# ECONOMIC GROWTH AND JOB OPPORTUNITIES IN NEWHAM

**Newham is home to some of the largest and most spectacular developments in Europe. Investment in the borough includes Queen Elizabeth Park and Stratford, Canning Town and Custom House and the Royal Docks (including London's only Enterprise Zone). Newham is London's major regeneration prospect for the next 25 years.**

Stratford's transformation is unique in London by virtue of the scale of ongoing development. The area is now the home of an additional 5,500 workers following the relocation of the Financial Conduct Authority and Transport for London. In the coming years East Bank, a world class education and cultural district will be created on Queen Elizabeth Olympic Park which will bring together The Victoria and Albert Museum, London College of Fashion, Sadlers Wells, BBC

Music, The University of the Arts London and University College London (UCL) to showcase exceptional art, dance, history, craft, science, technology and cutting edge design. The scheme is expected to deliver 2,500 jobs, 1.5 million additional visitors and £2.8 billion of economic value to Stratford and the surrounding area.

A new financial and business district will be created by ABP at The Royal Albert Dock. This unique £1.7 billion project will form the headquarters of Chinese and other Asian companies allowing them to reach new markets across Europe. It will strengthen trade links between east and west, and attract companies from the UK seeking to do business with Asia as well as connect across Europe. The first businesses will be in place by 2019 and the whole

development will create up to 30,000 jobs when it is completed over a ten year period.

The immense scale of regeneration and development is not only about establishing Newham as a key player on the global stage, it is about securing long term growth and prosperity for future generations. By 2027, £22 billion will have been invested in Newham, creating more than 37,500 new homes and 100,000 new jobs. The council is committed to ensuring regeneration translates into economic and social opportunities for Newham residents. We expect to see job opportunities created across a range of sectors including: construction; digital & creative; retail & hospitality; business & finance; health & social care; green infrastructure & the environmental sector.

---

# ALL ROUTES AHEAD: HOW TO GET TO THE CAREER YOU WANT

Here is some advice to help you plan your next move after Year 11. Remember: whatever your first choice, make sure you have a back-up plan.

## **If you are in Year 11, you will need to continue in education or training until at least your 18th birthday.**

Studying a course until you are 18 will give you the best chance of developing the skills and gaining the knowledge that employers and universities want.

There are different options for you to choose from at age 16. You can study A levels in sixth forms or at college; study an applied technical programme e.g. BTEC, take up an apprenticeship or traineeship, or study part-time and combine your study with work or volunteering for more than 20 hours per week.

## **Can I work full-time?**

You will still be able to work full-time (more than 20 hours a week) if you want to, or volunteer or even set up your own business. But you will also need to make time to undertake part-time training or study in order to meet the duty to participate – this will allow you to get accredited qualifications.

## **What do I need to do?**

Start thinking about the type of learning or training you need to get you where you want to be in the future. There are a range of choices available to you at age 16, such as A levels; applied qualifications such as BTEC, or apprenticeships. You will have more choice about which route you would like to follow. This includes

more traditional pathways like GCSEs and A levels, applied or technical qualifications and training. Your teachers or the careers adviser at your school or college can help you decide what suits you best. Talk to your school careers coordinator to book a careers interview.

## **Full-time education**

Think about where you want to study. Do you want to study at a large sixth form college or FE college, a smaller school sixth form, or at a small training provider? You can find information about Newham learning centres in this brochure.

There are many different courses at a variety of levels. Your options will depend on your interests, strengths and Year 11 results. If you enjoy studying, do well at exams and are predicted to achieve mainly GCSEs at Grade 5 or above (formerly A\*-B) then AS/A levels could be right for you.

If you are interested in learning about a general career area but are not yet ready to learn about a specific job, then an applied course could be for you. Applied qualifications are Level 3 courses for 16 to 19-year-olds that teach transferable skills. They are for students that want to continue their education through learning applied to a general job area e.g. business administration, health & social care,

---

performing arts, arts, crafts, media & publishing. If you are interested in training for a specific job role, there are technical qualifications available at all levels such as ILEX (legal work), AAT (accounts) and IMI (motor industry). Apprenticeships also include opportunities to study for technical qualifications. Applied courses are also available at level 2 for students who are not yet ready to progress to level 3 courses.

## **Apprenticeships**

If you are ready to start your career immediately, an apprenticeship will provide you with a job that offers training as well. You can apply through training providers and directly to employers.

You will need to be interviewed by an employer and possibly pass an assessment test. You will receive payment of a minimum of £3.90 per hour as well as having the opportunity to gain qualifications. If you need more qualifications or experience before starting an apprenticeship, then you might wish to consider a traineeship.

## **Frequently asked questions (FAQs)**

***I need help deciding what I should do.***

***Where do I even start?***

The first thing you need to do is not worry! Careers advisers in your school have a broad knowledge of all the options. Based on your talents and individual needs, they will be able to help you make the best decision for you. Most of the learning centres in this brochure have course advisers who will be happy to talk to you. Please contact the centre directly to find out more.

For more information on specific careers and the qualifications and skills needed for them, visit the National Careers Service website.

***I know exactly what I want to do.***

***How do I apply?***

You need to check the application information and any deadlines on your chosen learning centre's website/s. Make sure that you complete the application fully and obtain references from your school. Your school will then advise you about submitting applications.

## What happens next?

If you meet the requirements for your chosen course and it is not oversubscribed, you will be offered a place. You may be asked to come in to discuss your application further. You will be able to ask questions and get advice to help you make the best choice for your future. If you are successful in your application, you will need to enrol formally in August or September 2020. All offers of places are made subject to availability and are sometimes subject to you achieving your predicted grades. If you do not achieve your predicted grades, get in touch with the college or learning centre as soon as possible to see if they will still accept you on the course or have another option available.

## Late enrolments – it may not be too late!

The earlier you apply, the more options you will have. However, if you've missed the enrolment date, there may still be a chance to get a place on a course. Enrolments generally continue for two weeks after the start of the course, and this can be extended in some cases. The best thing to do is contact the learning centre to find out more.

## Where do Newham's young people go?

**Abdullah** attended Brampton Manor Academy and went on to achieve a Level 3 BTEC extended diploma in mechanical engineering triple distinction star (D\*D\*D\*) at NewVic Sixth Form College. Abdullah is now studying mechanical engineering at Brunel University.

**Elizabeth** attended The Cumberland School and went on to study at NewVic Sixth Form College achieving A levels in English language and literature (A\*), history (B), philosophy (A) and an AS-level in psychology (B). Elizabeth is now studying social anthropology at London School of Economics and Political Science (LSE).

**Kainatt** attended Plashet School and is now studying for a Level 2 qualification in app development for smart digital technologies, at the Samsung Digital Academy at Newham College.

# INFORMATION

for young people with special educational needs and disabilities (SEND), and for those helping them

---

# Leaving school to start the next stage of your life is very exciting, but it can also be an anxious time when careful decisions and choices have to be made that help you to fulfil your dreams and aspirations.

---

You will be thinking about the future and what you would really like to do. You will need to look into which courses or training are available and if you have a physical disability, a learning disability or perhaps both, you will also want to know about student support services that will enable you to get on with your learning.

## What do I do next?

- 1** Once you have found a course that is of interest, you can find out more by contacting the college, sixth form or other learning provider to arrange a visit. You will find contact details in this directory. Explain that you need to know about student support services and ask if you can meet the course tutor and someone from Student Support Services.
- 2** When you visit remember that this is your opportunity to find out about the course and for the course tutor to find out about you. The course tutor will know the course well and be able to offer you their best advice. It is important to listen

carefully; you are making an important decision and it has to be the right one for you now and for your future plans.

- 3** When you speak to Student Support Services or the course tutor, explain the support that you have had in the past and how this has helped you with your studies. Let them know if you have a statement of special educational needs and disability (SEND), or an Education, Health and Care plan (EHC plan).

## Some good advice

- Advice and guidance is very important. There are people available to help you in school. It is really important to work with them.
- Listen to the course tutors that you will meet. If for some reason it is felt that the course is not the right one for you, do not be too disappointed. This happens to everyone at some time and it is very important that you start the right course.
- Whatever you choose to study, remember that it does not

matter if your learning takes small steps or larger ones, what matters is that you are working towards what you would like to do in the future, remembering that along the way we sometimes do change our mind about what that is!

- You are used to being at school for five days every week and you may now find that some courses or training are for only one, two or three days. Try not to let that worry you or those close to you. Your spare days are an opportunity to do something else that interests you which could be another course at the same place. Speak to the people who are helping you for advice and guidance.
- Lastly, enjoy yourself and your learning.

