

Accelerated Reader at Larkhill Primary School

Reading Books

Our reading books are organised using a system called Accelerated Reader. Children are regularly assessed in school and this gives them a reading age and a reading level. Your child has a book mark which acts as a library card so they can borrow books to take home. Your child's reading level is indicated on this card and guides the children to choose books matched to their reading ability. This level will change throughout the year as children make progress.

Children are also able to take a second book home outside of their reading level: this is their reading for pleasure book. This book can be read to the children or they can try to read it themselves.

Accelerated Reader Quizzes

Once children have finished reading a book, they use the Accelerated Reader website to complete a quiz. They can complete these in school and then use the library to change their reading books. Children receive points for each quiz completed and can view their progress over each term on their own personal log in.

Quizzes can be completed for reading books and reading for pleasure books. If a book has been read to the child, they can choose this option before completing the quiz. If children read other books at home or listen to audio books, they can also complete quizzes and earn points for these as well. Children should be aiming to score at least 85% in every quiz they complete to show they have comprehended the book they've read.

To access Accelerated Reader at home, scan the QR code below or use the following website address:

<https://global-zone61.renaissance-go.com/welcomeportal/6708120>

Children will need their personal log in which they will be given by the class teacher.
