median	M934	Multiplying fractions	M157
Finding the mode	M841	Dividing fractions	M110
Calculating the mean	M940	Multiplying with mixed numbers	M197
Frequency tables and two-way tables	M899	Dividing with mixed numbers	M265
Drawing and interpreting tally charts	M597	Fractions of amounts (non calc)	M695
Drawing and interpreting pictograms	M644	Fractions of amounts (calc)	M684
Drawing bar charts	M460	Converting fractions and decimals	M958
Interpreting bar charts	M738	Converting fractions, decimals and %	M264
Collecting and record data using tables	M945	Order fractions, decimals and %	M553
Finding averages from frequency tables	M127	Write numbers as % of others	M235
Choosing suitable averages	M440	<b>Probability</b>	
<b>Proportion</b>		Using probability phrases	M655
Solving proportion problems	M478	Writing probabilities as fractions	M941
		Writing probabilities as equivalents	M938
		Mutually exclusive events	M755
		Sample space diagrams	M718

Ambition

Respect

Kindness

## Year 8 Subject Content

Half Term 1		Half Term 2	
Percentages		Sequences	
Percentages of amounts (non calc)	M437	Term-to-term rules	M381
Percentages of amounts (calc)	M905	Term-to-term rules for patterns	M241
Percentage change without a calculator	M476	Position-to-term rules	M166
Percentage change with a calculator	M533	Arithmetic sequences	M991
Money		Position-to-term rules (sequences)	M866
Value for money	M681	Ratio	
Indices		Writing and simplifying ratios	M885
Index rules with positive indices	M608	Writing ratios in the form 1:n	M543
Index rules with negative indices	M150	Converting ratios, fractions and %	M267
Simplifying expressions using index laws	M120	Using equivalent ratios	M801
Simplifying algebraic fractions	M568	Sharing amounts in a given ratio	M525
Equations		Drawing & interpreting scale diagrams	M112
Solving equations of the form $(x+a)/b=c$	M401	Rounding	
Solving linear equations inc brackets	M902	Round integers to significant figures	M994
Solving with unknown on both sides	M554	Round decimals to significant figures	M131
Solving with unknown denominator	M387	Estimating calculations	M878
Constructing and solving equations	M957	Coordinates	
		Calculating midpoints	M622
		Coordinates and midpoints	M311

Ambition

Respect

Kindness

Half Term 3		Half Term 4	
Area		3D Shapes	
Finding the area of parallelograms	M291	Properties of 3D shapes	M767
Finding the area of trapeziums	M705	Nets of 3D shapes	M518
Converting units of area	M728	Surface Area and Volume	
Circles		Finding the surface area from a net	M884
Identifying parts of circles	M595	Finding the surface area of cubes & cuboids	M534
Finding the circumference of circles	M169	Finding the surface area of prisms	M661
Finding the area of circles	M231	Finding the volume of cubes and cuboids	M765
Standard Form		Finding the volume of prisms	M722
Using standard form (positive indices)	M719	Converting units of volume	M465
Using standard form (negative indices)	M678	Linear Graphs	
Venn Diagrams		Plotting horizontal, vertical & diagonal lines	M797
Venn diagrams	M829	Plotting straight line graphs	M932
Probabilities from Venn diagrams	M419	Finding equations of straight-line graphs	M544
Finding the HCF and LCM using prime factor decomposition	M365	Transformations	
		Translations	M139
		Reflection	M290
Half Term 5		Half Term 6	
Angles		Inequalities	
Angles in quadrilaterals	M679	Reading and drawing linear inequalities	M384
Combining angle facts	M319	Solving single inequalities	M118
Angles on parallel lines	M606	Brackets	
Quadrilateral properties to find angles	M393	Expanding double brackets	M960
Angles in polygons	M653	Algebraic Fractions	
Statistical Diagrams		Calculating with fractions	M645
Drawing pie charts	M574	Calculating with mixed numbers	M619
Interpreting pie charts	M165	Simplifying algebraic fractions	M754
Drawing line graphs	M140	Adding and subtracting algebraic fractions	M336
Interpreting line graphs	M183	Recurring Decimals	
Drawing stem-and-leaf diagrams	M648	Using recurring decimal notation	M701
Interpreting stem-and-leaf diagrams	M210	Converting fractions to recurring decimals	M922
Finding averages from diagrams	U854		
Subject Content Year 9			

