EXPERT TEACHING AND FEEDBACK • **CHALLENGE YOURSELF**
INSPIRE AND BE INSPIRED • **PRIDE AND RESPECT**

Introduction – Year 9 Options 2024-2026

In the next few weeks, you are going to make important decisions about some of the subjects you will study during your final two years at Madeley School. This booklet has been written to give you:

- Information about the subjects you **must** study.
- Information about the option subjects you can **choose** to study.
- **Advice** on how to decide which options to choose.

THE CURRICULUM

Subjects that you must study because they are part of the National Curriculum make up the **CORE CURRICULUM**. You will find information about these subjects in the first part of this booklet.

The subjects that you choose to study make up the **OPTIONS**. The second part of this booklet contains information about the option subjects that you can choose from.

The tables below show how many lessons you will have in each subject every two weeks.

CORE SUBJECTS	LESSONS
English Language	9
English Literature	
Mathematics	9
Triple Award Science (Biology, Chemistry and Physics) Or AQA GCSE Combined Science - Trilogy	12
Physical Education	2

OPTION SUBJECTS (dependent on pathway)	LESSONS
Geography <u>or</u> History (required to follow for Ebacc) Art & Design Computer Science (Set 1 Maths pupils only) Creative iMedia (Camb Nat Level 2) Drama Food Preparation & Nutrition Health & Social Care (BTec Level 2) Music Photography Physical Education GCSE Religion, Philosophy & Ethics Spanish (required to follow for Ebacc) Technology	6

You will also experience Personal Development days that are designed and integrated into the curriculum at key times over the next two years. Topics covered on these days will include:

- **Careers Information And Guidance**
- **Health & Well Being**
- **Financial Capability**
- **Citizenship**
- **Relationships & Sex Education**

The Blue Pathway

Based on your data in school we advise you to follow the Blue Pathway. As part of the Blue pathway you may **choose** to follow the EBacc pathway, or instead choose your options more freely.

What is the **THE ENGLISH BACCALAUREATE?**

The English Baccalaureate, known as the “EBacc” for short, comprises of subjects considered essential for many degrees and valuable for a range of further education paths and career opportunities. This framework enables students to keep their future options open, providing a broad, well-rounded education that is beneficial for both academic pursuits and various job markets, according to the Department of Education.

The Ebacc is:

- English language and literature
- maths
- the sciences
- geography or history
- a language

Research shows that a pupil’s socio-economic background impacts the subjects they choose at GCSE, and that this determines their opportunities beyond school.

A study by the UCL Institute of Education shows that **studying subjects included in the EBacc provides students with greater opportunities in further education** and increases the likelihood that a pupil will stay on in full-time education. Sutton Trust research reveals that **studying the EBacc can help improve a young person’s performance in English and maths.**

[Source: <https://www.gov.uk/government/publications/english-baccalaureate-ebacc/english-baccalaureate-ebacc>]

In addition to the subjects you will study as part of the core curriculum offer, should you wish to follow the EBacc you need to choose the following clearly on your form:

- Spanish
- History **or** Geography

Your 3rd choice is a free choice from any other options subjects. Please note, we do **not** encourage students to study both geography **and** history.

You must also **choose a reserve** in case there is a problem with your **free option** choice.

What if the Ebacc Pathway isn’t right for me?

If you decide that the Ebacc pathway is not right for you, the requirements of the Blue Pathway are that you must choose at least one subject from:

Block 1: Choose **one** of: HISTORY **or** Geography **or** Spanish **or** Computer Science.

Block 2: **Two** Free choices (+1 reserve) from the list of subjects

What can stop me getting my first choice?

- **Behaviour for Learning / Effort:** If your behaviour for learning or effort in a subject does not reflect your apparent aspirations to study the subject to Key Stage 4, it might be recommended that you chose a different subject in which you seem more committed.
- **Progress:** If your progress data shows that you are likely to have more success in an alternative subject, a discussion will be had with you and a member of the Senior Leadership Team to better understand your aspirations for the future.
- **Oversubscription:** Sometimes, so many students choose a subject that we don't have the capacity within the timetable to allocate all those students a class. Either that, or the class size would be larger than we would like. In these cases, a discussion will be had with the students and a member of the Senior Leadership Team to best prioritise students to the subjects that are essential for readiness for the next phase of education, training or employment
- **Non-viable course:** If too few students choose a subject, a discussion takes place between the Senior Leadership Team to assess the viability of staffing a course for so few students. It is always our hope that all the courses we offer will run each year, and this is often the case. On rare occasions where this is not possible, the course will not be timetabled and students will be allocated their reserve choice.

– this is why you **MUST** choose a **reserve**.

We try our best to accommodate all choices in the order of preference; we want everyone to get their first choice from the “**FREE**” option and over the years a very high proportion of students get exactly what they want. However, it is not always possible. In these cases, you would be allocated your reserve choice.

If you are required to use your reserve choice or if other issues arise – you and your parents will be notified to discuss the way forward.

Examinations

All GCSE courses are graded 9-1.

Most subjects are now Linear Courses and are examined solely at the end of Y11 however some specifications i.e. Art and Design, Technology and Drama retain some form of continuous or controlled assessment produced during the course.

The Cambridge National and BTEC qualifications have different assessment arrangements. Please check the individual course page later in this booklet for more details.

Choosing Options

Try to choose subjects you enjoy and are making good progress in but don't necessarily avoid those subjects where you're not doing so well. Sometimes it is important to continue working at a subject you find difficult because it may be the only way to lead on to something you really want to do.

Your option form shows the grades you are most likely to achieve in your best four option subjects. These are based on the GCSE results students with similar ability to you at the end of Key Stage 2 have obtained in previous years. You can use this information alongside your current assessments to get an idea of the subjects you're most likely to do well in at GCSE.