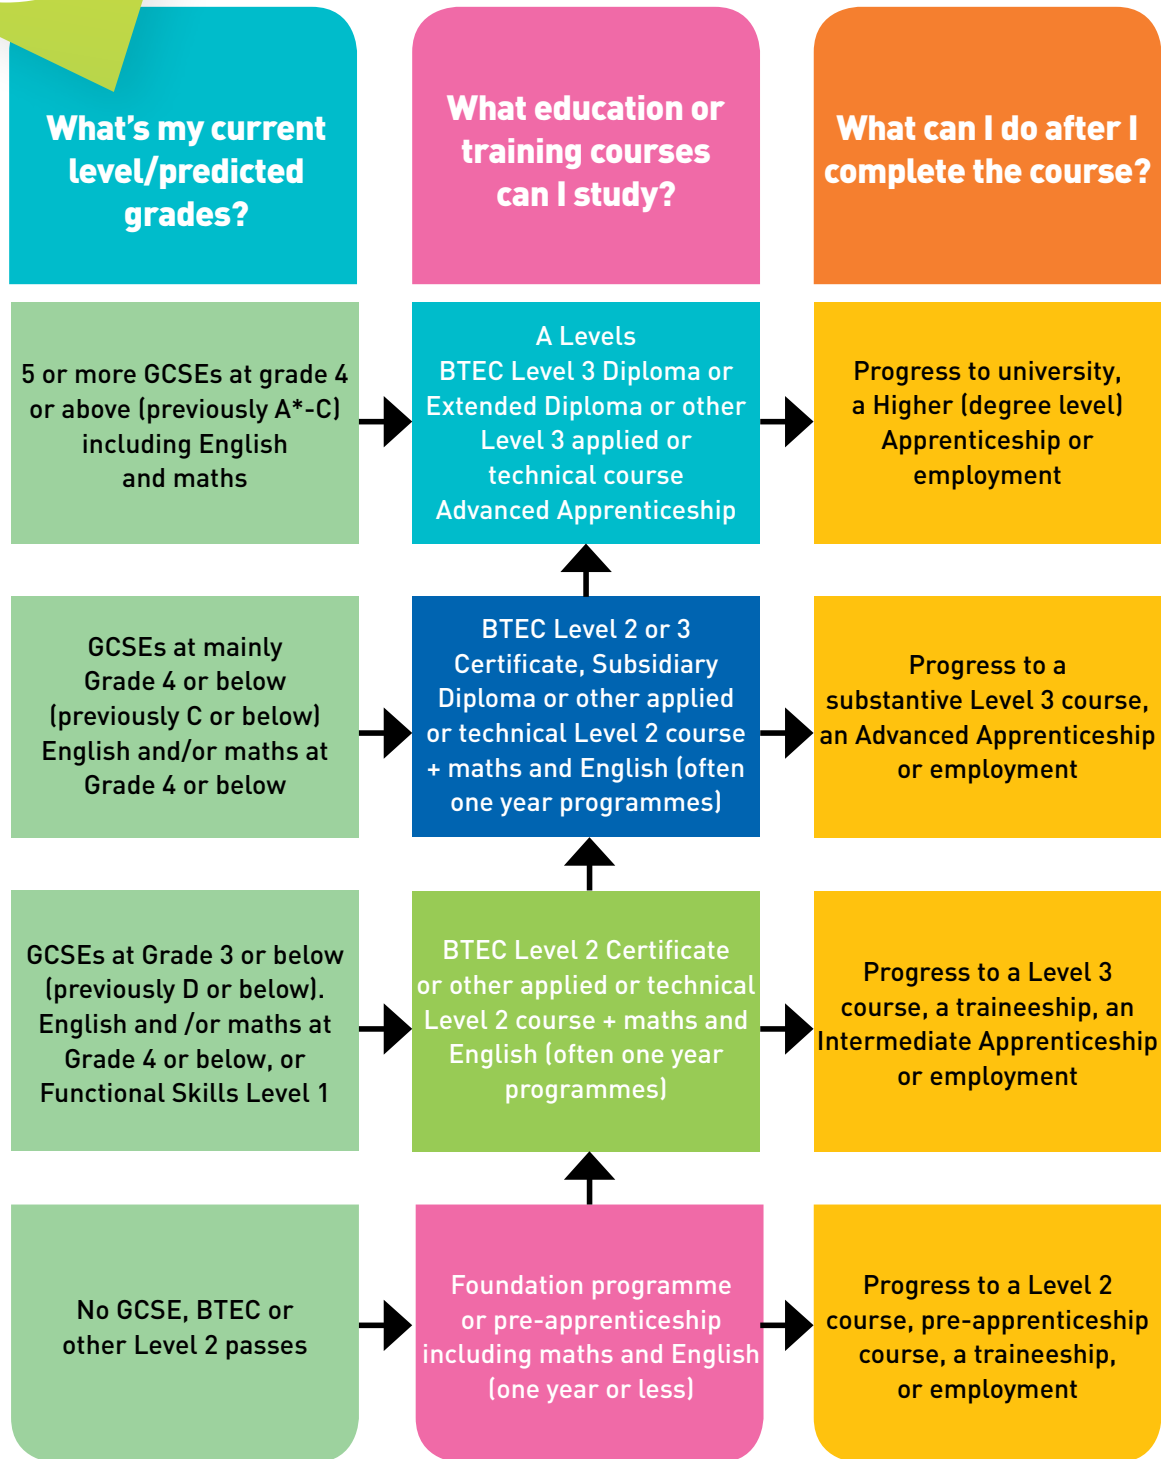

To find out about a wide range of services available for young people with Special Educational Needs and/or Disabilities, please visit [www.families.newham.gov.uk](http://www.families.newham.gov.uk)

# WHAT LEVEL IS RIGHT FOR ME?

If you don't achieve a minimum of a Grade 4 at GCSE or a Level 2 pass in Functional Skills in maths and English by age 16, you will need to continue studying maths and/or English as part of your post-16 study programme.

# What level is right for me?

There will be specific entry requirements for individual subjects and courses, and some subjects have higher entry requirements than others

---

# APPRENTICESHIPS

There has never been a better time to start an apprenticeship.

Apprenticeship participation now stands at a record level - there were 491,300 apprenticeship starts in the 2016 to 2017 academic year of which 121,250 (24.6%) were under 19.

Apprenticeships give you the opportunity to work for a real employer alongside experienced staff. You will earn a wage and gain qualifications as well as valuable workplace experience and relevant job-specific skills. Apprentices are also given time for study related to their role (the equivalent of one day a week).

## Why apply?

- Earn a real wage;
- Be trained in the skills employers want;
- Set yourself up for the future - apprentices enjoy marked salary increases when they complete their training, and those completing a higher apprenticeship could see increased earnings of an estimated £150,000 over their lifetime.\*

## What types of apprenticeship are there?

All apprenticeships include elements of on the job and off the job training, leading to industry recognised standards or qualifications. Some apprenticeships also require an assessment at the end of the programme to assess the apprentice's ability and competence in their job role.

Apprenticeships are available at different levels:

- **Intermediate Apprenticeships** - equivalent to GCSE (Level 2)
- **Advanced Apprenticeships** - equivalent to A Level (Level 3)
- **Higher Apprenticeships** - equivalent to Foundation degree and above (Levels 4, 5, 6, 7)
- **Degree** - equivalent to a Bachelor's or Master's degree

## How long is the Apprenticeship training?

Apprenticeships take between one and four years to complete and cover more than 1,500 job roles in a wide range of industries, from engineering to financial advice, veterinary nursing to accountancy. The Government is committed to increasing the number of apprenticeships in the UK over the next few years, so there has never been a better time to get involved.

## How old do you have to be?

Anyone living in England aged 16 and over who is not in full-time education can apply to be an apprentice. If you feel you are not ready for an apprenticeship yet, you may want to try a traineeship.

### Gintare, Rail project Co-ordinator, Mace

"The apprenticeship gave me a really good start to a career with great prospects. Following my apprenticeship in business administration, I secured my current job as I had developed a firm foundation in office administration. Practical experience together with the underpinning skills provided by my apprenticeship has been a great route into a career in project management."

---

## Entry requirements

Apprenticeships are available to anyone over the age of 16, living in England and have no upper age limit. The National Apprenticeship Service is committed to ensuring that high quality apprenticeships are a prestigious option, accessible to all people from all backgrounds. All vacancies on [Find an apprenticeship](#) will clearly state what the entry requirements are for the job role being advertised.

There will be different entry requirements depending on the industry, job role and apprenticeship level.

If your predicted grades at GCSE don't meet the entry requirements for the apprenticeship you are interested in, you can apply for a Traineeship. Recent changes to the minimum English and maths requirements now mean that people with a learning difficulty or disability can now access a Level 2 intermediate apprenticeship as long as they can achieve an entry Level 3 qualification during their apprenticeship.

A Disability Confident Employer will generally offer an interview to any applicant that declares they have a disability and meets the minimum criteria as defined by the employer. For more details, search Disability Confident on [GOV.UK](#).

## How much do you get paid?

The minimum wage for apprentices is £3.90 per hour from April 2019, but many employers pay more than this. The Apprenticeship Pay Survey 2016 estimated the average gross hourly pay received by apprentices in Great Britain was £6.70 an hour for Level 2 and 3 apprentices which is equivalent to nearly £14,000 per year. This is dependent on the sector, region and apprenticeship level. Your employment will normally be a minimum of 30 hours per week.

## Training

During your time as an apprentice you will receive training to enable you to gain nationally recognised qualifications which will help advance you in your chosen career. Apprenticeships are designed with the help of employers, so they offer a structured programme that takes you through the skills you need to do a job well.

### Zavier, Trainee Site Engineer, Balfour Beatty

“Studying a Level 3 qualification in construction and the built environment was the ideal way to kick-start my career into a profession where there are huge opportunities and insufficient skilled and experienced people. The apprenticeship gives me the best of both worlds - experience and qualifications.”