Ambition

Respect

Kindness

Half Term 1		Half Term 2		
Fractions and Percentages		Formulae		
Converting fractions, decimals & %	U888	Changing the subjects of formulae one step	U675	
Ordering fractions, decimals & %	U594	Changing the subjects of formulae	U181	
Finding fractions of amounts (non calc)	U881	Constructions		
Finding fractions of amounts (calc)	U916			
Finding % of amounts (non calc)	U554		Constructing bisectors of angles	U787
Finding % of amounts (calc)	U349	Constructing perpendicular bisectors	U245	
Percentage change without a calculator	U773	Circles		
Percentage change with a calculator	U671		Finding the arc length of sectors	U221
Reverse percentage calculations	U286		Finding the area of sectors	U373
Finding the percentage change	U278		Finding the surface area of cylinders	U464
Simple interest calculations	U533		Finding the volume of cylinders	U915
Probability				
Expected outcomes	U166	Rounding		
Calculating experimental probabilities	U580			
Frequency trees	U280		Finding error intervals	U657
Standard Form				
x and ÷ numbers in standard form	U264	Truncating decimals	U108	
+ and - numbers in standard form	U290	Finding error intervals	U301	
Standard form with a calculator	U161	3D Shapes		
Inequalities			Plans and elevations	U743
Solving inequalities (unknown on 2 sides)	U738			
Solving double inequalities	U145			
Constructing and solving inequalities	U337			
Quadratic Equations				
Factorising quadratic equations	U178			
Factorising the difference of two squares	U963			
Factorising to solve quadratic equations	U228			

Half Term 3		Half Term 4	
<b>Pythagoras' Theorem</b>		<b>Compound Measures</b>	
Using Pythagoras' theorem in 2D	U385	Calculating with speed	U151
<b>Ratio and Proportion</b>		Calculating with rates	U256
Writing and simplifying ratios	U687	<b>Motion-Time Graphs</b>	
Sharing amounts in a given ratio	U577	Plotting distance-time graphs	U403
Solving direct proportion word problems	U721	Interpreting distance-time graphs	U914
Solving inverse proportion problems	U357	Calculating from distance-time graphs	U462
Currency conversion	U610	Plotting distance-time graphs using speeds	U966
<b>Line Graphs</b>		<b>Quadratic Graphs</b>	
Plotting straight line graphs	U741	Plotting graphs of quadratic functions	U989
Finding equations of straight-line graphs	U315	Interpreting graphs of quadratic functions	U667
Interpreting equations of straight-line graphs	U669	Solving quadratic equations graphically	U601
Half Term 5		Half Term 6	
<b>Angles and Bearings</b>		<b>Vectors</b>	
Combining angle facts	U655	Understanding column vectors	U632
Angles on parallel lines	U826	Adding and subtracting column vectors	U903
Using quadrilateral properties	U329	Multiplying column vectors by a scalar	U564
Angles in polygons	U427	Identifying parallel vectors	U660
Measuring and drawing bearings	U525	<b>Handling Data</b>	
Calculating bearings	U107	Types of data	U322
<b>Transformations</b>		Presenting data and making conclusions	U571
Translation (column vector notation)	U196	Comparing populations using diagrams	U520
Reflection	U799	Choosing suitable averages	U717
Rotation	U696	Plotting scatter graphs	U199
Enlargement by a positive scale factor	U519	Interpreting scatter graphs	U277
Mixed transformations	M881	Using lines of best fit	U128
<b>Similarity and Congruence</b>		Interpret frequency tables (grouped data)	U312
Understanding similarity	U551	Finding averages from grouped data	U877
Finding unknown sides in similar shapes	U578	Draw and interpret frequency polygons	U840
Understanding congruence	U790		
Congruent triangles	U866		
Constructing triangles	U187

## Subject Specific Information

### Tips for revising Science

- Track your progress - As you revise, tick off the topics you've covered and test your knowledge at regular intervals. This will help you see your progress and boost your confidence.
- Active recall and spaced repetition - Quiz yourself regularly on facts, equations, and definitions. Use apps like Tassomai to help with spaced repetition, which helps reinforce knowledge over time.
- Focus on exam technique - Learn how to structure long-answer questions and develop strategies for answering multiple-choice questions.
- Focus on key terms and definitions - Make flashcards or a glossary of important terms like "activation energy," "catalyst," and "covalent bonding." Clear definitions and the ability to explain terms will help you score marks on knowledge-based questions.

### Command Words

- **Calculate:** use the numbers given in the question to work out the answer.
- **Compare:** Describe the similarities and/or differences between things, not just write about one.
- **Define:** Specify the meaning of something.
- **Determine:** Use given data or information to obtain an answer.
- **Estimate:** Assign an approximate value.
- **Evaluate:** Use the information supplied, as well as your knowledge and understanding, to consider the evidence for and against when making a judgment.
- **Explain:** Make something clear or state the reasons for something happening.
- **Identify:** Name or otherwise characterise.
- **Justify:** Use evidence from the information supplied to support an answer.
- **Plan:** Write a method.
- **Plot:** Mark on a graph using the data given.
- **Predict:** Give a plausible outcome.
- **Show:** Provide structured evidence to reach a conclusion.
- **Sketch:** Draw approximately.
- **Suggest:** Apply your knowledge and understanding to a new situation.
- **Use:** The answer must be based on the information given in the question.

## Year 7 Subject Content

### Half Term 1

### Half Term 2

#### Cells and Reproduction

#### The Particle model and Elements, Compounds and Mixtures

Structure and function of animal and plant cells.  
 Parts of a light microscope and how to use a microscope  
 How to prepare a slide of an animal and a plant cell.  
 Structure and function of specialised animal and plant cells.  
 The seven life processes MRS GREN  
 Structure of the male and female human reproductive system.  
 Fertilisation in humans  
 Pregnancy  
 The menstrual cycle  
 The reproductive system in flowering plants  
 Fertilisation and germination in plants.  
 Seed dispersal.

#### Additional Learning

- [What are plant and animal cells? - BBC Bitesize](#)
- [Specialised animal cells - Living organisms - KS3 Biology - BBC Bitesize](#)
- [Specialised plant cells - Living organisms - KS3 Biology - BBC Bitesize](#)
- [Human reproduction - Reproduction - KS3 Biology - BBC Bitesize](#)
- [Fertilisation - Reproduction- KS3 Biology - BBC Bitesize](#)
- [Changes that occur during the menstrual cycle - Reproduction - KS3 Biology - BBC Bitesize](#)
- [What is pollination? Reproduction - KS3 Biology - BBC Bitesize](#)

How to safely use a Bunsen burner  
 Use the particle model to explain the properties of solids, liquids and gases.  
 Describe changes of state using the terms melting point and boiling point.  
 Use the particle model to explain expansion and contraction.  
 Know and measure the boiling point of water.  
 Explain what happens to particles when substances in a gas state condense.  
 Describe and explain changes of state relating to energy.  
 The structure of an atom.  
 Elements in the periodic table.  
 The position of metals and non-metals in the periodic table.  
 The properties of metals and non-metals.  
 The formation of compounds.  
 Naming compounds  
 Define a mixture.  
 Compare elements, mixtures and compounds.  
 Practical techniques: filtration and evaporation, distillation, chromatography.

#### Additional Learning

## Year 8 Subject Content

### Half Term 1

#### Organisms

Breathing  
 Gas exchange  
 Respiration  
 Exercise and breathing  
 Smoking  
 Asthma  
 Drugs  
 Diet – balanced and unbalanced  
 Digestive system and Enzymes  
 Skeleton and muscles

#### Additional Learning

- [The skeletal system - Skeleton - Living organisms - KS3 Biology - BBC Bitesize](#)
- [The structure of the digestive system - Nutrition, digestion and excretion - KS3 Biology - BBC Bitesize](#)
- [What enzymes break down starch? - BBC Bitesize](#)
- [Structure and function of the gas exchange system - Respiration and gas exchange - KS3 Biology - BBC Bitesize](#)
- [What is the difference between aerobic and anaerobic respiration? - BBC Bitesize](#)

### Half Term 2

#### Particles and solubility

The particle model  
 Density  
 Energy and changes of state  
 Heating curves  
 Diffusion  
 Gas pressure  
 Pure substances  
 Mixtures and solutions  
 Dissolving  
 Saturation  
 Solubility curves  
 Crystallisation

#### Additional Learning

- [Gas pressure - BBC Bitesize](#)
- [What are changes of state? - BBC Bitesize](#)
- [What are pure substances? - BBC Bitesize](#)
- [Dissolving - BBC Bitesize](#)

## Subject Specific Information

### Tips for revising Computing

- Complete your homework on Educake every week.
- Review the work that is saved in Microsoft Teams / OneNote
- Practice developing programs in Scratch and Python

### Useful websites

- BBC Bitesize - [KS3 Computer Science - BBC Bitesize](#)
- Scratch – <http://scratch.mit.edu>
- Teach ICT – [www.teach-ict.com](http://www.teach-ict.com)
- Educake – [www.educake.co.uk](http://www.educake.co.uk)

### Command Words

- **Calculate:** Work out the value of something.
- **Compare:** Identify similarities and/or differences.
- **Complete:** Finish a task by adding to given information.
- **Convert:** Change data from one specified form to another.
- **Define:** Specify meaning.
- **Describe:** Set out characteristics.
- **Develop:** Take forward or build upon given information.
- **Discuss:** Present key points.
- **Draw:** Produce a diagram.
- **Explain:** Set out purposes or reasons.
- **Extend:** Further develop based on existing information.
- **Give:** Produce an answer from recall.
- **Justify:** Support a case with evidence.
- **State:** Express in clear terms.
- **Suggest:** Present a possible case/solution.

