

YEAR 10 GCSE RS

Independent learning to be completed during school closure – only by those who have not completed the google classroom activities

Religious Studies

During a two week period you would ordinarily have: 5 lessons

Lesson 1 – The 5 moral precepts

Using information from <https://tricycle.org/magazine/the-five-precepts/> (or you can research independently), create a 5 slide Power Point / booklet with one of the 5 moral precepts for each page. When you finish, read you information and condense each page into 5 key words / ideas to remember.

Lesson 2 – The 6 perfections

Using information from <https://studybuddhism.com/en/tibetan-buddhism/path-to-enlightenment/love-compassion/overview-of-the-six-perfections-six-paramitas> [Study Buddhism.com]

Write a page summarising what the 6 perfections are and how they can contribute towards Buddhists living a good life and following the Noble Eightfold path.

Lesson 3 – Beliefs and practices summary [there is an Easter task with choices of task as well]

Thinking back over both Christianity and Buddhism beliefs and practices...for each do an A-Z of key words, teachings or phrases. This can involve simple words, explanations or images – you can be creative as a means of revising key terminology.

You can find a template if you want one on <http://www.theteachertoolkit.com/index.php/tool/a-z-chart>.

Finally, create a 10 question quiz on both Christianity and Buddhism beliefs and practices (with answers)

Lesson 4: paper 2 topic – Themes – Sexuality

For the following lessons, a good site would be <https://www.bbc.co.uk/bitesize/topics/zwqvrdm> GCSE bitesize.

Firstly, mind map the different key words on sexuality such as homosexuality, heterosexuality etc. Then, do a timeline of the UK law in relation to sexuality – with key events.

Next, make a note of the alternatives to being sexuality active. Finally...design a poster to show the Christian and Buddhist general beliefs on sexuality (*you will have to research this separately as BBC focuses on Islam on this section*)

Lesson 5: Themes – Marriage intro In youtube, type the following in the search bar: 'How is marriage viewed in different faiths?', then click on what should be the top video by BBC teach (*It is 12 mins and does focus on Christianity and Islam but raises some excellent questions*)

Complete these tasks/ questions in fully explained answers: 1. Why do you think people choose to get married? 2. What is your own view on marriage? 3. List some advantages of both marriage and cohabitation. 4. Explain what a vow is and why it is important. 5. Create a fact-file or poster to summarise the Christian and Buddhist views on marriage.

If you require further information please email:
