

YEAR 7

Independent learning to be completed during school closure

ICT

During a two-week period you would ordinarily have:

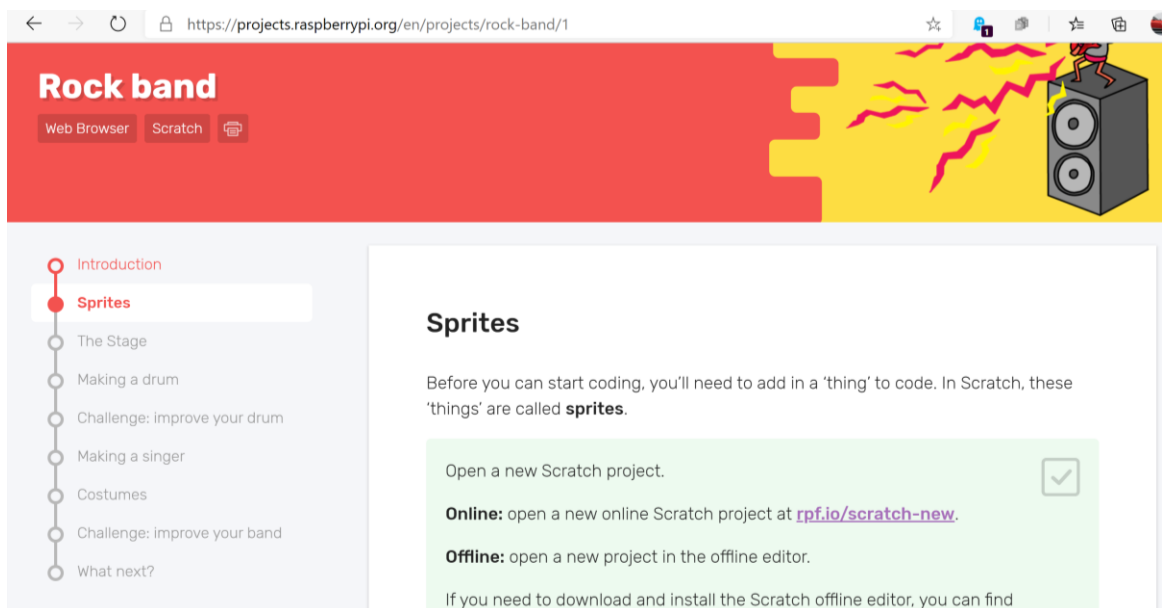

2 ICT lessons

Lesson 1 & 2 – Scratch Rock Band

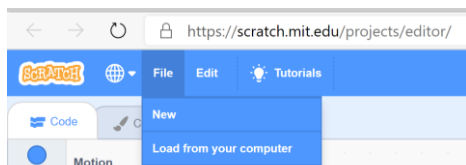

We would love you to use scratch online (or offline) to create an interactive Rock Band. This is easier to do on a computer but you can also do it on Tablet/iPad if you keep swapping between internet tabs.

Follow these instructions very carefully to get going and email completed work to gb@longbenton.org.uk

1. <https://projects.raspberrypi.org/en/projects/rock-band> go this exact website address
2. You now need to follow the instructions and work through each of the pages in order.

3. The easiest way to share your work with me is to download the file to your computer/device and attach it to an email using your school emails. Send it to gb@longbenton.org.uk and you can access school emails through www.rmunify.com using schoollogin@longbenton.org.uk – click Mail.

If you require further information, please email:

Ms Teale, Curriculum Leader – ICT
