

Year 1 - Evaluation

Talk about my own work. - likes / dislikes.

Talk about existing products and say what is good and not so good about them.

What did you like about making your product?

What did you dislike about making your product?

Have you ever seen your product in the shops?
Do you think yours is as good?

Yes

No

Year 6 - Evaluation

Test and evaluate my final product to see if it is fit for purpose.

Evaluate what would improve it.

Evaluate if different resources would have improved my product.

When you tested your end product, was it fit for purpose? Did it do what you had planned for it to and if not, explain why.

You're now the expert. What advice would you give to someone else who wants to make the same thing?

Think about your end product and decide on the area that needed the most improvement. What different materials or methods could you have used to improve the final piece?
