

Seasonal change

Physics

What should I already know?

The weather changes throughout the year.

The leaves change throughout the year.

Vocabulary

Autumn 	The season of the year between summer and winter.
Winter 	The coldest season of the year.
Summer 	The warmest season of the year.
Spring 	The season of the year between winter and summer.
Weather 	The conditions outside at a particular place and time.
Temperature 	The degree of heat or cold of the environment.
Leaves 	Green, flat parts of a plant or tree that grows from the stem or branch.
Rain 	Drops of water that form in the clouds and fall from the sky to the earth.
Wind 	Air in motion.
Sunshine 	The bright light of the sun not hidden by clouds.
Snow 	Soft, white flakes of ice that fall from the sky to the earth.

Quick Facts

We

have 4 seasons:

Winter 	Spring 
Summer 	Autumn 

The weather, amount of sunlight and plant life changes each season.

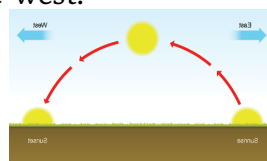

Colder weather comes in autumn and winter.

Warmer weather comes in spring and summer.

We see the sun rise in the east and set in the west.
