

SEND Information Report

July 24

Longbenton High School SEND Information Report July 2024

Accessibility	The main school building is wheelchair accessible. Ramps to main entrances and mobile classroom. Disabled parking and toilet facilities. The lift provides wheelchair access to the first floor.		
	A number of staff are first aid trained. Pupils with specific medical needs are catered for accordingly. Close liaison with school health. Private bathroom/changing facilities available in various locations around school, including multiple fully equipped hygiene room.		
Core Offer	Our core offer is delivered consistently over all areas of the school. All children are on one site and staffing is flexible based on the needs of all the children. Staff have close working relationships with outside professionals and with parents to ensure that children with SEND are identified early and supported accordingly. All children in our school receive quality first teaching using a wide range of strategies to scaffold the children's learning to ensure all children make good progress from their starting points. Teaching staff have a SEND referral system to follow as and when any concerns arise, this is monitored by the SENCo and records of all outcomes are made.		
Policies	SEND Single Equalities Behaviour Safeguarding		
Who are the bes	Who are the best people to talk to in this school about my child's difficulties with learning/ Special Educational Needs or disability (SEND)?		
Deputy Headteacher/SENCO - Mr J Elliott Deputy SENCO Y7-9 - Mrs A Blackburn Deputy SENCO Y10-Sixth Form - Mrs J Walton			
Deputy SENCOs:	 Responsible for: coordinating all the support for children with special educational needs or disabilities (SEND) and developing the school's SEND Policy to make sure all children get a consistent, high quality response to meeting their needs in school co-ordinating the assessment process if a child is identified as potentially having SEND ensuring that you are: ○ involved in supporting your child's learning ○ kept informed about the support your child is getting ○ involved in reviewing how they are doing liaising with all the other people who may be coming into school to help support your child's learning e.g. Speech and Language Therapy, Educational Psychology etc. 		

updating the school's SEND register (a system for ensuring all the SEND needs of pupils in this school are known) and making sure that there are excellent records of your child's progress and needs providing specialist support for teachers and support staff in the school so they can help children with SEND in the school achieve the best progress possible ensuring that all staff working with your child in school are supported in delivering the planned work/programme for your child, so they can achieve the best possible outcomes; this may involve the use of additional adults, outside specialist help and specially planned work and resources managing the transition of pupils between schools e.g. primary to high and from high to post-16 provision ensuring appropriate testing for Special Arrangements in exams occurs and is implemented in line with JQC (Joint Qualifications Council) regulations Your child's Responsible for: subject teachers checking on the progress of your child and identifying, planning and delivering any additional help your child may need (this could be things like targeted work, additional support) and letting the SENCo know as necessary writing subject specific targets, where appropriate, and sharing and reviewing these with parents at least once a term and planning for the next ensuring that the school's SEND Policy is followed in their classroom and for all the pupils they teach with any SEND ensuring the broad and balanced curriculum offered is differentiated and delivered according to the individual needs of all students, but in particular those with SEND ensuring Quality First Teaching is delivered consistently **Key Worker** Responsible for: **Understanding Needs:** The key worker collaborates with teachers and specialists to identify the specific learning difficulties or disabilities of the SEND student. • Strategies and Support Plans: Based on this understanding, they work with the wider school team to develop and implement strategies outlined in the student's support plan and passport. **Communication:** The key worker acts as the central point of contact for the SEND student, their parents/carers, and the school staff involved in their education. • **Information Sharing:** They facilitate communication by keeping everyone informed about the student's progress, challenges, and adjustments needed in their support. Social and Emotional Support: The key worker may provide social and emotional support to the SEND student, addressing anxieties or building positive relationships with peers. Headteacher Responsible for:

T		
	 day to day management of all aspects of the school, this includes the support for children with SEND giving responsibility to the SENCo and class teachers, but still responsible for ensuring that your child's needs are met ensuring that the governing body is kept up to date about any issues in the school relating to SEND 	
SEND Governor	Responsible for: • making sure that the necessary support is made for any child who attends the school who has SEND	
What proportion of children currently at the school have a SEND?	 Pupils with an Education, Health and Care Plan (EHCP): 3% Pupils at SEND Support: 25% 	
What are the different types of support available for children with SEND at Longbenton High School?		
Class teacher input via excellent targeted classroom teaching also known as Quality First Teaching	 For your child this would mean: The teacher has the highest possible expectations for your child and all pupils in their class by delivering the curriculum following the Quality First Teaching principles. All teaching is based on building on what your child already knows, can do and can understand. Different ways of teaching are in place so that your child is fully involved in learning in class. This may involve practical, active learning. Specific strategies (which may be suggested by the SENCo or outside staff) are in place to support your child to learn. Your child's teacher(s) will have carefully checked on your child's progress and will have decided that your child has a gap in their understanding/learning and needs some extra support to help them make the best possible progress. All children in school should be getting this as a part of excellent classroom practice following Quality First Teaching principles. 	
Specific group work within a smaller group of children	 This group work, often called Intervention groups by schools, may be: taught inside or outside of the classroom taught by a teacher or most often a Teaching and Learning Assistant (TLA) who has had training to run these groups TLAs will often follow programmes devised by external professionals such as Literacy orLanguage and Communication specialist teachers. 	
Stage of SEN Code of Practice: SEN Support	The class teacher, SENCo or Headteacher might identify the need for extra specialist support in school from an outside professional e.g. local authority services such as Language and Communication, Literacy Team, Behaviour Support and ASD Support, Visually Impaired Service and Hearing Services or outside agencies such as the Speech and Language therapy (SALT) Service. For your child this would mean:	

- they will have been identified by the class teacher, SENCo or Headteacher (or you may have raised your own concerns) as needing more specialist input in addition to Quality First Teaching and intervention groups
- you will be asked to come to a meeting to discuss your child's progress and help plan possible ways forward
- you may be asked to give your permission for the school to refer your child to a specialist professional e.g. a Speech and Language Therapist or Educational Psychologist; this will help the school and you understand your child's particular needs better and be able to support them better in school
- the specialist professional will work with your child to understand their needs and make recommendations, which may include:
 - making changes to the way your child is supported in class e.g. some individual support or changing some aspects of teaching to support them better
 - support to set better targets which will include their specific expertise
 - a group run by school staff under the guidance of the outside professional e.g. a social skills group or literacy intervention group
 - o group or individual work with an outside professional
- the school may suggest that your child needs some agreed individual support in school, including what strategies will be put in place. This type of support is available for children with specific barriers to learning that cannot be overcome through Quality First Teaching and intervention groups.

Specified Individual support

Usually your child will also need specialist support from a professional outside the school. This may be from:

- local authority central services such as the Dyslexia service, Language and Communication Team, MAEPS Outreach, North Tyneside Sensory Support Service
- outside agencies such as the Speech and Language Therapy (SALT) Service For your child this would mean:
- The school (or you) can request that the local authority carry out a statutory assessment of your child's needs. This is a legal process which sets out the amount of support that will be provided for your child.
- After the school has sent in the request to the local authority (with a lot of information about your child, including some from you), they will decide whether they think your child's needs (as described in the paperwork provided) seem complex enough to require a statutory assessment. If this is the case they will ask you and all professionals involved with your child to write a report outlining your child's needs. If they do not think your child needs this, they will ask the school to continue with the support at SEN Support Stage.
- After the reports have all been sent in, the local authority will decide if your child's needs are severe, complex and lifelong and that they need more than 20 hours of support in school to make good progress. If this is the case they will write an EHCP. If this is not the case, they will ask the school to continue with the support at SEN Support level and also set up a meeting in school to

ensure a plan is in place to support your child in making as much progress as possible. The EHCP will outline an amount of funding for individual/small group support your child will receive from the LA and how the support should be used and what strategies must be put in place. It will also have long and short term targets for your child. The additional adult support may be used to help your child with whole class learning, run individual programmes or small groups including your child. This type of support is available for children whose learning needs: are severe, complex and lifelong require more than 20 hours of support in school Who are the other people providing services to children with an SEN in this school? • 2 x Deputy SENDCo **Directly funded** or provided by 1 x AP Lead the school: 2.5 x Teaching staff allocated to SEND & catch up 5 x HLTA 8 x TLAs **Educational Psychology support** Paid for centrally Social Care Provision by the local Sensory Support Service for children with visual or hearing needs authority but School Nurse delivered in Literacy, Language and Communication Support school: **Provided and** Physiotherapy paid for by the CAMHS **Health Service Connect Mental Health** (Northumberland School Nursing Team **NHS Trust) but** delivered in school: How are the staff in school helped to work with children with a SEND and what training do they have? The SENCO The SENCo's job is to support the class teacher in planning for children with SEND. The SENCo holds the statutory qualification for SENCos. • The school responds to and seeks out training for all staff to improve the teaching and learning of children including those with SEND. This includes whole school and individual training on SEND issues such as ASD (Autistic Spectrum Disorder), behaviour, nurture and speech and language difficulties.

from the specialist teams.