## What's on offer?

Large, multi-national organisations to medium and small enterprises offer apprenticeships in a variety of sectors, including:

- Retail and commercial enterprise
- Construction, planning and the built environment
- Engineering and manufacturing technologies
- Leisure, travel and tourism
- Art, media and publishing
- Business, administration and law
- Information and communication technology
- Health, public services and care
- Education and training.

There are more and more apprenticeships becoming available each year at different levels, and employers including B.T, the BBC, Glaxo Smith-Kline, Lloyds Banking Group, MoD Army, Newham Council, NHS Blood and Transplant (NHSBT), Royal Air Force, Royal Navy, Starbucks, Travis Perkins, and TfL offer apprenticeship routes into their organisations.

A number of large organisations have replaced their graduate entry routes with higher or degree entry apprenticeship routes for applicants with Level 3 (A Level equivalent qualifications).

---

## Where to look for an apprenticeship?

If you are in Year 11 and interested in an apprenticeship, there are several ways you can find out more.

More information, including videos of current apprentices, is available at [apprenticeships.gov.uk](https://www.apprenticeships.gov.uk). You can search and apply for vacancies on Find an apprenticeship on [GOV.UK](https://www.gov.uk). Once registered on Find an apprenticeship, email and text alerts can be set up about new apprenticeship vacancies which may be of interest.

If you would like to view more information on a selection of well-known employers you can visit the vacancy snapshot at [amazingapprenticeships.com](https://www.amazingapprenticeships.com). It displays a range of employer fact files outlining the types of apprenticeship vacancies available at these companies across the year. If you have a specific interest in a certain employer, it is also worth going direct to their recruitment site.

You could also meet employers and their apprentices through the amazing apprenticeships live broadcast feature. In these interviews, you can take a look behind the scenes of a range of different employers and meet some of their apprentices [amazingapprenticeships.com/live-broadcasts](https://www.amazingapprenticeships.com/live-broadcasts)

Contact the National Apprenticeship Helpdesk for further support on 0800 015 0400 or by email: [nationalhelpdesk@findapprenticeship.service.gov.uk](mailto:nationalhelpdesk@findapprenticeship.service.gov.uk).

The Apprenticeship YouTube channel has useful hints and tips on applying plus other videos on apprenticeships, visit [YouTube](https://www.youtube.com) and search apprenticeships/NAS.

For information and guidance visit [www.findapprenticeship.service.gov.uk/apprenticeshipsearch](https://www.findapprenticeship.service.gov.uk/apprenticeshipsearch) where you can download:

- **How to write a winning apprenticeship application**
- **Progress your career with higher apprenticeships**
- **Apprenticeship support guide**

If you want to find out more about apprenticeship opportunities and training in Newham, you can contact local apprenticeship training providers.

---

Newham College

London Skills for Growth

[www.skillsforgrowth.org.uk/apprenticeships](http://www.skillsforgrowth.org.uk/apprenticeships)

Building Crafts College

[www.thebcc.ac.uk/apprenticeships](http://www.thebcc.ac.uk/apprenticeships)

**for apprenticeship vacancies in construction and the built environment**

Newtec

[www.newtec.ac.uk/trainingcourses/](http://www.newtec.ac.uk/trainingcourses/)

**for apprenticeship opportunities in health and social care and childcare & apprenticeship vacancies in NEWTEC nurseries**

Newham Council offer apprenticeships each year to local residents aged 16-30. The Council pays the London Living Wage of £10.55 per hour, and there are a range of apprenticeship vacancies available. Check the Newham Council website regularly to see when applications for apprenticeship vacancies in 2020 will open [www.newham.gov.uk/apprenticeships](http://www.newham.gov.uk/apprenticeships)

### How to apply?

At any one time on Find an apprenticeship, in a variety of careers and industries across England, there are between 12,000 - 20,000 apprenticeships vacancies online available at [gov.uk/apply-apprenticeship](http://gov.uk/apply-apprenticeship). You can search by keyword (job role, occupation type or apprenticeship level) and by location. In addition, some employers advertise vacancies on their website.

Once the right job comes up, simply register on the website and follow the step by step instructions to apply for the role.

You can talk to your school careers adviser about apprenticeships and they will support you in making apprenticeship applications.

### Ismaeel, Trainee Accountant, London Borough of Newham

"I saw the apprenticeship programme as a great alternative to university. It provided me with an option to train while learning and was an opportunity to professionally practice accountancy principles in a working environment which helped me to develop into an effective trainee accountant."

If you find an apprenticeship vacancy that you want to apply for, but your predicted grades at the end of Year 11 don't meet the entry criteria, we recommend that you apply for a traineeship first. A Traineeship is a stepping stone to help you to boost your qualifications and work experience in order to successfully apply for an apprenticeship.

### Further Support

Additional financial support is available for care leavers starting apprenticeships. A £1,000 bursary is available to support care leavers who are aged 16-24, this will be paid directly to them in the first year of the apprenticeships. If you need help with your apprenticeship application or professional advice on making the right choices, visit [nationalcareersservice.direct.gov.uk](http://nationalcareersservice.direct.gov.uk) for a web-chat with an adviser or call 0800 100 900 (free from landlines and mobiles).

### Other benefits

Did you know that apprentices are entitled to an NUS card? This is issued through the National Union of Students and gives you discounts at a number of retailers and services. You may also be entitled to apply for an Apprenticeship Oyster Travelcard, which allows you to claim up to 30% off adult travelcards and bus and tram season tickets.

# Traineeships

A traineeship is real work experience with training that focuses on giving young people the skills and experience employers are looking for.

If your predicted grades don't meet the entry criteria for the apprenticeships that you are interested in, or if you have been unsuccessful when applying for an apprenticeship then you are likely to be a good candidate for a traineeship.

## What is a traineeship?

Traineeships are an opportunity to gain real work experience, job skills and improve your English and maths, if needed.

The programme can last up to a maximum of six months with the content tailored to your individual career needs.

At its core are a high-quality work experience placement, work preparation training, and English and maths if needed

## Is a traineeship right for me?

Traineeships are ideal if you are motivated to get an apprenticeship or job but lack the entry grades, skills and experience that employers are looking for.

If your predicted grades don't meet the entry criteria for the apprenticeships that you are interested in, or if you have been unsuccessful when applying for an apprenticeship or other job due to a lack of skills and experience then you are likely to be a good candidate for a traineeship.

You could be suitable if you will be aged 16 at the time that you apply, are motivated to work, have little work experience, and are qualified below Level 3 (A Level).

- Motivated to work.
- Have little work experience.
- Aged between 16-24 and qualified below Level 3.

## What are the benefits of a traineeship?

Traineeships have been developed in response to research showing that young people frequently lack the knowledge and experience employers expect in the workplace.

## Traineeships will help to tackle this problem, while benefiting you in the following ways:

- The opportunity to build your CV and get valuable work experience with local and national employers, where you are able to learn about the business and the industry it operates in.
- Work preparation training will put you in a better position to compete for an apprenticeship or other employment.
- Maths and English support, if needed, to help you with the literacy and numeracy skills needed to boost your career prospects, as well as improving your long-term chances and earning potential over your lifetime.
- Employers are at the centre of the work experience, which ensures you are 'work ready', and have the confidence to take the first step to securing employment and kick starting your career.
- At the end of your work experience you'll get an interview with the company if a role is available or an exit interview, together with meaningful written feedback, to help you secure an apprenticeship or other employment.

“Traineeships are a great opportunity for both parties. Not only can the employer get to know the trainee but the trainee can get real exposure to the type of career that is available and make an informed decision that is best for them.”  
**Chris Starling,  
Head of  
Apprenticeships,  
Virgin Media**

“My traineeship has given me the chance to improve my technical skills and show my determination to succeed. The support I have received has been brilliant, with regular reviews and updates on my progress.”  
**Jake completed a  
traineeship with  
Virgin Media and  
has now progressed  
to an intermediate  
apprenticeship.**

### Will I be paid?

Employers are not required to pay you for taking part in a traineeship but may support you with expenses such as transport and meals. The work placement is a real opportunity to gain meaningful work experience.

Depending on your individual circumstances, you may be able to access financial support from your training provider, for travel costs or if you need extra support due to a disability.

### How do I find a traineeship?

Now that you’ve determined a traineeship could be the right route for you, there are two options available:

1. Traineeship opportunities are advertised regularly on Find a Traineeship on [GOV.UK](https://www.gov.uk).
2. Contact your local colleges or training providers and find out more about traineeships. In Newham, Newham College, Skills for Growth, and Newtec all offer traineeships.

---

# FINANCIAL SUPPORT AND HELP

If you are under 19 and have been resident in the UK for three years or more, full-time 16-19 education fees are FREE (this is subject to eligibility and status)

[www.gov.uk/education/funding-for-16-to-19-year-olds-in-schools](http://www.gov.uk/education/funding-for-16-to-19-year-olds-in-schools) Fees will be charged for commercial or higher education courses, and international students have to pay fees on all courses.

While you may not have to pay tuition fees, you might have other expenses to consider such as exam fees and the cost of materials for your course.