If you have an idea of what you would like to do, we can easily check that you are selecting the right subjects. You can get advice from your teachers or from the Careers Service in school. If you don't have any clear ideas about what job you would like to do, don't worry because most young people are like you at this stage.

Try to keep a wide range of subjects with a good balance so that you have lots of options when you leave school.

DON'T choose a subject just to be with your friends. Your friends may not have the same abilities or ambitions as you. Make your own choice.

DON'T choose a subject, or give it up, just because you like or dislike a particular teacher. In the first place you often do not know who will be teaching you next year and, in any case, your future is far more important.

What to do next

- Read the information in this booklet **carefully** so that you know what work is involved in your CORE subjects and what choices are available in the OPTION subjects.
- Think about and discuss your possible option choices with your parent(s)/carer(s).
- Talk to your Form Tutor, Head of Year or your subject teachers if you have any questions.
- Think about the advice you have been given during Personal Development lessons.
- Use START to research career paths.
- Attend the Year 9 Parents' Consultation & Options Evening on **Thursday 8th February**.
- Complete your Options Form and hand it in to your Form Tutor no later than **Monday 26th February**.
- Meet with a senior member of staff to discuss your option choices. You will do this in the week beginning **Monday 27th March**. The senior member of staff allocated to your tutor group will send for you.
- A letter will usually be sent to you after the Easter break confirming your offer.

1. CORE CURRICULUM

This section of the booklet contains information about the subjects all students must study.

KEY STAGE 4: FACULTY OF ENGLISH & LITERACY
ENGLISH LANGUAGE AND
ENGLISH LITERATURE

Teacher in Charge

MISS S NEAT

What course do I follow?

GCSE ENGLISH LANGUAGE: AQA 8700

GCSE ENGLISH LITERATURE: AQA 8702

What will I study?

The majority of students will study English Language and English Literature; two separate and distinctive GCSE subjects which are taught in combination across the two-year course.

GCSE English Language aims to equip you with the reading and writing skills essential for your future lives. The course has been designed to inspire and motivate students, providing stretch and challenge whilst ensuring that a range of fiction and non-fiction texts are accessible to all. The course will enable students to develop the skills they need to read, understand and analyse a range of texts covering the 19th, 20th and 21st Century time periods as well as to write clearly, coherently and accurately using a range of vocabulary and sentence structures.

GCSE English Literature takes a skills-based approach to the study of English Literature that is consistent across a range of genres and texts over time. Again, the texts chosen are inspiring and challenging with assessment through close analysis of whole texts and then through extract analysis. 19th, 20th and 21st Century texts will be covered and include Shakespeare, poetry, plays and novels; texts are selected to ensure all abilities can meet their potential.

Details of Assessment

Both GCSE English Language and English Literature are assessed through un-tiered, closed book terminal examination. In addition to this, students will receive a separate endorsement for their spoken language skills.

English Language

Paper 1: Examination (50%)

Explorations in creative reading and writing.

Paper 2: Examination (50%)

Writers' viewpoints and perspectives.

Non Examination Assessment:

Spoken Language

English Literature

Paper 1: Shakespeare and the 19th Century novel (40%)

Macbeth (Shakespeare) and *A Christmas Carol* (Charles Dickens)

Paper 2: Modern Texts and Poetry (60%)

An Inspector Calls, (J.B. Priestley) and *Power and Conflict Poetry Anthology* (various poets)

KEY STAGE 4: FACULTY OF MATHEMATICS & NUMERACY

MATHEMATICS

Teacher in Charge

MR W WOODFINE

What course do I follow?

**GCSE MATHEMATICS:
EDEXCEL 1MA1, LINEAR ASSESSMENT**

What will I study?

The National Curriculum programmes of study for Key Stage 4 in Mathematics.

There are two programmes of study, higher and foundation. These cover grades 9 to 1 at GCSE.

Assessment and details of Examination

The GCSE specification has been written to assess the Key Stage 4 programmes of study in Mathematics.

- This course is designed to offer students the opportunity to acquire a valuable qualification often requested by employers.
- This particular course has a simplified linear structure.
- Higher Tier covering grades 9 to 4.
- Foundation Tier covering grades 5 to 1.
- Paper 1 will be a non-calculator paper (33.33%).
- Paper 2 will be a calculator paper (33.33%).
- Paper 3 will be a calculator paper (33.33%).
- There is no coursework in Mathematics.

KEY STAGE 4: FACULTY OF SCIENCE, INNOVATION & CREATIVITY

SCIENCE**Teacher in Charge****MISS A AUSTIN****What course do I follow?****Separate sciences - GCSE Biology: AQA 8461, GCSE Chemistry: AQA 8462 and GCSE Physics: AQA 8463****OR****Combined sciences - GCSE Combined Science – Trilogy: AQA 8464**

A decision will be made towards the end of Year 9 about which Science route pupils will follow. This will be based on individual attainment and progress.

Aims of the course

The aim of the Science courses is to develop a critical approach to scientific evidence, explore the implications of science for society and to develop scientific literacy. Students are encouraged to explore, explain and theorise using scientific models, and develop a critical approach to scientific evidence.

Awarding Grades

Each qualification is graded on a 17-point scale: 1–1 to 9–9 where 9–9 is the highest grade. Students taking Higher Tier assessments will be awarded a grade within the range of 4–4 to 9–9 for each of the subjects. Students taking Foundation Tier assessments will be awarded a grade within the range of 1–1 to 5–5.