Individual teachers and support staff attend training courses run by outside agencies that are relevant to the needs of specific children in their class e.g

• All staff are familiar with the Equality Act 2010 and are directed to act

	accordingly in ensuring that any student with SEND is offered the same standard of education and opportunities, both academic and extra-curricular, as all other students in school. Staff attend regular meetings and sessions where there are opportunities for them to discuss together the needs of the individuals and how best to cater for them within the classroom without directly treating them differently to others.
Specific training has taken place as follows:	 2x TLAs are involved in an IDL Dyslexia literacy pilot training scheme 6x TLAs have had Epilepsy training from a specialist nurse 1x TLAs have trained in ELSA (Emotional Literacy Support) 4x TLAs have had additional training to support children with ASD (Autistic Spectrum Disorder 4x TLAs have had generalised adolescent anxiety training 1x TLAs have had specific ASD anxiety and the 5 point scale training 2x TLAs have received training relating to attachment issues 1x TLA has training in managing difficult behaviours 2xTLAs have training from Crisis Prevention Institute The SENCo has an MA in SEND and Inclusive Education and NASENCo Qualification All TLAs attend regular training to update and refresh their knowledge and skills in
	the many areas appropriate for working with children and young people. This training is provided by the Locality Inclusion Support Team either at an external venue, or in school.
How will the teaching be adapted for my child with SEND?	 Class teachers plan lessons according to the specific needs of all groups of children in their class, and will ensure that your child's needs are met. Specially trained support staff can adapt the teacher's planning to support the needs of your child where necessary. Specific resources/strategies will be used to support them individually or in groups. Planning and teaching will be adapted on a daily basis if needed to meet your child's learning needs. Input and recommendations from external professionals will be implemented in planning and teaching your child where identified.
How will we measure the progress of your child in school?	 Your child's progress is continually monitored by their subject teachers. Their progress is reviewed formally every term and an attainment level and attitude to learning score provided for each subject. At the end of Key Stage 4 and 5 more formal assessments take place in the form of examinations and accreditations such as GCSE, 'A' Level or BTEC qualifications. Children at SEN Support stage will have a Pupil Profile which will be reviewed with your involvement, bi annually and the plan for the next period made. The progress of children with an EHCP is formally reviewed at an Annual Review which includes adults involved with the child's education. The SENCo will also check that your child is making good progress within any

- individual work and in any group that they take part in.
- The SEND team meets regularly to discuss interventions and progress, refining the provision as needs are identified.
- The SENCo meets regularly with the pastoral team to identify concerns and discuss progress of students.

How do we support the children in school with Emotional and Social Needs?

We carefully consider the emotional and social development of the children in our school and have a very effective pastoral system through the form tutor, Student Progress Leaders and pastoral team.

- We have a number of intervention strategies available in school to support any pupil who has an emotional or social difficulty. These may involve 1:1 work or small group sessions.
- We have a very effective anti-bullying ethos in school and have very visible and set systems to follow if a child feels they are being bullied. All pupils, including those with SEND, are encouraged to use this system if they feel they need to.
- We have a small number of pupils in school who are in the care of the local authority. Our Designated Teacher works very closely with the Education Department for Looked After Children (LAC) from whichever local authority it may be to compile and implement an effective Personal Education Plan for the pupil. Should the pupil also have an EHCP, all relevant stakeholders will be invited to the annual review meeting. They also work closely with any other agency involved, as well as attending regular Care Team Meetings and LAC reviews.

How do we support and consult you as a parent of a child with a SEND?