## 16-19 bursary fund

You could get a bursary to help with education-related costs if you are aged 16 to 19 and:

- **studying at school or college (not university) in England**
- **on a training course, including unpaid apprenticeships.**

Students most in need may be eligible to receive a bursary of £1,200 a year. This group includes young people who are:

- **in care or have recently left local authority care**

- **receiving income support**
- **disabled and receive an Employment and Support Allowance (ESA), and either Disability Living Allowance (DLA) or a Personal Independence Payment (PIP) in their name.**

## Discretionary bursary

Other students facing genuine financial difficulties may be awarded a bursary to help with the costs of travel, books or equipment. Bursaries may also be paid in kind.

Bursaries are paid on achievement of criteria such as attendance, punctuality and progress. Education and training providers decide on a student's eligibility for bursaries; they also administer the bursaries and payments.

If you need financial support, speak to your student support service or tutor to find out more, or visit the 16-19 bursary fund website [www.gov.uk/1619-bursary-fund](http://www.gov.uk/1619-bursary-fund)

## Care to Learn – help with childcare while you learn

Care to Learn is available to young people under the age of 20 who

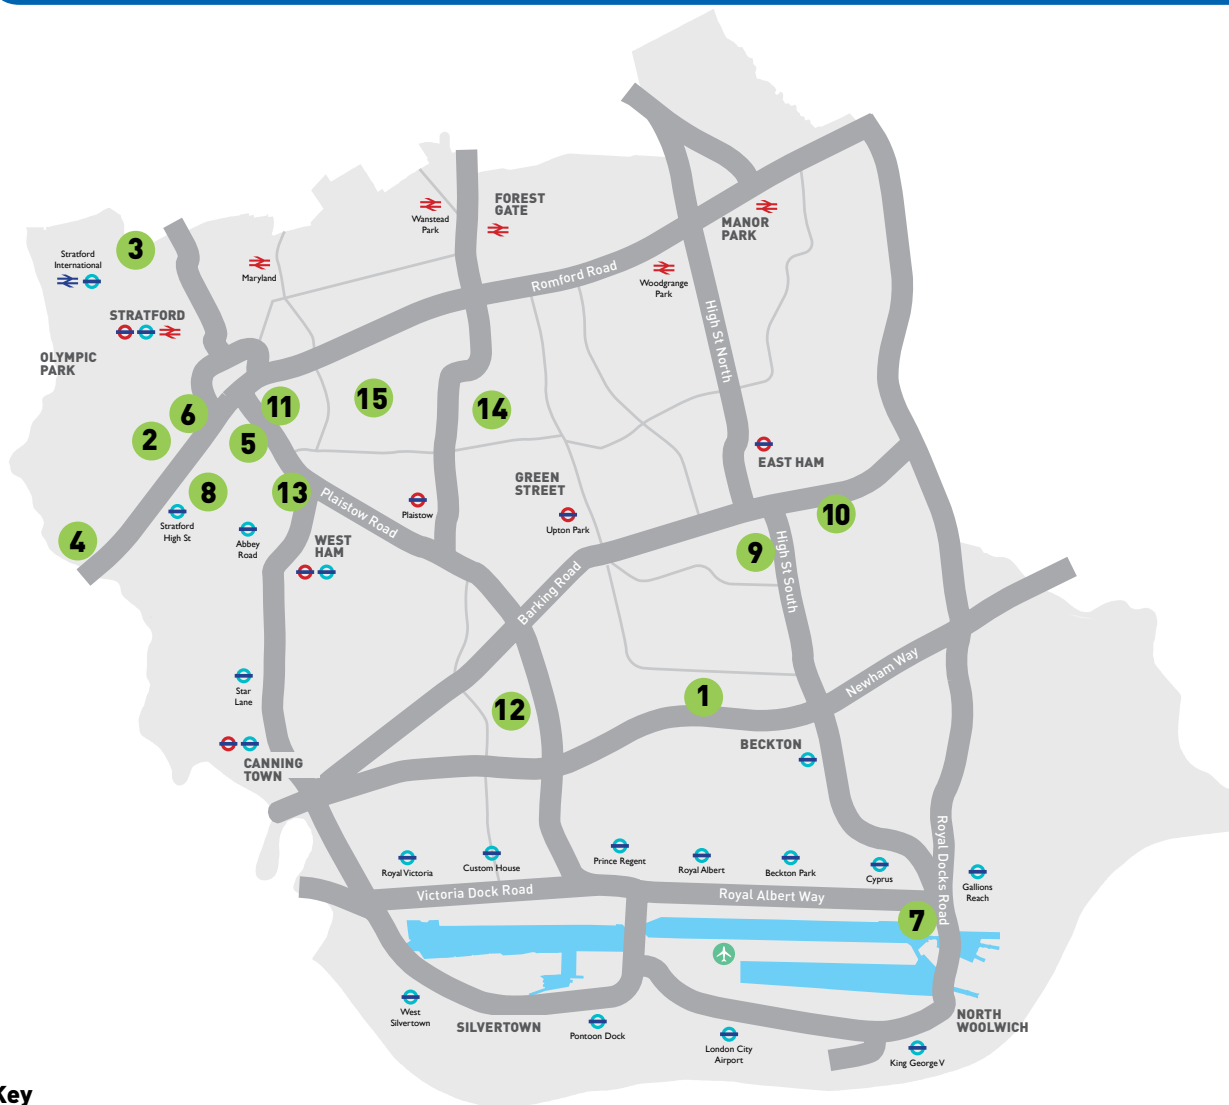

have one or more children and participate in learning and training (not in employment), on a publicly funded course in England. If you live in London you may be awarded up to £175 per child per week to assist with childcare costs. For more information, please visit [www.gov.uk/care-to-learn](http://www.gov.uk/care-to-learn)

## Other awards and allowances

You could get a Dance and Drama Award (DaDA) to help with fees and living costs at one of 19 private dance and drama schools. Contact the school you want to go to and tell them you want to apply for a DaDA. You must be 16 or over and show talent and a likelihood to succeed in the industry.

If you are gifted and talented in specific subjects, such as sports, music and art, there are charitable organisations who you could apply to for funding. Information on such organisations is listed at public libraries, or you can speak to a careers adviser.

**“Brampton Manor Academy Sixth Form is one of the country’s leading A level providers. We offer only academic A levels and provide excellent teaching and guidance that enables the vast majority of our students to progress to the most prestigious Russell Group universities in the UK. If you’ve got a dream, we’ll help make it a reality.”**

*Dr Dayo Olukoshi OBE,  
Executive Principal*

Brampton Manor Academy Sixth Form offers distinctive, academic provision within Newham. We deliver a rich programme of A level teaching in a wide range of subjects for students who aspire to achieve the high grades required for admission to the UK’s top universities. Brampton Manor Academy is a highly successful school, having been rated by Ofsted as “Outstanding” in all areas in 2018.

Our amazing 2018 AS/A level results are an indication of the quality of our teachers, many of whom are Oxbridge and Russell Group graduates. Our teachers will leave

no stone unturned in ensuring that you succeed.

We offer excellent curriculum resources with top quality accommodation in all curriculum areas, all fully resourced with the learning materials and equipment needed for outstanding teaching and learning.

Further, we provide a bespoke programme of extracurricular activities, ranging from yoga to debating, to enrich your personal development. Many of our students attend summer schools with leading universities, including Oxford, Cambridge, Bristol and UCL. All students undertake work experience in a field of their choice in the summer term.

Our sixth form is academically selective and students are taught in average class sizes of 20. Sixth form teaching takes place in our dedicated 6th form centre comprising of 25 teaching rooms (including four science laboratories), a large study centre and a large student common room with cafeteria. The centre has

---

Level 3 | A Level

its own outdoor area with picnic tables and our sixth formers have priority use of the adjacent tennis courts, cricket nets and other sports facilities.

We offer you our track record as a school:

→ **Our 2018 Russell Group progression rate is 75%, the second highest in the whole of the United Kingdom,** with students going to great universities like Oxbridge, LSE, UCL, Imperial, Warwick, Bristol and Durham.

→ **Our students achieved fantastic results at A level in 2018 with 61% of all grades awarded either an A\* or an A.** Over 100 students achieved straight A grades or above across their A levels.

→ **We are in the top 1% of schools in the country for student progress from KS4-KS5, achieving the highest progress score in Newham for the past three years and in the top 10 nationally.**

→ **20 of our students progressed to Oxford and Cambridge Universities** to study highly

competitive courses like medicine, law and economics in 2018 - the highest of any local provider.

We offer you academic success and the opportunity to develop the skills and qualities needed for university admissions, alongside first class UCAS guidance provided by our dedicated university access officers, who are graduates of Oxford and Cambridge universities. Alongside the high academic success you will achieve at Brampton, our most defining feature is the care and support we provide our students. We treat all students as individuals and do all we can to help you achieve success in whatever field you wish, enabling you to have an enjoyable and rewarding two years.

# BUILDING CRAFTS COLLEGE

## Subjects

Construction

**“We pride ourselves on a welcoming and supportive atmosphere and as a small college, we are not too big for the individual.”**

*Len Conway, Principal*

Every student is placed under the direction of a nominated course tutor, who is responsible for all aspects on that individual’s training and welfare. Other members of staff will support the learner in meeting individual’s needs, but the nominated tutor combines the traditional role of the master craftsman with that of a mentor, to advise and guide students at every stage of their development.