Subject Content**Biology**

- | | |
|---------------------------|---|
| 1. Cell biology | 5. Homeostasis and response |
| 2. Organisation | 6. Inheritance, variation and Evolution |
| 3. Infection and response | 7. Ecology |
| 4. Bioenergetics | |

Chemistry

- | | |
|---|--|
| 8. Atomic structure and the periodic table | 13. The rate and extent of chemical change |
| 9. Bonding, structure, and the properties of matter | 14. Organic chemistry |
| 10. Quantitative chemistry | 15. Chemical analysis |
| 11. Chemical changes | 16. Chemistry of the atmosphere |
| 12. Energy changes | 17. Using resources |

Physics

- | | |
|-----------------|------------------------------------|
| 18. Forces | 22. Magnetism and electromagnetism |
| 19. Energy | 23. Particle model of matter |
| 20. Waves | 24. Atomic structure |
| 21. Electricity | |

Assessment

For each of the Science routes, there are six papers: two Biology, two Chemistry and two Physics. These take place at the end of Year 11. Each of the papers will assess knowledge and understanding from distinct topic areas.

Separate Science route			
Course	Exam	Time	Marks
GCSE Biology	<u>Paper 1</u> Topics 1 – 4	Each paper is 1hr 45 mins	Each paper is worth 100 marks and 50% of the GCSE
	<u>Paper 2</u> Topics 5 - 7		
GCSE Chemistry	<u>Paper 1</u> Topics 8 - 12	Each paper is 1hr 45 mins	Each paper is worth 100 marks and 50% of the GCSE
	<u>Paper 2</u> Topics 13 - 17		
GCSE Physics	<u>Paper 1</u> Topics 19, 21, 23 & 24	Each paper is 1hr 45 mins	Each paper is worth 100 marks and 50% of the GCSE
	<u>Paper 2</u> Topics 18, 20 & 22		

Combined Science route			
Course	Exam	Time	Marks
GCSE Combined Science	<u>Biology Paper 1</u> Topics 1 – 4	Each paper is 1hr 15 mins	Each paper is worth 70 marks and 16.7% of the GCSE
	<u>Biology Paper 2</u> Topics 5 - 7		
	<u>Chemistry Paper 1</u> Topics 8 - 12	Each paper is 1hr 15 mins	Each paper is worth 70 marks and 16.7% of the GCSE
	<u>Chemistry Paper 2</u> Topics 13 - 17		
	<u>Physics Paper 1</u> Topics 19, 21, 23 & 24	Each paper is 1hr 15 mins	Each paper is worth 70 marks and 16.7% of the GCSE
	<u>Physics Paper 2</u> Topics 18, 20 & 22

KEY STAGE 4

PERSONAL DEVELOPMENT

Teacher in Charge

MR L ROYALL

What course do I follow?

The Personal Development programme is non examinable but a vitally important part of the curriculum at Madeley. The Course will be delivered in school through form time activities and focused drop-down days through years 10 and 11. It is based on the National Curriculum orders for PSHEE and SRE.

The programme is structured to provide pupils with knowledge and skills that will enable them to make informed decisions, identify and manage risk to both themselves and others, reflect on their own attitudes, skills strengths and weaknesses so that they are able to lead healthy happy and fulfilling lives.

What will I study?

Modules in:

Financial Capability – to develop an understanding of money matters including budgeting, loans and lending, mortgages, utility bills, pensions and payslips.

Citizenship – to develop an understanding of their place in the world and what it means to be a British Citizen in a global society. We will look at UK politics and national and worldwide issues that will have a bearing on their future lives.

Sex & Relationship Education - To develop an understanding of healthy relationships, assessing the risk associated with the choices they make and how this could impact on their lives and others.

Personal Health & Wellbeing – covers aspects of personal wellbeing and asks students to reflect on their own lifestyle and whether the risks they make will affect their future life potential. This module includes drugs and alcohol, mental health and wellbeing.

Careers Information & Guidance - prepare for the world of work including preparing CVs and considering careers choices to make the best of post 16 opportunities that are open to them. Students will receive presentations from all the local post 16 education providers, information on apprenticeships and from training providers.

KEY STAGE 4: FACULTY OF PERFORMANCE & EXPRESSIVE ARTS
PHYSICAL EDUCATION (CORE)

Teacher in Charge

MR P GOODWIN

What course do I follow?

Students will follow a non-examination course.

What will I study?

Throughout, students will be given the opportunity to;

- develop competence to excel in a broad range of physical activities
- be physically active for sustained periods of time
- engage in competitive sports and activities
- lead healthy, active lives.

2. OPTIONS

From this section you must choose either

- **Computer Science or**
- **Geography or**
- **History or**
- **Spanish**

KEY STAGE 4: FACULTY OF SCIENCE, INNOVATION & CREATIVITY

COMPUTER SCIENCE**Teachers in Charge****MISS S L HARTLEY / MRS A BASCOMBE-PRICE****What course do I follow?****OCR Computer Science (9-1) - J277****What will I study?**

The subject content for the GCSE will be as follows:

Computer systems

This component will assess:

- 1.1 Systems architecture
- 1.2 Memory and storage
- 1.3 Computer networks, connections and protocols
- 1.4 Network security
- 1.5 Systems software
- 1.6 Ethical, legal, cultural and environmental impacts of digital technology

Computational thinking, algorithms and programming

This component will assess:

- 2.1 Algorithms
- 2.2 Programming fundamentals
- 2.3 Producing robust programs
- 2.4 Boolean logic
- 2.5 Programming languages and Integrated Development Environments

Details of Examination

The students will sit two exams at the end of year 11, each exam will contribute 50% towards the GCSE.

Component 01: Computer systems

Introduces students to the central processing unit (CPU), computer memory and storage, data representation, wired and wireless networks, network topologies, system security and system software. It also looks at ethical, legal, cultural and environmental concerns associated with computer science.

Component 02: Computational thinking, algorithms and programming.

Students apply knowledge and understanding gained in component 01. They develop skills and understanding in computational thinking: algorithms, programming techniques, producing robust programs, computational logic and translators.

Additional Information

GCSE Computer Science is engaging and practical, encouraging creativity and problem solving. It encourages students to develop their understanding and application of the core concepts in computer science. Students also analyse problems in computational terms and devise creative solutions by designing, writing, testing and evaluating programs.