- The subject teachers are regularly available to discuss your child's progress or any concerns you may have and to share information about what is working well at home and school so similar strategies can be used.
- The SENCo is available to meet with you to discuss your child's progress or any concerns/worries you may have.
- All information from outside professionals will be discussed with you and the person involved directly, or where this is not possible, in a report.
- Pupil Profiles will be reviewed with your involvement each time.
- Homework will be adjusted as needed to your child's individual needs.
- Contact details of Support Services available for parents of children with SEND will be identified on the local authority's Local Offer webpage.
- If your child has an EHCP you will be asked for your views about their learning and provision prior to the annual review meeting.

How do we consult the children in school with SEND about their needs?

- Any child with an EHCP will always be asked for their views about their learning and levels of support prior to the annual review meeting.
- They will also be invited to attend the meeting, although can decline to do so should they find it too daunting.
- All children at SEND Support stage are asked to be a part of their Pupil Profile meeting/review in order to share their views and experiences.
- All children on the SEND register are encouraged in the same way as all children in school to speak to a member of staff if they have any concerns or

	difficulties in their school life.
How do we evaluate the effectiveness of our SEND Provision?	 The school follows the process as set out in the SEND Code of Practice which encompasses a procedure of: Assess – Plan – Do – Review. The Review stage allows us to evaluate the impact of the strategies or intervention we have used and to decide if they should end because they have achieved their goal, continue because they are working but need more time to be wholly effective, or be changed because they are not having the desired impact. All structured interventions are planned, monitored and evaluated using a set proforma by the member of staff who delivers the intervention. Through our meetings with teaching staff, parents and pupils we continue evaluating the provision throughout the academic year.
How is Longbenton High School accessible to children with SEND?	 The building is accessible to children with a physical disability. We ensure that equipment used is accessible to all children regardless of their needs. Extra-curricular activities are accessible for children with SEND providing appropriate support can be provided by the school if needed. The school is wheelchair accessible and has accessible toilet facilities. The SEND department has several rooms available for students needing a safe, secure environment for periods throughout the school day (e.g. a comfortable nurture room and a fully equipped bathroom). If a child with a disability wishes to come to our school, we will meet with the child, their parents and any relevant professionals to ensure that any further building adaptations required are discussed and planned. We will also ensure that any other needs such as adaptations to the curriculum, resources or staff training needs are planned and carried out before the child is admitted to the school where possible. All aspects of our Accessibility Strategy and Planning are available to view on the school's website.
How will we support your child when they are leaving this school or moving on to another class?	 We recognise that transitions can be difficult for a child with SEND and take steps to ensure that any transition is as smooth as possible. Transitioning into Year 7 from primary school: Through our transition programme, we are already aware of the specific needs of all SEND students making the transition and can ensure all relevant information is given to the staff at Longbenton High School. This also means that any preparation or specific plans can be put into place in advance of the student moving schools. Should the child be coming from a school outside of the school, our SENCo will meet with the SENCo of the school to discuss the student's individual needs. Your child will engage in focused learning about aspects of transition to support their understanding of the changes ahead. Your child will visit their new school on several occasions throughout

the year.

- You and your child will be invited to a transition evening to ensure all relevant information is delivered and give both parents and students the opportunity to ask any remaining questions.
- Moving to Longbenton High School from another school in Years 10-13:
- The SENCo and AAHT/Year Lead will liaise with your child's current school to discuss their specific needs in order to prepare for their arrival.
- You and your child will be invited into school to meet the SENCo and appropriate SPL to discuss your child's needs.
- If your child is moving to another school:
 - We will contact the school SENCo and ensure he/she knows about any special arrangements or support that need to be in place for your child
 - We will make sure that all records about your child are passed on as soon as possible to their new school
- If your child is accessing post-16 education with another provider:
 - Those students with an Education Health Care Plan will on entry to school begin Transition Planning and this will be reviewed yearly.
 Transition Planning provides the opportunity for students to plan for their individual plans post 16.
 - We will arrange for your child and yourself to meet with a Personal Advisor from the Careers Service to discuss your child's future plans and options.
 - We will contact the provider and ensure that appropriate information is shared to enable suitable support for your child.
 - We will ensure all records about your child are passed on as soon as possible.

Should you have any queries or concerns please do not hesitate to contact us via SEND@longbenton.org.uk .
