Andrew Finn

15th December 2025

Dear Parent/Carers,

I would like to draw your attention to an exciting offer for students in year 9 to gain some additional Maths or Physics support from Kings College Mathematic School. Here is what they have to offer:

King's College London Mathematics School aims to be a centre of excellence for the teaching and learning of mathematics, and to provide opportunities for students with an interest and aptitude for mathematics, especially to those from backgrounds currently under-represented in the mathematical sciences.

To realise this vision, we run programmes and events for both students and teachers. All student events are free of charge! If you'd like to be kept informed about these programmes and events you can email kclmsoutreach@kcl.ac.uk.

If you would like to apply, here are the links:

For maths, <https://www.cognitoforms.com/KingsMathsSchool1/GCSEMathsYear9>

For Physics, <https://www.cognitoforms.com/KingsMathsSchool1/GCSEPhysicsYear9>

The deadline for applying has been extended, but please do apply as soon as possible.

Good luck with your application.

Regards,

Mr Burke, Assistant Headteacher
