

The Learn & Prosper GAZETTE

ISSUE 01 | FRIDAY 30 OCTOBER 2026

Science Goes Off With A Bang!

Things got off to an explosive start at Learn & Prosper as our young scientists took part in an exciting experiment!

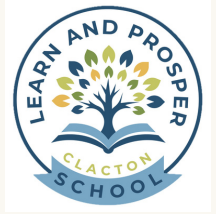

Pupils decorated plastic beakers with colourful monsters before mixing cornflour, water, food colouring and fizzy vitamin tablets.

After a shake, the rockets were ready for launch! Some shot impressively high into the air, creating colourful splashes.

"The best Tuesday ever!"
-Hayden

Sweet Success in Food Tech!

Things got deliciously messy in Food Tech this week as our budding chefs tried their hands at making s'mores! Pupils layered marshmallows onto biscuits before popping them into the oven. Once the marshmallows were warm and gooey, they added chocolate squares to create their sweet treats.

The finished s'mores were a huge hit, with pupils enjoying every last bite and even sharing their sweet creations with staff!

Creative Corner

A Stitch of Creativity!

Our pupils have been getting creative this week, trying their hands at knitting using a knitting machine!

With a little help from staff, they used colourful wool to make their very own creations, including a bright turquoise bottle cover made by Kier.

The pupils watched their designs take shape, turning simple balls of wool into something special!

Kier's handmade bottle cover!

A Spooktacular Masterpiece!

Hermione has been getting into the Halloween spirit with her very own spooky artwork!

Using purples, pinks and swirling patterns, she created a mysterious masterpiece filled with creepy handprints and unusual creatures.

A fantastic piece of artwork just in time for Halloween!

Animal of the Week

Meet Toast and Marshmallow, two male guinea pigs who are three years old!

Guinea pigs love munching on leafy greens, including lettuce, and can live for around five to seven years.

Did you know?

Wild relatives of guinea pigs come from South America, where they live in habitats including grasslands and rocky areas.

Researched by Hermione

Fact of the Week

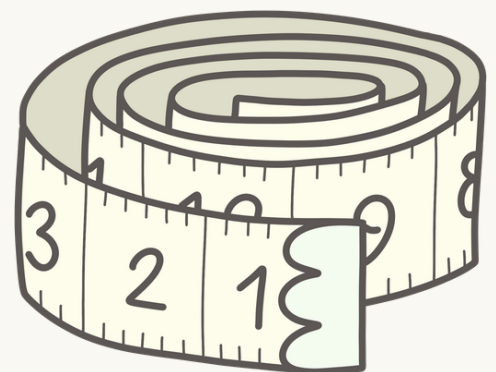

Did you know?

The tallest man ever recorded was Robert Wadlow, who reached an incredible height of 8 feet 11.1 inches (2.72 metres)!

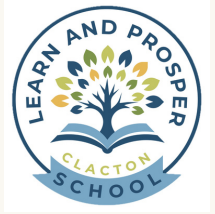

He was so tall that his shoes were around a UK size 36!

That's one enormous pair of shoes!

Fact researched by Hayden

This Week at Learn & Prosper!

Bentley's Brilliant Box Troll!

Bentley has spent the week bringing his very own Box Troll to life!

Armed with cardboard, scissors, glue and plenty of paint, he's been busy cutting, sticking and creating his colourful character.

After a week of hard work, Bentley proudly showed off his finished masterpiece, complete with a fabulous pair of jazz hands!

Who knew an ordinary cardboard box could have so much personality?

Created by Bentley!

Oli's Weekly Roundup!

What a week it's been at Learn & Prosper! Here's Oli with his roundup of what's been happening.

"This week we made an experiment that flew into the sky! There was a colourful mess everywhere.

We also made s'mores with chocolate all over the biscuits! They tasted amazing (it was my idea).

Throughout the week I've been digging a hole. There is a purpose, but I cannot share it with the readers this week."

Written by Oli.

What could Oli be digging for? We'll have to wait and see!

Kier's Weather Report!

Rain or shine, Kier has been keeping a close eye on the skies!

Our very own weather reporter has been busy recording the changing weather throughout the week, from chilly mornings and grey clouds to brighter, sunnier days.

Monday	Cold, black and cloudy.
Tuesday	Very cold, grey clouds in the sky and rain expected
Wednesday	Windy, cold and rainy
Thursday	Sunny
Friday	Rain for most of the day.
Saturday	Sunny
Sunday	Rain and cloudy skies

Kier predicts sunshine for the first half of next week, followed by rain towards the weekend.