<https://ocr.org.uk/qualifications/gcse/computer-science-j277-from-2020/>

KEY STAGE 4: FACULTY OF GLOBAL STUDIES

GEOGRAPHY

Who can I ask for more information?

DR N CURTIS

What course do I follow?

GCSE GEOGRAPHY: AQA (1-9)

What will I study?

The course has been developed to be exciting, relevant and interesting. The issues it deals with are the most important challenges facing the world today. It will give you inside information on the causes of these different challenges, the impact they have on us and our environment and what we can do to help overcome the problems we face to build a more sustainable future nationally and globally. The content of this course is divided into different themes. In today's rapidly changing world, never has Geography been a more relevant and popular subject to study

The Fieldwork:

In Geography, fieldwork must take place outside the classroom and school grounds on at least two occasions. Students must carry out two geographical enquiries in contrasting environments and show an understanding of both physical and human geography. In at least one of the enquiries students are expected to show an understanding about the interaction between physical and human geography. The most likely location for the Geography fieldtrip will be the North Wales coast, in and around Llandudno. Here, issues of coastal management and tourism will be studied.

Subject content:

Living with the physical environment

The challenge of natural hazards – Earthquakes, Tropical Storms, UK

Weather Hazards

The living world – Ecosystems

Physical landscapes in the UK – Coasts and Rivers

Challenges in the human environment

3.2.1 Section A: Urban issues and challenges

3.2.2 Section B: The changing economic world

3.2.3 Section C: The challenge of resource management

The course is examined over 3 final exam papers: one Physical Geography paper, one Human Geography paper, these test the 'taught content', and a final paper which is 1) An Issue evaluation (based on pre-release booklet) and 2) A Fieldwork Paper based on 2 pieces of fieldwork which will be carried out by the students.

The course is subject to change due to the governmental changes in syllabus structure.

DETAILS OF ASSESSMENT

KEY STAGE 4: FACULTY OF GLOBAL STUDIES

HISTORY

Teacher in Charge

MR N DAWKINS

What course do I follow?

GCSE HISTORY 9-1 Edexcel

What will I study?

Pupils will study five topics with three exams in year 11.

Development Study - Crime and Punishment through time

This study will focus on various crimes throughout history and how crime has evolved. Topics such as witchcraft, highway robbery and suffragettes will be covered. Students will also discover the punishments criminals have had to endure throughout history such as being hung, drawn and quartered, spending time in the pillory or even having limbs chopped off.

Historic environment - Whitechapel, 1870-1900: crime, policing and the inner city

This topic investigates the living conditions in Industrial Britain and how this impacted on crime and punishment in the period. Policing methods and the infamous Jack the Ripper crimes will be investigated using historical sources to highlight the issues that Industrialisation caused in Britain during this period.

In Depth Study - Germany 1918-39

This study will focus on the huge problems Germany faced after World War One before moving on to cover how Hitler and the Nazis rose to power. The course then focus' on how people's lives in Germany changed and the impact the Nazis had on people's everyday lives.

British Depth Study - Anglo Saxon and Norman England 1060-88

This module highlights the changes and continuities that happened in England during and after the Norman invasion. How William I took control and tried to tackle resistance is covered as well as the changes made to Anglo-Saxon life, culture and architecture.

Period study - The American west 1835-1895

This study will focus on the expansion of the USA into Native American territory during the 19th century. Topics focus on Native American beliefs, development of settlements and conflicts that arose between Native Americans and the settlers. The course reflects on the impact of settlement and how the new settlers changed the USA.

Details of Examination

There will be three examination papers on the above topics.

Paper 1: Development Study - Crime and Punishment through time & Historic environment - Whitechapel, 1870-1900: crime, policing and the inner city- 1hr 15 mins

Paper 2: Period study - The American west 1835-1895 & British Depth Study - Anglo Saxon and Norman England 1060-88 – 1hr 45min

Paper 3: In Depth Study - Germany 1918-39 1 hr 20 mins

All pupils will be entered for the same examination papers.

There is no coursework element to this study

KEY STAGE 4: FACULTY OF GLOBAL STUDIES

SPANISH

Teacher in Charge

MR M HAWKINS

What course do I follow?

AQA GCSE SPANISH 8692

Why should I take a language?

- GCSE Languages can help some of you gain the English Baccalaureate and support progression into most higher education courses
- Language learning can support career opportunities in an ever-increasing global job market, especially those that have an international dimension
- A GCSE language course is ideal for students who have enjoyed their KS3 language classes
- A GCSE language course will also benefit students who wish to improve their communication skills; become more independent and confident; and appreciate and understand important foreign cultures.

What and how will I study?

- The GCSE course focuses on practical communication in Listening, Speaking, Reading and Writing and builds on topics covered at Key Stage 3
- This specification has a slimmed down vocabulary list compared to previous specifications.
- In Listening and Reading, students will learn to understand and respond to information from announcements, conversations, adverts, letters, news items, instructions, notices, brochures, magazines, emails and websites
- In Speaking, students will develop the skills of sustaining a conversation in answer to questions in which they must express opinions and reasons and describe situations
- In Writing, students will develop the ability to use their chosen language creatively to produce a variety of types of writing, matching language to purpose, audience and context
- There is also a strong emphasis on gaining an understanding of the wider world, including the lifestyles and cultures of other people in a variety of the countries where the language is spoken including a brand new topic called "Celebrity Culture".
- To make sure you get a good result, you will need to complete homework on a regular basis. You will always need to learn new vocabulary and structures as part of your homework. In addition, you will be set Reading, Writing and Speaking assignments or be asked to practise what you have learnt on various websites that we use.

Details of Examination and Assessment

Students must be entered for all of the four skills at either Foundation or Higher level.

Each exam is worth 25%.

3. OPTIONS

You must choose 3 subjects (2 and 1 reserve)
from the following subject pages.