The college is essentially practically based. The majority of time spent in the workshop environment, whilst much of the theory and underpinning knowledge is imparted in small groups around the work bench. Lecture rooms, with modern IT and projection facilities, are used for more structured, theoretical instruction, with a library also available as a quiet room for personal study. All students have access to the college computer system for course work and the compilation of portfolios for assessment purposes.

The college is fully committed to providing equality of opportunity

Level 3	BTEC	Vocational	Advanced Apprenticeships
Level 2	BTEC	Vocational	Intermediate Apprenticeships
Level 1	Multiskills programme		

**Building  
Crafts College**  
Crafting Excellence

and celebrating difference. We strongly believe that all of our students are capable of progressing in their chosen subjects, to become a master craftsperson, a construction manager, or a technical expert in their field. When students enrol at the Building Crafts College, they become our learners regardless of their background or prior achievement. They receive our support and commitment to achieve their full potential.

Students can progress through our Level 1 courses in carpentry and joinery, construction or stonemasonry on to Level 2 and 3 courses in the same subjects. At age 18 you can progress on to full time programmes in fine woodworking and furniture making. Evening classes are available in woodwork, stonemasonry and wood carving. The Building Crafts College also offers a degree in historic building conservation.

# CHOBHAM ACADEMY

## Subjects

Business, economics and computing

English literature and modern foreign languages - Spanish

Humanities

Performing arts

Sports

Science and mathematics

**“Our sixth form students have achieved amazing successes since we opened; we are all immensely proud of them.”**  
*Michael Whitworth, Principal*

Life in the sixth form is a very special time for students for many reasons. The core values of Chobham Academy, namely excellence, respect, integrity, innovation, collaboration, are mirrored within our sixth form; we combine the traditional values of excellent behaviour and smart attire with great teaching, academic excellence and the best of modern technology. Sixth-form students at Chobham Academy enjoy a dedicated ICT suite, study room and panoramic roof terrace as well as a sixth form cafe.

Our sixth form offers the opportunity to study on an A level pathway or a technical pathway and the Football Academy was launched in 2018. 2019 also welcomes West Ham Girls Academy to the Sixth Form. Students we are able to make use of cutting-edge facilities, including a theatre and box office, dance studio, Mac suite and recording studio and excellent sporting facilities.

In the six years since opening, our students have enjoyed many notable successes as highlighted by our 2019 A level and destinations results:

- **Proportion of students studying an undergraduate**

## What is it like to study here?

“No matter what subjects you’re doing or what career pathway you want to follow, the teachers give you the support and opportunities that will allow you to follow your dreams.” *Tracey*

- degree at university - 80%.
- Proportion of students studying an undergraduate degree at a top 50 university - 41%.
- Many have secured places to study at the most prestigious universities in the country, including Imperial College London, UCL, the LSE and King’s College London.

Chobham Academy is part of the Harris Federation, which for the first time in 2015 established a bursary for gifted but disadvantaged students who have gained places at Russell Group Universities. Chobham is included in the Harris Experience Advanced Years 12-13 Programme (HEA). HEA is a Russell Group application programme providing expert

guidance and individually-tailored academic opportunities for our most able sixth formers.

In addition to these academic successes, our students have had access to a wide range of external speakers and careers advice. Students received visits from many outside organisations such as Pathways, UEL, Mark Evison Foundation, Unifrog, NCS, Holocaust Educational Trust, London Borough of Newham Workplace, UCL, Fix Up and Royal Holloway.

Chobham Academy, a Healthy School (Bronze award, 2017) was in June 2015 judged by Ofsted to be an ‘Outstanding’ school and the sixth form was also judged as ‘Outstanding’. Ofsted wrote that “[sixth form students]

benefit from an extensive range of highly effective teaching and learning opportunities. There are opportunities to complete high quality work placements and participate in a carefully planned personal development programme.”

# EAST LONDON SCIENCE SCHOOL SIXTH FORM

## A-level subject list:

Art  
Biology  
Chemistry  
Computer science  
Economics  
English  
Geography  
History  
Latin  
Mathematics  
Philosophy  
Physics

**Building on the success of the East London Science School, ELSS sixth form opened its doors in September 2018. The sixth form provides a high quality A-level education aimed at creating the engineers, medics and scientists of the future. East London Science School has already built strong relationships with Oxbridge Colleges and many of the Russell Group Universities. We want to provide our sixth formers the widest range of opportunities to continue their education at prestigious institutions as well as outstanding apprenticeships.**

### **Our Curriculum Offer**

Mathematics, biology, chemistry

and physics A-levels are at the heart of our sixth form curriculum. All pupils studying A-levels will study mathematics with us. Mathematics A-level is perhaps the single defining feature of a well-educated student. Having A-level mathematics increases the breadth of degree courses to which you can apply. It is essential to have A-level mathematics if you wish to pursue a degree in the sciences or engineering.

The sixth form provides pupils with the opportunity to study four A-level subjects with a guaranteed teaching allocation

To stand on the shoulders of giants.

of 5 hours per week for each subject. Subject specialists will teach above and beyond the A-level specifications in order to prepare students for university life and to engage and inspire students in the subjects they have chosen.

### Enrichment and Careers

The ELSS sixth form provides pupils with a first class enrichment and careers programme. Subject-specific lectures and seminars run on a regular basis, delivered by a mixture of subject teachers and guest lecturers from distinguished universities. All sixth formers have the opportunity to join the ELSS Duke of Edinburgh's Award Programme which offers bronze silver and gold awards for undertaking volunteering and expeditions. The following sixth form school trips are also proposed:

- Ski trip to Europe
- China exchange
- Rome Latin tour
- Biology field trip e.g. Operation Wallacea
- Expedition- social action and adventure

The careers programme also continues into the sixth form with a greater emphasis on UCAS applications, opportunities for work experience and study days at top universities.

We expect all ELSS sixth formers to be pupils who enjoy the challenge of hard work. If you are an aspiring medic, scientist or engineer then we are for you.

**The sixth form is built around ELSS's central ethos that all pupils deserve a high quality education. Our teachers are extremely passionate about their subjects and will demand the attitude to learning that will deliver top results. The sixth**

**form is the final step in fulfilling the school's vision of creating intelligent and confident pupils that go on to make an impact in the world.**

Vocational skills  
World studies  
Independent living skills  
Sport and physical activity

Special Needs Academy

**“At John F Kennedy school we offer a continuation of high quality learning for young people with complex learning needs.”**

*Diane Rochford, Executive Headteacher*

We offer a small allocation of post 16 places within our 4-19 school. Our post 16 provision is delivered at both our Beckton and Stratford campuses. The main focus of our curriculum is to develop communication skills and to support developing independence.

We offer structured teaching and learning approaches within our Autism Spectrum Condition

(ASC) provision, supported by symbolic communication strategies (the Picture Exchange Communication System – PECS). We offer a sensory based curriculum with all aspects of physical development and postural management in our

provision at Stratford for more complex learners.

We offer Preparation for Adulthood programmes such as ASDAN Towards Independence. We offer ASDAN qualifications, Entry Level 1 as well as ASDAN Life Skills Challenge. Our programme of study includes communication, literacy, numeracy, life skills including horticulture and vocational modules.

### What is it like to study here?

“Like most parents who have a young man with Jono’s needs we were very anxious about Jono’s transition at 16 but there was very little problem.

“The truth is Jono has thrived at JFK; they got a handle on him so quickly and he’s made real progress in all the ways you’d want him to academically, in communication and crucially for Jono in managing his emotions. He’s learned amazing new skills like ice skating, gardening and, essentially for home, washing the dishes!

“However when you have a young man like Jono who doesn’t use words, you have to watch and observe carefully. This is what I see: every morning when the bus comes to take him to JFK he smiles and most nights when he comes through the door he is equally cheerful. JFK makes him happy; you have to ask yourself as a parent could you ask for more?”

**Alison, parent of former JFK pupil**

Product design  
Computing  
Mathematics  
Physics  
Biology  
Chemistry

**“An amazing thing is happening in East London. It’s going to change thousands of young lives and give Britain the dynamic and creative workforce it so desperately needs. It’s called LDE UTC and if you are 13+ and want to attend the tech school of the future...You need to know about it!”**

*Jason Bradbury, TV tech expert and LDE UTC governor*

The London Design & Engineering University Technical College (LDE UTC) is a student-focused, high-tech school where academic excellence and employer partners create the next generation of

confident, independent, work-ready individuals.

We combine first class facilities and specialist equipment with outstanding staff. This provides

Level 3 | A Level | BTEC | Advanced Apprenticeships

experiences that will equip students of LDE UTC with the skills they need to secure employment or routes into higher education.

The curriculum is delivered through interesting and exciting employer-led projects, enabling learning by doing. We make learning relevant and memorable, which boosts our students' academic achievement.

Every student receives expert careers advice from our university and employer partners, as well as access to mentoring, site visits and work placements. Through this you gain the opportunity to

secure either paid employment (through a traineeship or apprenticeship), or a place in higher education for which bursaries and scholarships are available.