## Subject Specific Information

### Tips for revising French

- Learn your weekly homework vocabulary sentences
- Scan the QR codes on your sentence builders to access Quizlet
- Make your own Quizlets or join our classes Quizlet groups

### Useful websites

[Language Gym - Home](#) (your teacher will give you log in details)

[KS3 French - BBC Bitesize](#)

<https://quizlet.com>

[French: KS3](#)

### Command Words

1. **Écoute / Écoutez !** – Listen!
2. **Regarde / Regardez !** – Look!
3. **Lis / Lisez !** – Read!
4. **Écris / Écrivez !** – Write!
5. **Répète / Répétez !** – Repeat!
6. **Parle / Parlez en français !** – Speak in French!
7. **Ouvre / Ouvrez (ton/votre livre) !** – Open (your book)!
8. **Ferme / Fermez (la porte/le cahier) !** – Close (the door/your book)!
9. **Asseyez-vous / Levez-vous !** – Sit down / Stand up!
10. **Travaille / Travaillez en groupe !** – Work in a group!
11. **Arrête / Arrêtez !** – Stop
15. **Complète / Complétez la phrase !** – Complete the sentence!
16. **Choisis / Choisissez la bonne réponse !** – Choose the correct answer!
17. **Coche / Cochez la bonne case !** – Tick the correct box!
18. **Mets / Mettez les phrases dans le bon ordre !** – Put the sentences in the correct order!
19. **Réponds / Répondez aux questions !** – Answer the questions!
20. **Remplis / Remplissez les blancs !** – Fill in the blanks!

## Subject Specific Information

### Tips for revising Geography

- Use the Study skills techniques to provide definitions for key geography words for each unit
- Focus on facts and figures when revising case-studies
- Try to back up your points with examples (places, names, facts, data)

### Useful websites

- YouTube – Geography Hawks - [Welcome to Geography Hawks.](#)
- BBC Bitesize – [KS3 Geography - BBC Bitesize](#)

### Command Words

- **Calculate:** Work out the value of something.
- **Define..., What is meant by...:** State the precise meaning of an idea or concept. There is usually a low tariff of marks for this.
- **Describe:** Give an account in words of a phenomenon which may be an entity, an event, a feature, a pattern, a distribution or a process. For example, if describing a landform say what it looks like, give some indication of size or scale, what it is made of, and where it is in relation to something else (field relationship).
- **Discuss:** Set out both sides of an argument (for and against), and come to a conclusion related to the content and emphasis of the discussion. There should be some evidence of balance, though not necessarily of equal weighting.
- **Evaluate:** Consider several options, ideas or arguments and come to a conclusion about their importance/success/worth.
- **Explain..., Why..., Suggest reasons for...:** Set out the causes of a phenomenon and/or the factors which influence its form/nature. This usually requires an understanding of processes. Explanation is a higher-level skill than description and this is often reflected in its greater mark weighting.
- **Justify:** Give reasons for the validity of a view or idea why some action should be undertaken. This might reasonably involve discussing and discounting alternative views or actions. Each of the views present or options available will have positives and negatives. For the outcome(s) chosen, the positives outweigh the negatives. Students should be able to explain all of this review process.
- **Outline..., Summarise...:** Provide a brief account of relevant information.
- **To what extent...\_** Form and express a view as to the merit or validity of a view or statement after examining the evidence available and/or different sides of an argument

## Subject Specific Information

### Tips for revising Religious Studies

- You will need to answer questions on:
  - Definitions of words
  - Giving examples
  - Explaining different beliefs
  - Evaluating a statement
- Ensure you understand what commands words mean!
- Ensure you understand teacher feedback and then put this into practice!
- Ensure you can explain **why**! Keep asking yourself **why, why why?!**

### Useful websites

- BBC Bitesize - [KS3 Religious Studies - BBC Bitesize](#)
- RE Quest - [Home - RE:quest](#)
- @MrMcMillanREvis - [How To Revise \(1 of 5\) Regular Revision Strategies | by MrMcMillanREvis](#)

### Command Words

- **“Which one of the following”**- Tick the correct answer using the boxes provided
- **“Give 2 examples/ beliefs...”**- Write 2 examples/ beliefs about the subject. E.G. 2 beliefs about the Nature of God would be Omnipotent and Just
- **“Explain”**- Form an answer based on **Point Explain Point Explain**. Pay attention to what they are asking (contrasting/ similar/ different).
- **Contrasting**- Ensure you are giving 2 different points (even if they are from different religions!)
- **“With reference to scripture or sacred writings”**- Give a Biblical/ Quranic quote but ensure you reference the Holy Book! This is for 12 markers also.
- **“...Contemporary British Society...”**- Refer to the main religious tradition of the United Kingdom- which is Christianity! **DO NOT** talk about Islam in this question.
- **“Evaluate”**- Give a balanced answer with a justified conclusion at the end. You should include **at least 1** religious quote in your answer (with reference to the Holy Book). Your conclusion should not have any new information in it- you should be reinforcing which point you think is the strongest.

## Subject Specific Information

### Tips for revising Spanish

- Learn your weekly homework vocabulary sentences
- Scan the QR codes on your sentence builders to access Quizlet
- Make your own Quizlets or join our classes Quizlet groups

### Useful websites

[Language Gym - Home](#) (your teacher will give you log in details)

[KS3 Spanish - BBC Bitesize](#)

<https://quizlet.com>

[Spanish: KS3](#)

### Command Words

1. **Escucha / Escuchad !** – Listen!
2. **Mira / Mirad !** – Look!
3. **Lee / Leed !** – Read!
4. **Escribe / Escribid !** – Write!
5. **Repite / Repetid !** – Repeat!
6. **Habla / Hablad en español !** – Speak in Spanish!
7. **Abre / Abrid (tu/vuestro libro) !** – Open (your book)!
8. **Cierra / Cerrad (la puerta/el cuaderno) !** – Close (the door/your book)!
9. **Sentaos / Levantaos !** – Sit down / Stand up!
10. **Trabaja / Trabajad en grupo !** – Work in a group!
11. **Para / Parad !** – Stop!
12. **Completa / Completad la frase !** – Complete the sentence!
13. **Elige / Elegid la respuesta correcta !** – Choose the correct answer!
14. **Marca / Marcad la casilla correcta !** – Tick the correct box!
15. **Ordena / Ordenad las frases !** – Put the sentences in the correct order!
16. **Responde / Responded a las preguntas !** – Answer the questions!
17. **Rellena / Rellenad los espacios en blanco !** – Fill in the blanks!

Ambition

Respect

Kindness

## Why are Study Skills so important?

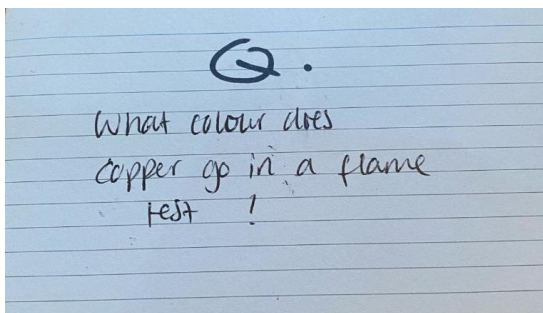

In lessons we are given lots of knowledge, but some of the most important parts, we don't always remember. This is because the working memory is much smaller than the long-term memory, and we need to 'learn the knowledge' to move it into the long-term memory. Trying different study skills will help you make more pathways between your two memory stores so that you can retrieve the information more readily.

### Flash Cards

Flash cards are a great way to summarise your work. You can use them on your own or get somebody to test you, plus they are easy to take with you when you go places.

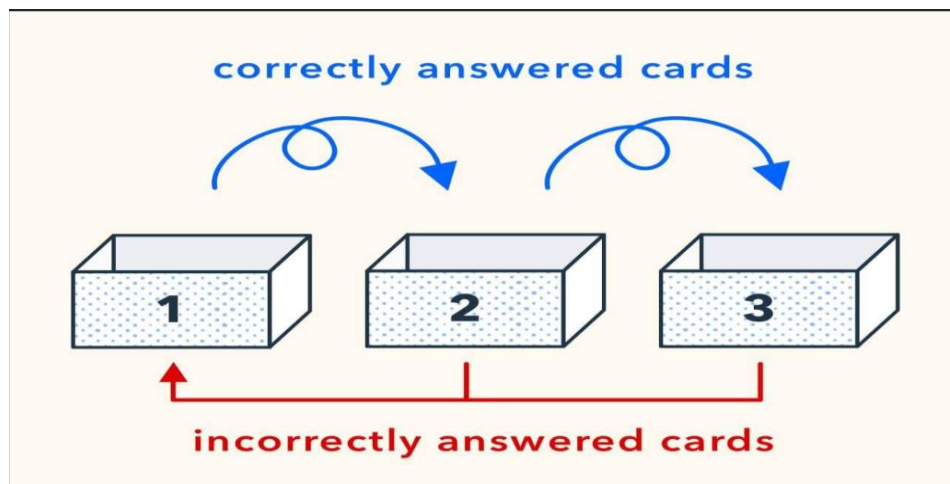

They can be used in a variety of different ways.