KEY STAGE 4: FACULTY OF PERFORMANCE & EXPRESSIVE ARTS

ART & DESIGN

Teacher in Charge

MISS K LEATH

What course do I follow?

GCSE ART & DESIGN (FINE ART): AQA 8202

What will I study?

- 1) The work of other Artists, Designers and Craftspeople, studying their approach, style and use of materials applying this knowledge to your own work.
- 2) The development of ideas through the investigation and exploration of the formal elements of Art and Design i.e. line, tone, colour, texture, form etc.
- 3) Recording from direct observation (drawing and taking photographs) and personal experience in forms that are appropriate to your intentions.
- 4) The selection and control of materials.
- 5) Present personal responses demonstrating understanding, realising your intentions and making connections between all elements.

Details of Examination

The examination consists of a Portfolio of work (Unit 1 – 60%) and an Externally Set Task (Unit 2 – 40%) of 10 hours of sustained focused study where you can respond to your chosen starting point.

Details of Portfolio

You submit a portfolio comprising a sustained project and a selection of further work which represents your course of study. You should produce practical and critical / contextual work that should include painting and drawing, mixed media, sculpture, printmaking and new media technologies.

Additional Information

Visits to museums, art galleries and workshops are part of the Art course. A camera and basic art materials are needed to support the course.

[Why study Art or Photography?](#)

[A Guide to GCSE Fine Art](#)

[Art Department Video](#)

KEY STAGE 4: FACULTY OF SCIENCE, INNOVATION & CREATIVITY

COMPUTER SCIENCE**Teachers in Charge****MISS S L HARTLEY / MRS A BASCOMBE-PRICE****What course do I follow?****OCR Computer Science (9-1) - J277****What will I study?**

The subject content for the GCSE will be as follows:

Computer systems

This component will assess:

- 1.1 Systems architecture
- 1.2 Memory and storage
- 1.3 Computer networks, connections and protocols
- 1.4 Network security
- 1.5 Systems software
- 1.6 Ethical, legal, cultural and environmental impacts of digital technology

Computational thinking, algorithms and programming

This component will assess:

- 2.1 Algorithms
- 2.2 Programming fundamentals
- 2.3 Producing robust programs
- 2.4 Boolean logic
- 2.5 Programming languages and Integrated Development Environments

Details of Examination

The students will sit two exams at the end of year 11, each exam will contribute 50% towards the GCSE.

Component 01: Computer systems

Introduces students to the central processing unit (CPU), computer memory and storage, data representation, wired and wireless networks, network topologies, system security and system software. It also looks at ethical, legal, cultural and environmental concerns associated with computer science.

Component 02: Computational thinking, algorithms and programming.

Students apply knowledge and understanding gained in component 01. They develop skills and understanding in computational thinking: algorithms, programming techniques, producing robust programs, computational logic and translators.

Additional Information

GCSE Computer Science is engaging and practical, encouraging creativity and problem solving. It encourages students to develop their understanding and application of the core concepts in computer science. Students also analyse problems in computational terms and devise creative solutions by designing, writing, testing and evaluating programs.

<https://ocr.org.uk/qualifications/gcse/computer-science-j277-from-2020/>

KEY STAGE 4: FACULTY OF SCIENCE, INNOVATION & CREATIVITY

CREATIVE iMEDIA**Teacher in Charge****MISS S L HARTLEY / MRS A BASCOMBE-PRICE****What course do I follow?****Cambridge Nationals in Creative iMedia Level 2 (J834)**

This is a Level 2 vocational qualification that is equivalent to one GCSE at grades 9-1.

What will I study?**Creative iMedia in the media industry****Unit R093**

This is assessed by taking an exam.

In this unit you will learn about the media industry, digital media products, how they are planned, and the media codes which are used to convey meaning, create impact and engage audiences.

Topics include:

- The media industry
- Factors influencing product design
- Pre-production planning
- Distribution considerations

Visual identity and digital graphic**Unit R094**

This is assessed by completing a set assignment.

In this unit you will learn to how to develop visual identities for clients and use the concepts of graphic design to create original digital graphics to engage target audiences.

Topics include:

- Develop visual identity
- Plan digital graphics for products
- Create visual identity and digital graphics

Interactive digital media**Unit R097**

This is assessed by completing a set assignment.

In this unit you will learn how to plan, create and review interactive digital media products.

Topics include:

- Plan interactive digital media
- Create interactive digital media
- Review interactive digital media

Details of Coursework

Units R094 (Visual identity and digital graphic) and R097 (Interactive digital media) are practical controlled assessments for which, you will produce paper-based portfolios of evidence. Each of these units is worth 30% of the overall mark.

Details of Examination

There is just one exam in this qualification for Unit R093 (Creative iMedia in the media industry), which lasts for 1 hour and 30 minutes and is worth 40% of the overall mark. You will sit this examination in January of year 11.

Additional Information

This course supports many specialised media-based career options such as web design, advertising, marketing, broadcasting and filmmaking. You will gain a sound knowledge of ICT to prepare you for life in the 21st century workplace.

KEY STAGE 4: FACULTY OF PERFORMANCE & EXPRESSIVE ARTS

DRAMA

Teacher in Charge

MR T SARGEANT

What course do I follow?

GCSE DRAMA: AQA 8261

What will I study?

The specification engages and encourages students to become confident performers and designers with the skills they need for a bright and successful future. The opportunity to participate in performance is built into lessons as much as possible.

All students devise drama.

All students explore texts practically and work on two text-based performances. Students can choose to develop as a:

- performer
- designer (set, costume)
- performer and designer.

Whichever option they choose, students can be sure to gather many invaluable skills, both theatrical and transferable, to expand their horizons.

Transferable Skills

Students learn to collaborate with others, think analytically and evaluate effectively. They gain the confidence to pursue their own ideas, reflect and refine their efforts. Whatever the future holds, students of GCSE Drama emerge with a toolkit of transferable skills, applicable both in further studies and in the workplace.