Are you excited about the prospect of a career in design and engineering? If so, our practical and academic approach – combined with the strength of our employer partners – will give you the best possible start and launch your career.

# LONDON SKILLS FOR GROWTH

## Subjects

Business administration  
Customer service  
Childcare  
Supporting teaching & learning in schools  
Traineeship  
Management  
Sports teaching assistant  
Hairdressing

**“To develop the skills of individuals and communities to respond to the changing needs of a 21st century workforce.”**

*Angela Beaton, Operations Director*

London Skills for Growth is a well-established and well recognised charity that puts our learners at the heart of everything we strive to achieve. We offer apprenticeships, traineeships, work experience, qualifications and training to enhance the skill sets of young people in the community and to ensure that they can lead productive and independent lives. London Skills for Growth helps young people start their career, equipping them with the skills and experiences that they need to progress into employment.

We provide a structured approach including both educational and pastoral support. We have a dedicated staff team to help you make the best choices.

### **What can I achieve?**

London Skills for Growth offers you the chance to grow and develop both new and existing skills including:

- qualifications in maths and English (if required) from Entry Level 2 up to Level 2
- vital employability skills and interview techniques
- NVQ Level 2 and 3 qualifications in business administration, customer service, supporting teaching and learning in schools, and childcare and hairdressing Level 2 only

Level 2	BTEC	Vocational	Intermediate Apprenticeships & Traineeships
Level 1	BTEC	Vocational	Foundation/Pre-Apprenticeship programmes

- valuable work experience in small and large businesses
- the opportunity to experience different vocational areas to make the best career decisions for your future

All our pre-apprenticeship programmes offer structured financial support and provide you with the skills to progress into a suitable apprenticeship. There are no formal entry requirements, as we can deliver all of the qualifications you need. You will be required to attend an assessment day where we will assess your work readiness as well as your maths and English levels.

You will need to demonstrate motivation and commitment to achieving your goals.

You will also meet with a Learner Services officer to discuss your skills, qualifications and work experience. You will then be formally offered an appropriate programme or apprenticeship. All our pre-apprenticeship programmes provide you with the skills, training, knowledge, individual coaching, work experience and support to progress you from our pre-apprenticeship programmes onto a suitable apprenticeship or alternative career path.

### What is it like to study here?

Adam found A levels quite stressful after achieving very positive GCSE results, and decided to look for a job. He soon found job hunting difficult without work experience, and came across Skills for Growth. Adam signed up on the traineeship course to gain much needed work experience. During this time Adam learnt many new skills and increased in confidence. On completing his traineeship Adam was keen to start an apprenticeship and was successfully recruited as a Level 2 business administration apprentice within the company. Adam works as a receptionist for our Stratford site, and is enjoying learning more each day and meeting new people. Within a few months of joining Adam became Employee of the Month, voted for by staff across all three London sites, for his positive attitude, friendliness and eagerness to help.

**Adam Sheraz**

This will ensure that you start a programme or apprenticeship that gives you the best opportunity to succeed.

If you would like to apply, please contact our Learner Services team on 020 8221 0500.

If you feel that you are ready to enter the world of work, London Skills for Growth will be able to offer you excellent employment-based training, leading you to develop lifelong work-based skills.

**“Newham College offers courses at almost every level, from pre-16 to access to higher education. We provide fantastic opportunities for ambitious students. Relevant work experience is guaranteed and many students have even benefited from travelling abroad for placements in the industries that interest them the most. There’s no limit to achieving great things at Newham College; whatever your ambition, we can help you gain the skills for your success.”**

*Paul Stephen, Newham College  
Principal and Chief Executive*

### Great Courses For Great Careers

Newham College has unbeatable links with employers throughout

London and beyond. There are specialist facilities for learning, socialising and even keeping fit. Students are supported to ensure that learning and progression goes far beyond their studies. Our gyms and exercise classes are completely free – and free breakfasts are served from 8.15 - 8.45am. We also offer free lunches to all 16-18 year old students.

The subjects we offer range from engineering and construction to health and social care. We offer specialist training for vocational careers, in industries such as tailoring, hospitality and catering or motor vehicle engineering. Newham College is the starting point for achieving all your goals.

**GREAT COURSES FOR GREAT CAREERS**

Level 3	BTEC	Vocational	Advanced Apprenticeships
Level 2	BTEC	Vocational	Intermediate Apprenticeships & Traineeships
Level 1	BTEC	Vocational	Foundation/Pre-Apprenticeship programmes

### What is it like to study here?

“Trust me when I say Newham College has the best teachers and staff who go above and beyond for their students. Newham College has been my backbone, making me stronger and leading me to places I never thought I could go. I became a student governor and the student union president. Thanks to Newham College I have been given the tools to get an excellent start in life. In September I move on to Higher Education to pursue my dreams of a career in adult nursing”

**Diana Azanda, Level 3 BTEC Extended Diploma in Health and Social Care**

#### Newham College courses

Courses are provided free of charge for all 16-18 year olds along with free breakfast and lunch. The only costs you need to cover are exam fees, books and equipment. Our Learning Resource Centre offers books, DVDs and online resources to help students do research and complete assignments at no extra cost. Newham College is committed to pioneering opportunities for students to succeed. The Mayor of London has awarded Newham College with a prestigious quality mark for providing excellent standards of training in construction. This means the College is officially part of the Mayor’s Construction Academy (MCA), a network of 21 training providers that have gained official recognition for providing

the sector with suitably skilled workers.

We also run a fashion and tailoring centre of excellence, where lifelong careers are established, as a result of vital links between Newham College and leading employers.

This is just a fraction of what is available for those with the ambition to make the most of college in order to build a great career!

#### Free breakfast and lunch

Free breakfast is served on a daily basis to all students who arrive before 8.45am. Free lunch is also made available to students aged 16-18 and discounted travel is offered to minimise financial worries for all students in this age group.

#### Student life

Every student is encouraged to take part in a range of extra-curricular activities, where friendships can be built, new skills can be learned and even additional qualifications can be gained. Our students’ union and enrichment teams can enable you to keep fit, have fun and accomplish achievements that you may never have imagined. Our students’ union not only represents your interests, but also organises a range of enjoyable events throughout the year. There are student life areas at both of our campuses where you can relax and socialise.

# NEWHAM COLLEGIATE SIXTH FORM CENTRE (NCS)

## Subjects

English literature

Humanities

Science and mathematics

**“If you wish to study in a highly academic environment with teachers who will prepare you to progress to some of the most competitive universities in the UK or abroad then join us!”**

*Mr Mouhssin Ismail, Principal*

Newham Collegiate Sixth Form Centre (the NCS) is the academic A level centre established by a group of Newham secondary schools: The Cumberland, Kingsford, Lister, Little Ilford, Plashet, Rokeby, Royal Docks, Sarah Bonnell and Stratford School Academy. The NCS primarily offers places to students from its partner schools and other schools in Newham and surrounding areas.

The NCS offers a focused A level curriculum for academic students, and the opportunity to study in a dedicated sixth form centre with high-quality facilities and a specialism in science and mathematics.

The ethos of the centre is to provide students with an academic education which also promotes self-development enabling and encouraging students to work hard and

stretch themselves to achieve their full potential.

The A level curriculum has a strong intellectual focus, and an emphasis on preparing students for progression to Russell Group universities including Oxbridge. The NCS also supports student application to highly competitive US Ivy League Universities. The expert staff team provide a stimulating education, personalised curriculum, and opportunities to develop wider knowledge and experience within a supportive environment.

The centre has excellent facilities for students including state of the art science laboratories and iPads for all students as a learning tool. The centre also includes a lecture

## Newham Collegiate Sixth Form Centre

A specialist centre for Science and Mathematics

Level 3 | A Level

theatre, student library, quiet study centre, a student social centre and café.

Collegiate students will study four A levels in their first year, and attend classes for five hours per week in each subject. Each student has a personal tutor and every student's programme is individually designed to maximise study opportunities and prepare students for successful progression to leading universities or competitive internships. Students also undertake private study in the dedicated sixth form library and learning resource centre to develop their independence in preparation for university.

Students will benefit from the centre's bespoke Super Curriculum which is designed to stretch interests outside of core A level studies providing development as a deep thinker, critical enquirer and intellectual risk taker.

### What is it like to study here?

**"The most unique thing about the NCS is the academic buzz that you feel around here. It's palpable, you can feel it here. Every corridor you walk in there's a conversation that's about something interesting or something academic, and you don't get that at any other institution. It's amazing!"**

**Haseeb**

An emerging talent programme gives students an insight into the careers of accountancy, banking, law, engineering, medicine and dentistry. The programme provides skills and knowledge through workshops with industry leaders, internships, work placements and mentoring from industry experts. A focused programme of preparation for university begins as soon as students start their Year 12 study. Students and staff work closely with leading universities to broaden students' understanding of different university including strategic partner UCL subjects to familiarise them with the range of degree courses offered, and to start to target degrees they are particularly interested in. At the end of Year 12, all students undertake specific preparation for applications and admissions to higher education, including Oxbridge and Russell Group

universities as well as scholarship applications to international universities. Students also receive assistance with entrance examinations e.g. BMAT, UKCAT, LNAT and STEP.