- As a question prompt
- To memorise definitions of key words or important date
- To summarise topics or diagrams
- For quotes

Flash cards should be two sided, readable in a 'Flash' and have one piece of information of per card.

Use the Leitner method to test your learning. Always shuffle the cards before you start.

Ambition

Respect

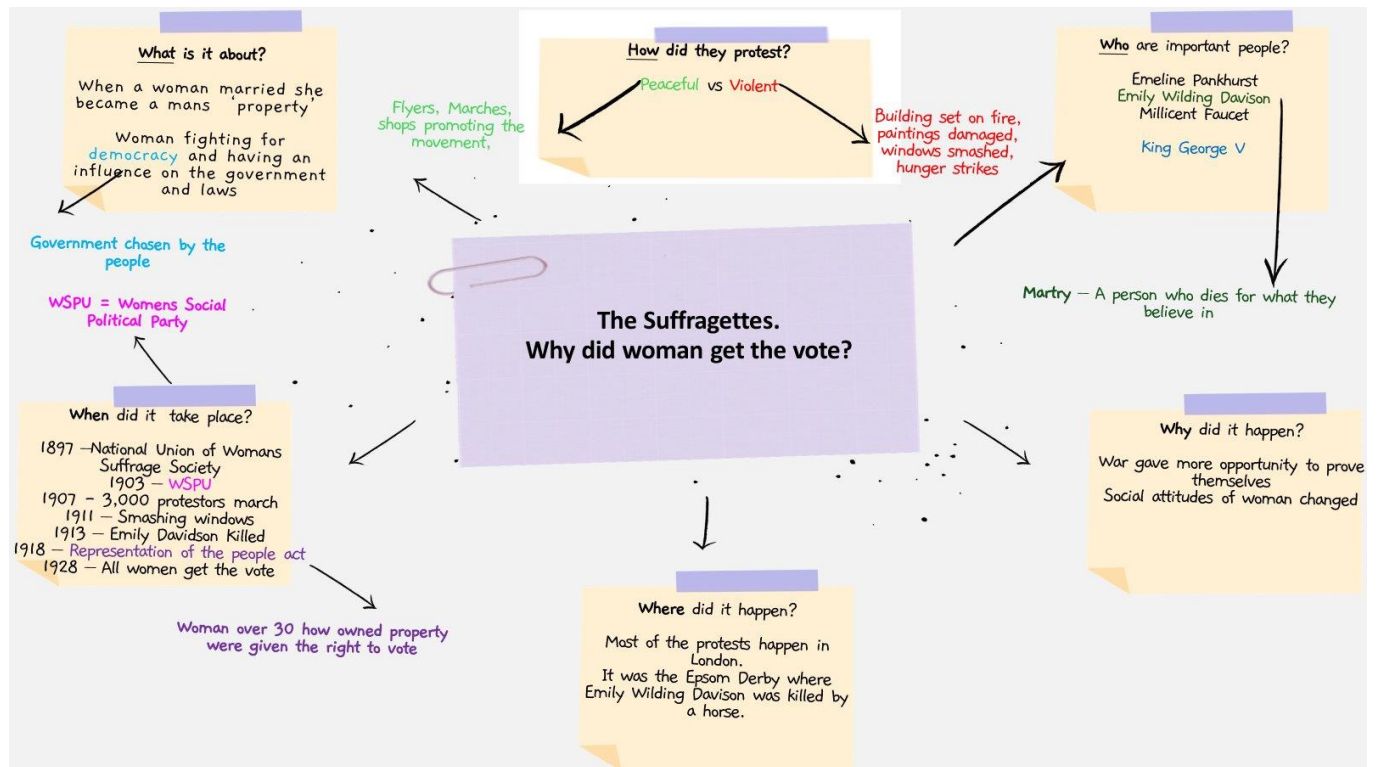

Kindness

## Mind Maps

Mind Maps are useful at the start of revision to summarise a topic. They organise facts visually linking key words and ideas. They can help explain or breakdown ideas or concepts and a useful way to identify gaps in knowledge.

Before you start your mind maps, make sure you are prepared. Have everything you need to revise for that topic. Consider the layout and how you will section your pages. Think about whether you will use colours or capitals for key words.