Details of Examination and Coursework

Component 1: Understanding drama	+	Component 2: Devising drama (practical)	+	Component 3: Texts in practice (practical)
<p>What's assessed</p> <ul style="list-style-type: none"> • Knowledge and understanding of drama and theatre. • Study of one set play from a choice of six. • Analysis and evaluation of the work of live theatre makers. <p>How it's assessed</p> <ul style="list-style-type: none"> • Written exam: 1 hour and 45 minutes • Open book • 80 marks • 40 % of GCSE <p>Questions</p> <ul style="list-style-type: none"> • Section A: multiple choice (4 marks). • Section B: four questions on a given extract from the set play chosen (44 marks). • Section C: one question (from a choice) on the work of theatre makers in a single live theatre production (32 marks). 		<p>What's assessed</p> <ul style="list-style-type: none"> • Process of creating devised drama. • Performance of devised drama (students may contribute as performer or designer). • Analysis and evaluation of own work. <p>How it's assessed</p> <ul style="list-style-type: none"> • Devising log (60 marks) • Devised performance (20 marks) • 80 marks in total • 40 % of GCSE <p>This component is marked by teachers and moderated by AQA.</p>		<p>What's assessed</p> <ul style="list-style-type: none"> • Performance of two extracts from one play (students may contribute as performer or designer). Free choice of play but it must contrast with the set play chosen for Component 1. <p>How it's assessed</p> <ul style="list-style-type: none"> • Performance of Extract 1 (20 marks) and Extract 2 (20 marks) • 40 marks in total • 20 % of GCSE <p>This component is marked by AQA.</p>

KEY STAGE 4: FACULTY OF SCIENCE, INNOVATION & CREATIVITY

FOOD PREPARATION & NUTRITION

Teacher in Charge

MRS S HALSTEAD

What course do I follow?

EDUQAS GCSE Food Preparation and Nutrition

Food Preparation and Nutrition will provide you with the knowledge, understanding and skills you need to prepare and cook food safely using a wide range of different food commodities, cooking skills and techniques and equipment. It will help you understand:

1. The relationship between diet and health and the effects of a poor diet on health.
2. How a range of different factors affect our food choices (including economic, environmental, ethical, and cultural influences, as well as food availability and food production processes).
3. The functional and nutritional properties, working characteristics and sensory qualities of foods and how food science principles can be applied.
4. How to prepare, process, store and cook food safely.
5. Different culinary traditions and the ingredients and cooking techniques they use.

What will I study?

The course is divided into six areas of content, which you will study:

1. Food Commodities
2. Principles of nutrition
3. Diet and good health
4. The science of food
5. Where food comes from
6. Cooking and food preparation

Details of Assessment

What's assessed.

Theoretical knowledge of food preparation and nutrition

How it's assessed

Written exam: 1 hour 45 minutes

100 marks

50% of GCSE

Non-examination assessments: assessment 1 and assessment 2

100 marks

50% of GCSE

Assessment 1: The Food Investigation Assessment

A scientific food investigation which will assess knowledge, skills and understanding relation to the scientific principles underlying the preparation and cooking of food. Written or electronic report (1,500–2,000 words) including photographic evidence of the practical investigation. 8 hours to complete and 15% of qualification.

Assessment 2: The Food Preparation Assessment

Preparing, cooking and presenting a menu to assess knowledge, skills and understanding relating to the planning, preparation, cooking and presentation of food. Written or electronic portfolio including photographic evidence. Photographic evidence of the three final dishes must be included. 12 hours to complete and 35% of qualification.

***“Pupils are proud of the work they complete in Design and Technology”.
Ofsted 2019***

Where does this lead to?

(just a few of many examples)

[Dietician](#)
[Food Developer](#)
[Food Technologist](#)
[Chef](#)

[Animal food specialist](#)
[Food waste manager](#)

And many more!

Post 16 design and technology allows you to pursue: BTECs, NVQs, A-Levels, Higher Nationals, and Degree, and apprenticeships.

Examples of apprenticeships that relate to food:

Food technologist - Level:3 (equivalent to A levels at grades A to E). Typical length:36 months
 Food and Drink Advanced Engineer - Level:6 (equivalent to bachelor's degree). Typical length:60 months
 Advanced butcher - Level:3 (equivalent to A levels at grades A to E). Typical length:22 months
 Senior chef production cooking - Level:3 (equivalent to A levels at grades A to E). Typical length:12 months
 Hospitality team member - Level:2 (equivalent to GCSEs at grades A* to C). Typical length:12 months

Examples of degree courses that relate to food:

Bath Spa University
 BSc (Hons) Food with Nutrition

University of Plymouth
 BSc (Hons) Dietetics

Royal Agricultural University
 BSc (Hons) Agri-Food Business Management

Local courses in food:

KEY STAGE 4: FACULTY OF GLOBAL STUDIES

GEOGRAPHY

Who can I ask for more information?

DR N CURTIS

What course do I follow?

GCSE GEOGRAPHY: AQA (1-9)

What will I study?

The course has been developed to be exciting, relevant and interesting. The issues it deals with are the most important challenges facing the world today. It will give you inside information on the causes of these different challenges, the impact they have on us and our environment and what we can do to help overcome the problems we face to build a more sustainable future nationally and globally. The content of this course is divided into different themes. In today's rapidly changing world, never has Geography been a more relevant and popular subject to study

The Fieldwork:

In Geography, fieldwork must take place outside the classroom and school grounds on at least two occasions. Students must carry out two geographical enquiries in contrasting environments and show an understanding of both physical and human geography. In at least one of the enquiries students are expected to show an understanding about the interaction between physical and human geography. The most likely location for the Geography fieldtrip will be the North Wales coast, in and around Llandudno. Here, issues of coastal management and tourism will be studied.