If you are predicted to achieve a set of impressive GCSE results, and you are interested in studying the subjects we offer, then Newham Collegiate Sixth Form Centre is an excellent place for your sixth form study.

# NEWHAM TRAINING AND EDUCATION CENTRE (NEWTEC)

## Subjects

Early Years (Childcare)  
Supporting Teaching and Learning in Schools  
Health and Social Care  
Business Administration  
Personal Development and Employability Skills  
English and mathematics (GCSE and Functional Skills)

**“Live in your world – Learn in ours”**  
*Pat Edwards, CEO*

NEWTEC is an award-winning organisation offering vocational training opportunities and seven high quality registered day care nursery facilities in Stratford and East London.

The learning programmes are highly responsive to learner and employer needs and offer excellent progression routes ranging from entry level to a foundation degree in early years and early years leadership and management.

### **Vocational**

Learners aged 16 to 18 who are not already qualified at Level 3 or above will complete a traineeship programme for a minimum of six weeks at NEWTEC which includes:

- A work-experience placement in the health and social care or early years/school sector.
- Employability skills training (this includes CV writing, job search skills, confidence building, completing work-based activities whilst in your work-placement and mock interviews.
- Functional skills English and maths training. Upon successful completion of the traineeship programme, Level 1 learners can then progress to a Level 2 or Level 3 in early years, supporting teaching and learning in schools, health and social care and business. Learners aged 16 to 18 who are on Level 2 or Level 3 study programmes work, towards English and mathematics, if required. All programmes offer

Level 3	Vocational	Study Programmes and Industry Placements
Level 2	Vocational	Study Programmes, Industry Placements and Traineeships
Level 1	Vocational	Traineeships and Study Programmes

work placement opportunities for learners at Levels 2 and 3 via nurseries, playgroups, toddler groups, crèches, schools, adult care settings or business environments.

**Vocational and qualifications include:**

- Early years supporting teaching and learning in schools and health and social care.
- Employability skills and business administration.

**Higher Education include:**

- Kingston University Sector Endorsed Foundation Degrees Levels 4 and 5 in early years and in early years leadership and management. The foundation degree enables learners to 'learn as they earn' by combining workplace learning and one day a week classroom-based study. These programmes provide appropriate pathways for learners wanting to progress to a Level 6 Top-Up degree.

NEWTEC has seven high quality registered nurseries that create strong links between education, training and employment. They generate valuable opportunities for learners to gain high-quality work

experience as part of their courses and provide excellent progression opportunities into sustainable employment or further study. Childcare is a dynamic and growing sector with jobs at every level, you can end up being your own boss, running your own nursery and help to shape the lives of today's children as well as future generations.

**NEWTEC Recruitment (Staffing Matters)**

Staffing Matters provides both childcare and health and social care agency staff on demand for provisions who may be under-staffed for various reasons. Registration is open to all young learners.

**NewVic is a college with an excellent track record for successful student development and progression. We are a strong, supportive community organised around the needs of individual students and focused on helping everyone succeed.**

The 2018-19 academic year saw NewVic achieve it's first OFSTED 'Outstanding' for personal development, behaviour and welfare of students. We are a thriving, diverse and friendly college located in the heart of east London, with over 25 years of expert experience. Since 1992, NewVic has supported more than 50,000 students to achieve their goals. Our 2018 A Level and vocational results saw a record breaking year with a 98% pass rate and over 50% of students achieving a triple distinction in vocational courses.

As one of London's largest sixth form colleges, with more than 2,500 students, we offer a wide range of opportunities for learning and personal development. We get to know every student well and provide them with individual attention and tailored support. Our focus is to provide students

with everything they need to successfully progress to higher education, training or employment.

Year upon year, the majority of our students progress to university, with a significant proportion securing places at Russell Group universities and those within the top 50 league tables.

NewVic offers a wide range of courses including more than 40 A level subjects, specialist Honours and Professionals Programmes, Level 2 and 3 vocational courses, and foundation level courses. If you choose to join us, you will receive excellent teaching and support to achieve the success you deserve, and create the future you want.

We offer a challenging Honours programme for students who are looking to develop higher level critical thinking skills and

### Mughees heads for Cambridge

NewVic Honours Programme student, Mughees Hassan, 18, landed an 'open offer' from the University of Cambridge in January. He had already achieved a coveted A\* grade in his extended project when he received the offer from Cambridge for natural sciences.

Mughees says: "I have always had my sights set on Cambridge. I even moved to London from Ireland where my family live to ensure I had a better chance of getting in. I am part of the debating society, the chess club, maths club and I also play football at college. NewVic has prepared me well for my future."

**Mughees Hassan, honours programme student studying A levels in physics, chemistry, maths and further maths. Ambition: to become a researcher in quantum physics.**

progression to elite universities. The programme is designed to stimulate intellectual curiosity and provide weekly lectures and activities with leading university professors and thinkers on a wide range of topics.

We will treat you with respect and challenge you academically - encouraging you to develop new ways of seeing and thinking.

At NewVic we not only support and invest in your academic success, we also place a high value on your all-round development. One of the ways

we do this is by providing an exciting, high quality and wide-ranging programme of student development and sports activities. These activities will help you broaden your experience, develop your interests and passions, support your wellbeing and offer opportunities for fun, competition and skills development.

Our Nrich programme covers the creative arts, sports, leadership, enterprise, health awareness, language power, understanding our communities and our world. We run activities on a daily basis during lunchtimes, after college

and on Wednesday afternoons. Activities you can participate in include DJing, debating, cricket, basketball and leadership academies, creative writing, street dance, model United Nations and volunteering. Student development activities are fully inclusive and open to all students.

At NewVic you will also experience unique opportunities and development through our extensive network of former students, academic and industry partnerships. Take advantage of our 300+ professional links to boost your employability and propel your career prospects.

We want all students to enjoy their time at NewVic, unlock their potential, and achieve their goals for successful progression to higher education or the world of work.

**“Universities want thinkers. Employers seek problem solvers. So schools have to change. At Six 21 we offer a top academic education, and a lot more - incredible opportunities to develop into extraordinary individuals.”**

*Peter Hyman,  
Co-Director of Big Education*

“School 21 is an exciting place to learn. Outstanding leadership has produced a highly effective school in a short time. Excellent teaching across the school and in every subject allows all groups of pupils

to achieve equally well and rated “Outstanding” in all categories by Ofsted.

From School 21 comes a pioneering new sixth form, Six 21 which opened September 2017. Six 21 is a dynamic and exciting place for those with the ambition to go to top universities, find fulfilling careers and make a difference to the world.

Harnessing School 21’s experienced team with a track record of developing exceptional students who are eloquent

Level 3 | A Level

speakers, skilled problem solvers and creative thinkers, at Six 21, we believe in the balanced development of Head (academics), Heart (empathy) and Hand (creating).

### A unique programme of learning

We have created a bespoke programme for every student at Six 21, drawing upon an unrivalled network of organisations and opportunities that the school's founders and influential trustees have built up over the last five years.

→ A levels taught by outstanding teachers employing the most advanced teaching techniques -

### What is it like to study here?

**"The thing about Six 21 is that they really do prepare you for the future. You learn how to speak, how to think, how to work with others and how to do amazing projects. And at the same time they help get you ready for top universities and careers."**

**Zakiya, Year 13**

working in partnership with top universities (including King's College London and Oxford and Cambridge colleges).

- Research projects, academic courses, and design projects ensure all students extend their knowledge, skills and experiences far beyond the normal for A-Level students, providing the best foundation for success and independence at university and beyond.
- Real-world learning - long term, ongoing placements with our network of partners: project internships in the fields of law, medicine, the arts, high tech businesses.
- Leadership development and service learning. The chance to make a difference, address challenges, and

campaign for change in your local community and internationally.

Are you ambitious, academic and enterprising? Do you want a sixth form experience that goes beyond the ordinary? If so, Six 21 could be the place for you.

**“A very warm welcome to St Angela’s Ursuline Sixth Form as you consider the next stage of education in your aspirations for university and working life. Your choice of post-16 education in both the institution you choose and the courses you wish to study is one of the most important decisions you will make in your life. With £1.2 million of investment in a new sixth form centre and resources, St Angela’s is the right place to take on the challenge of the biggest educational leap you will ever make and importantly it is with people who care about you.”**  
*Mark Johnson, Headteacher*

St Angela’s Ursuline Sixth Form is situated in the heart of Forest Gate. We have an excellent, longstanding tradition of providing an outstanding education, filled with excitement and challenge. We offer advanced learning courses and a huge range of super enrichment opportunities. The mechanisms to ensure you are a holistic learner and the Sixth Form’s outstanding support make our progression rates to university truly exceptional at 98%. Our sixth form provision, for all boys and girls, offers a choice

of A level courses and the Extended Project Qualification. Our super links to universities are well developed including partnerships which provide unique opportunities, reduced offers and distinct scholarships. We also hold incredible networks to the world of work, ultimately creating innovative opportunities for all students to grow as individuals as well as part of the very special community that is St Angela’s Sixth Form.