Ambition

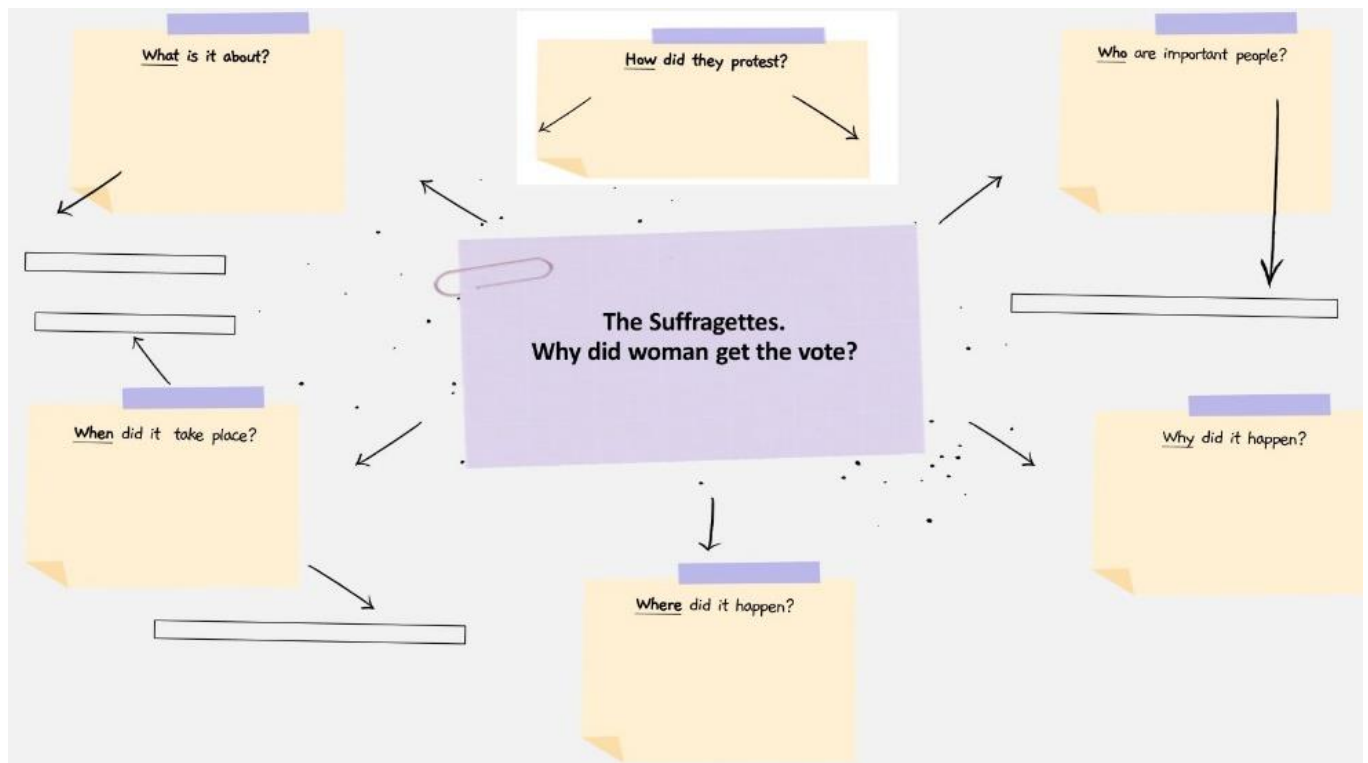

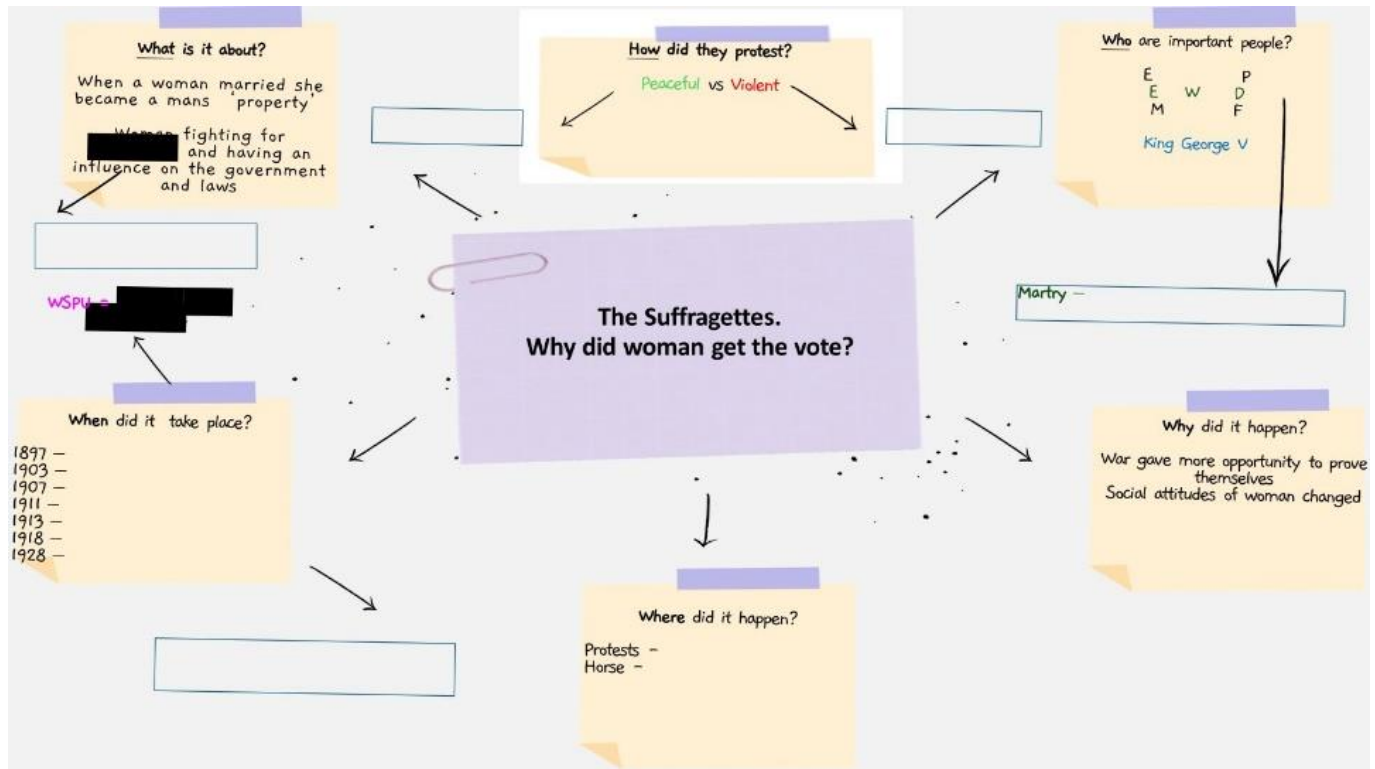

Respect

Kindness

You may also want to make 2 or 3 copies of your mind map. Reducing the content on each of these will help with your recall.

Ambition

Respect

Kindness

## Dual Coding

Dual coding is the process of blending pictures with words. Your visual and verbal pathways to the brain are not the same, so supplementing them together makes an additional pathway that is dual coded.

Dual coding can be included on Flashcards or mind maps, but it also affective as a poster, on a diagram, as a story board or a timeline.

- Read over classroom materials
- Use relevant images to support key words
- Use your own words to link up to the visual
- Work up to drawing what you know from memory.

## Creating the Right Study Environment

Creating the right environment supports students in successful study. Below are 5 top tips for creating the right environment.

### 1. Choose a Quiet, Distraction-Free Zone

- **Why?** Minimising distractions helps you concentrate better.
- **How?** Select a location away from noise, social media, or siblings. If your home is noisy, consider noise-cancelling headphones.

### 2. Limit Tech Distractions

- **Why?** Unnecessary screen time can derail your study session.
- **How?** If you're not using your phone for studying, put it on silent or leave it in another room. Use apps or software that block distracting websites during revision.

### 3. Organise Your Supplies

- **Why?** Keeping everything you need within reach avoids time wasted searching for materials.
- **How?** Have a tidy desk with essentials like pens, highlighters, paper, and a calculator. Use trays or organizers to keep everything in place.

### 4. Personalise the Space

- **Why?** A personalised area can boost motivation and make you feel more at ease.
- **How?** Add inspirational quotes, a revision timetable, or a vision board. But keep it minimal to avoid clutter.

### 5. Ensure Proper Lighting

- **Why?** Good lighting reduces eye strain and keeps you alert.
- **How?** Use natural light where possible. If not, a desk lamp with adjustable brightness is a great alternative.

Respect

Kindness

## Revision Timetables

Revision timetables are an essential tool for effective studying, especially during GCSE preparation. Here's why they are important:

### 1. Promotes Time Management

- A timetable helps you allocate specific times for each subject, ensuring that no topic is overlooked.
- It allows you to balance revision with other commitments like relaxation, hobbies, or exercise.

### 2. Reduces Stress

- Breaking your workload into manageable chunks makes the overall task feel less overwhelming.
- Seeing your progress in a structured plan builds confidence and reduces last-minute panic.

### 3. Encourages Consistency and Discipline

- Following a timetable ensures regular study habits, preventing procrastination.
- It helps you stick to a routine, which is key for retaining information over time.

### 4. Ensures Comprehensive Coverage

- You can systematically cover all subjects and topics, leaving no gaps in your knowledge.
- A timetable allows you to allocate more time to weaker areas or subjects requiring extra attention.

### 5. Boosts Productivity

- Knowing what you need to focus on during each session minimizes wasted time deciding what to study.
- It keeps you on track and helps you maximize your study hours.

### 6. Provides Motivation

- Seeing a well-organized plan gives you a clear sense of direction.
- Crossing off completed tasks can be rewarding and motivates you to continue working.