Subject content:

Living with the physical environment

The challenge of natural hazards – Earthquakes, Tropical Storms, UK Weather Hazards

The living world – Ecosystems

Physical landscapes in the UK – Coasts and Rivers

Challenges in the human environment

3.2.1 Section A: Urban issues and challenges

3.2.2 Section B: The changing economic world

3.2.3 Section C: The challenge of resource management

The course is examined over 3 final exam papers: one Physical Geography paper, one Human Geography paper, these test the 'taught content', and a final paper which is 1) An Issue evaluation (based on pre-release booklet) and 2) A Fieldwork Paper based on 2 pieces of fieldwork which will be carried out by the students.

The course is subject to change due to the governmental changes in syllabus structure.

DETAILS OF ASSESSMENT

KEY STAGE 4: FACULTY OF SCIENCE, INNOVATION & CREATIVITY

BTEC TECH AWARD IN HEALTH & SOCIAL CARE

LEVEL 1 & 2

Assessor/Tutor	MRS M MANDER
Moderator	Externally by Exam Board
What course do I follow?	BTEC Tech Award in Health and Social Care Level 1 & 2, an NVQ portfolio style course equivalent to a full GCSE, including progress 8 points.
What will I study?	<p>The Pearson BTEC Level 1/Level 2 Tech Award in Health and Social Care is for learners who wish to acquire knowledge, understanding and skills through vocational contexts as part of their key stage 4 learning.</p> <p>The qualification covers:</p> <ul style="list-style-type: none">• Sector specific knowledge and skills in a practical learning environment.• Knowledge which underpins the effective use of skills, processes and attitudes, including human growth and development, health and social care service, and factors effecting people’s health and wellbeing• This qualification builds on and uses knowledge and skills you are learning in your GCSE’s, such as English. It will complement the more theoretical aspects covered by GCSE Biology or GCSE Psychology by allowing you to apply your knowledge and skills practically in a vocational context.
Additional Information	<p>NVQ style Portfolio of Evidence</p> <p>Level 1 = 4-1 GCSE</p> <p>Level 2 = 9-4 GCSE</p> <p>The qualification is divided into three components as follows:</p> <ol style="list-style-type: none">1- Human Lifespan and Development – (PSA – Pearson set assignment - internal)2- Health and Social Care Services and Values- (PSA – Pearson set assignment - internal)3- Health and Wellbeing- external exam

KEY STAGE 4: FACULTY OF GLOBAL STUDIES

HISTORY

Teacher in Charge

MR N DAWKINS

What course do I follow?

GCSE HISTORY 9-1 Edexcel

What will I study?

Pupils will study five topics with three exams in year 11.

Development Study - Crime and Punishment through time

This study will focus on various crimes throughout history and how crime has evolved. Topics such as witchcraft, highway robbery and suffragettes will be covered. Students will also discover the punishments criminals have had to endure throughout history such as being hung, drawn and quartered, spending time in the pillory or even having limbs chopped off.

Historic environment - Whitechapel, 1870-1900: crime, policing and the inner city

This topic investigates the living conditions in Industrial Britain and how this impacted on crime and punishment in the period. Policing methods and the infamous Jack the Ripper crimes will be investigated using historical sources to highlight the issues that Industrialisation caused in Britain during this period.

In Depth Study - Germany 1918-39

This study will focus on the huge problems Germany faced after World War One before moving on to cover how Hitler and the Nazis rose to power. The course then focus' on how people's lives in Germany changed and the impact the Nazis had on people's everyday lives.

British Depth Study - Anglo Saxon and Norman England 1060-88

This module highlights the changes and continuities that happened in England during and after the Norman invasion. How William I took control and tried to tackle resistance is covered as well as the changes made to Anglo-Saxon life, culture and architecture.

Period study - The American west 1835-1895

This study will focus on the expansion of the USA into Native American territory during the 19th century. Topics focus on Native American beliefs, development of settlements and conflicts that arose between Native Americans and the settlers. The course reflects on the impact of settlement and how the new settlers changed the USA.

Details of Examination

There will be three examination papers on the above topics.

Paper 1: Development Study - Crime and Punishment through time & Historic environment - Whitechapel, 1870-1900: crime, policing and the inner city- 1hr 15 mins

Paper 2: Period study - The American west 1835-1895 & British Depth Study - Anglo Saxon and Norman England 1060-88 – 1hr 45min

Paper 3: In Depth Study - Germany 1918-39 1 hr 20 mins

All pupils will be entered for the same examination papers.

There is no coursework element to this study

KEY STAGE 4: FACULTY OF PERFORMANCE AND EXPRESSIVE ARTS

MUSIC

Teacher in Charge

MR A PILATO

What course do I follow?

GCSE MUSIC: AQA 8271

What will I study?

GCSE Music is all about understanding, performing and composing music, and working towards a professional standard within the music industry. The skills you learn are applied across a wide variety of styles – **Western classical** tradition (1650 – 1910), **Popular** music, **Traditional** music and **Western classical** tradition (since 1910). The timetable will be divided into two sessions for each component, studied over a two-week period. Therefore, you will have two sessions on **music theory**, two sessions on **composing/music production**, and two sessions on **live performance**, each fortnight. Therefore, there are lots of opportunities to take advantage of **music technology** (utilising the iMacs with Logic Pro, Allen & Heath 24 channel mixing desk, the recording studio environment to compose/record your songs to a professional standard) throughout the two years of your study. You will also be able to utilise the practice rooms and hall/stage areas to prepare your performances for final assessment. There will be two annual (in-house) concerts arranged, one at Christmas and one in the Summer to capture your performances in front of an audience, for those who wish to demonstrate excellence in this area.

Details of Examination?

(Worth 40% of the total marks)

There is **one** main examination at the **end of Year 11** (lasting 1 hour & 30 minutes). You will listen to a CD and answer questions on the musical extracts played. There are two sections to the paper, section A and section B. Section A lasts 60 minutes and section B lasts 30 minutes. You will also answer **contextual questions** based on the **styles of music** covered throughout the two-year course (as above).