**“We get to know every one of our students individually and provide support to them every step of the way. We make sure parents are kept fully aware of their progress and our small class sizes of approximately 13 per class means we provide more personalised teaching. St Bonaventure’s has all the advantages of a traditional 6th form with excellent mentoring and pastoral care.”**

*Wayne Templeton,  
Director of 6th Form*

We teach traditional subjects that are highly rated by the most prestigious universities and we make sure that our students make exceptional progress. Our 6th form is co-educational and we provide an outstanding education to young

men and women wishing to study a variety of subjects, both academic and vocational.

Our results are consistently good and we have the best results in the country in the highly regarded humanities and social sciences. Our new 6th form building which opened in January 2017 is a dynamic centre for post-16 learning, supporting achievement, aspiration and progression.

Standards and expectations are very high at St Bonaventure’s and we boast longstanding partnerships with successful academic institutions and employers. St Bonaventure’s has a fantastic reputation on a

Level 3 | A Level | BTEC | Vocational

local, national and international level and many of our alumni have made positive impacts in many areas of society since we were founded in 1877.

# GOING TO UNIVERSITY

## Going to university gives you the opportunity to transform your life

A university degree can provide entry to a wide range of careers and opportunities. Those who have degrees are also more likely to be in employment than those with lower level qualifications.

According to the Office for National Statistics, graduates will earn substantially more over their working life than non-graduates, so a degree can be considered a worthy investment.

In order to progress in specific careers, such as being a doctor, you will be required to study that subject, medicine, to degree level. An increasing number of careers and employers now require degrees (especially for senior roles). These include nursing, teaching and many computing and technical jobs.

At university, you can:

- study a subject you love at a higher level and be taught by experts in your chosen field
- study in a global community of students bringing rich and varied experiences
- acquire and develop the higher level skills that are prized by employers
- enhance your personal development, skills and experience through internships, volunteering, working with researchers and studying abroad

## Start thinking about university now!

You will get many opportunities to find out about university while you are a student in Newham. Take every opportunity you can to visit campuses and get involved in summer schools, masterclasses and other activities. These experiences will all help you to gain a greater understanding of what studying at university is all about.

## Choosing your subjects

It is important to know what the entry requirements for the university course you are interested in studying are. Requirements may vary between universities, but some courses, such as medicine, require you to have studied specific subjects.

There are some subjects preferred by selective universities. These are sometimes referred to as “facilitating subjects”, which include:

- Maths and further maths
- English literature
- Physics
- Biology
- Chemistry
- Geography
- History
- Languages (classic and modern)

The table below provides some examples of the core Level 3 subjects you may need to apply for specific courses at university.

Suggested A level pathways which target admission to selective universities	Core A level subjects (students choose three subjects)	Facilitating subjects (students choose one subject)
Medicine/dentistry	Maths, further maths, physics, chemistry, biology	English literature, history, geography or a modern foreign language
Medical sciences	Maths, physics, chemistry, biology, psychology	English literature, history, geography or a modern foreign language
Veterinary science	Maths, chemistry, biology, English literature	English literature, history, geography or a modern foreign language
Biological sciences	Maths, chemistry, biology, psychology	English literature, history, geography or a modern foreign language
Physical sciences	Maths, further maths, physics, chemistry	English literature, history, geography or a modern foreign language
Maths	Maths, further maths, physics	English literature, history, geography or a modern foreign language
Engineering pathway	Maths, further maths, physics, chemistry	English literature, history, geography or a modern foreign language
Politics, philosophy and economics	Maths, English literature, history, economics	A modern foreign language or geography
Humanities	Students choose four subjects from the following: English literature, history, geography, religious education, a modern foreign language, psychology or biology	

For more information about choosing your subjects and entry requirements, have a look at Informed Choices, the Russell Group's guide to making decisions about your post 16 education. The Russell Group represents 24 leading UK universities which are committed to maintaining the very best research, an outstanding teaching and learning experience and unrivalled links with business and the public sector.

### University fees and finance – funding is available

Going to university costs money. You will have tuition fees to pay and you will need money for your living costs: things like your rent if you live away from home, money for food, travel, clothes and books and materials for your course. The good news is there are loans to help you with all of these costs.

#### Tuition fee loans

You will probably have seen in the news that students will pay up to £9,250 a year for undergraduate

courses and most degree courses last for three years. You do not have to pay these fees up front. Instead the Government, through the Student Loans Company, will provide you with a loan to pay your fees. The fees will be paid directly to the university for all eligible students.

#### Repaying your loan

Student loans have been designed to be manageable and realistic. You are liable to repay your loan in the April which falls three years after the start of your course, but you will only make repayments if you are earning more than £25,000. Once you earn more than £27,000, you pay 9% of your income above £27,000. For example, a graduate on a salary of £25,000 will pay £15 a month from a monthly take-home pay of around £1,811 (take-home pay is the amount of money you get to take home and spend once tax and national insurance have been taken off).

You will pay interest on your tuition fee loan, and you need to be aware that the amount you owe will increase

each year with interest. Interest is charged at the rate of inflation plus 3% while you are studying. If your repayments don't start because you're earning less than £25,000, the interest on your loan will increase at the rate of inflation.

Repayments are normally taken automatically from your salary, and monthly repayments are linked to your income and not the amount borrowed. If you haven't paid off the loan after 30 years, your loan will be written off.

#### Living cost loans

You will be able to get some help with your living costs in the form of a loan. Living cost loans are determined by your family income and individual circumstances such as whether you are studying in London or living at home.

#### Scholarships and bursaries

Each university will offer scholarships and bursaries and will have details of these on their website. Scholarships and bursaries do not have to be repaid.

#### Ieva Petravičiute

**Ieva studied A levels in film studies (A), history (B) and psychology (A), and a Level 3 subsidiary diploma in TV and film production (D\*). She is going on to study digital film production at the University of Greenwich.**

"The teachers at NewVlc are very understanding and know what is best for me, challenging me to reach my full potential. I have learned so many things during my course that I am sure will help me in the future. I have also been involved in the NewVlc Dance Company and the Raleigh Programme. During my time at NewVlc, I have built up my confidence which has led me to doing great things such as work experience at MTV."

#### Rumana Ali, ex-Plasht School, ex-NewVlc 6th Form College. Now studying at Oxford University.

Rumana achieved A levels in English literature (A\*), government and politics (A) and history (A\*) and an AS-level in economics (A). She is now studying history at St. Hilda's College, Oxford University

# WHERE DO I START?

- List your qualifications or predicted grades, your skills and interests.
- Think about where you want to get to - what do you want to be doing in five years' time?
- How will you get there? What qualifications or training will you need?
- Research different courses.
- Research different education providers.
- Find out the application deadlines for courses you are interested in.
- Find out about open days and open evenings.
- Find out your current school deadlines for tutor references.
- If in doubt, ask!

# WHERE TO GET ADVICE AND INFORMATION?

## If you are at school

If you are in years 10 or 11, contact your school careers adviser or careers teacher. Or call 15billionebp on **020 8536 3631** and ask to speak to a careers adviser, who will be able to discuss your options with you.

## If you are over 16

You can call Workplace on **020 3373 1101** if you are 16-18 to talk to an advisor about your options.

Contact the National Careers Service for more information, advice and guidance on careers and the qualifications and skills needed for them. Visit [www.nationalcareersservice.direct.gov.uk](http://www.nationalcareersservice.direct.gov.uk) for an online chat or call **0800 100 900** to speak to a careers adviser.

## For more information on apprenticeship opportunities

Talk to your careers adviser about apprenticeships or contact Newham College, Skills for Growth, Building Crafts College or the London Design and Engineering UTC in Newham for information about pathways into apprenticeships.

Visit [www.gov.uk/education/apprenticeships-traineeships-and-internships](http://www.gov.uk/education/apprenticeships-traineeships-and-internships) or talk to your school careers adviser to discuss your options.

To search for apprenticeship vacancies, go to [www.gov.uk/apply-apprenticeship](http://www.gov.uk/apply-apprenticeship)

- It is free to register and once you have set up your account you can receive alerts to tell you about new vacancies. For information and guidance visit [www.findapprenticeship.service.gov.uk/apprenticeshipsearch](http://www.findapprenticeship.service.gov.uk/apprenticeshipsearch) where you can download:
- How to write a winning apprenticeship application.
- Progress your career with higher apprenticeships.
- Apprenticeship support guide.

Newham Workplace maintains a database of Newham residents aged 18 and over who are interested in finding out about apprenticeship opportunities. Register your interest with Newham Workplace by getting in touch with the engagement team. Visit [www.newham.gov.uk/Pages/Services/Apprenticeships.aspx](http://www.newham.gov.uk/Pages/Services/Apprenticeships.aspx) or call **020 3373 1101** or email [Workplace.EngagementTeam@newham.gov.uk](mailto:Workplace.EngagementTeam@newham.gov.uk)

Drop into the Stratford Office between 9am-4.30pm (Monday-Friday). Newham Workplace, 112-118 The Grove, Stratford, E15 1NS

## For more information on traineeship opportunities

Traineeship opportunities will be advertised regularly on the National Apprenticeship Service website [www.gov.uk/apply-apprenticeship](http://www.gov.uk/apply-apprenticeship) For more information about traineeships visit [www.gov.uk/find-traineeship](http://www.gov.uk/find-traineeship)

## 16-19 Bursary Fund

To find out more visit [www.gov.uk/1619-bursary-fund](http://www.gov.uk/1619-bursary-fund)