Details of Coursework

Performing *(Worth 30% of the total marks)*

You will perform **one solo piece** and **one ensemble piece** of your choice. These performances will be recorded and marked and assessed by your teacher and moderated by the **exam board**. Each piece needs to be **90 seconds** in length. Although encouraged, you do **not** need to perform in front of an audience, you only need to perform in front of your teacher, who will be recording the songs for external moderation purposes.

Composing *(Worth 30% of the total marks)*

Students **must** learn how to develop musical ideas and compose music that

Additional Information

is musically convincing through **two** compositions. One must be in response to an **externally set brief** (Composition 1) and the other, a **free composition** (Composition 2). You will be encouraged to use music technology in **composing** and **recording** your original songs e.g., multi-track recordings and printed notated scores. Each composition needs to be **90 seconds** in length, and be recorded into the software **Logic Pro**.

The course also emphasises the importance of **playing music with others**, and participation in **extra-curricular** activities – **song-writing, rock/pop bands, orchestra** and **choir** in and outside of school.

Our instrumental teachers from the **Entrust Music Service** very much support students throughout their course of GCSE music, enabling you to learn your chosen pieces in your **instrumental lessons** with a trained musical tutor. The instrumental lessons are available to you as GCSE music students, however these lessons must be booked and paid for in advance if you wish to take up this offer. Subject to individual pupils' circumstances, you may be offered **funded** instrumental lessons with the Entrust Music Service.

Further information about the music curriculum, our achievements in music this year, as well as our facilities in the music department can be found on the following link.

Music Video – facilities and course details info

<https://www.youtube.com/watch?v=qAM3qT19ADo>

Curriculum information

<https://madeleyschool.org/our-curriculum/faculty-of-performance-expressive-arts/music>

For any other queries, or if you would like to talk to the subject leader of music about the course, please contact Mr. Pilato directly via email at ap@madeley.shaw-education.org.uk.

KEY STAGE 4: FACULTY OF PERFORMANCE & EXPRESSIVE ARTS

PHOTOGRAPHY

Teacher in Charge

MRS G STOCKDALE

What course do I follow?

GCSE ART & DESIGN (Photography): AQA 4202

What will I study?

- 1) The work of other Photographers, studying their approach, style and use of materials applying this knowledge to your own work.
- 2) The development of ideas through the investigation and exploration of the formal elements of Photography i.e. figurative and non-figurative forms, image manipulation, close up, and imaginative interpretation, colour, focus and composition.
- 3) Recording from direct observation (drawing and taking photographs) and personal experience in forms that are appropriate to your intentions.
- 4) The selection and control of camera settings and editing programmes.
- 5) Present personal responses demonstrating understanding, realising your intentions and making connections between all elements.

Details of Examination

The examination consists of a digital portfolio of work (Unit 1 – 60%) and an Externally Set Task (Unit 2 – 40%) of 10 hours of sustained focused study where you can respond to your chosen starting point.

Details of Portfolio

You submit a digital portfolio comprising a sustained project and a selection of further work which represents your course of study. You should produce practical and critical / contextual work that should include painting and drawing, mixed media, sculpture, printmaking and new media technologies.

Additional Information

Visits to museums, art galleries and workshops are part of the Photography course. A **camera** is needed to support the course. You will be required to complete a photography project to determine suitability for this course.

[Why study Art or Photography?](#)

KEY STAGE 4: FACULTY OF PERFORMANCE & EXPRESSIVE ARTS

PHYSICAL EDUCATION**Teacher in Charge****MR P GOODWIN****What will I study?****GCSE PHYSICAL EDUCATION: OCR J587**

The specification enables pupils to participate in physical activity in a number of different types of activity and in different roles within activities through practical performance. It also requires pupils to underpin their practical performances with theoretical knowledge of the anatomical, physical and psychological demands of physical activity and how these factors affect physical competence.

Pupils will also learn how to use methods of practice to improve their level of performance in physical activity and the importance of being physically active as part of a balanced, healthy lifestyle.

Details of Examination?

There are two examination papers, each lasting 1 hour, which combine to be worth 60% of the GCSE. These will both be taken at the end of Year 11.

Component 1 – Physical factors affecting performance (60 marks)

Component 2 – Socio-cultural issues and sports psychology (60 marks)

Details of Coursework

This will be worth 40% of your overall result and is divided as follows:

1. Candidates are internally assessed as a performer in 3 practical activities (one team game, one individual activity and a third activity from either list)
 - 60 marks
2. Candidates will be assessed in an Analysis and evaluation of performance written task.
 - 20 marks

Specification content can be found at;

<http://beta.ocr.org.uk/Images/231458-gcse-9-1-physical-education-summary-brochure.pdf>

Specific Entry Requirements

Pupils should have a real passion for PE and sport. Due to the practical weighting of the subject, this course is only suitable for pupils who participate competitively in a minimum of 2 different sports. Competitive sport could be representing school teams or local sports clubs.

There is also an expectation that pupils take part in extra-curricular physical education at Madeley. This could be in the form of house competitions, lunchtime or after school clubs.

KEY STAGE 4: FACULTY OF GLOBAL STUDIES

**RELIGIOUS STUDIES – FULL COURSE
PHILOSOPHY & ETHICS**

Teacher in Charge

MRS R DERRINGTON

What course do I follow?

This is a full course in Religious Studies 9-1

What will I study?

The course the students will follow explores moral dilemmas relevant to life in the ethics topics and enquires into various ideas about why people believe and what they believe in the philosophy topics. Students also explore the beliefs, teachings and practices of Christianity and Islam in the modern world.

ETHICS & PHILOSOPHY

1. **Human Relationships** - Including family, marriage, divorce, sexual relationships and contraception.
2. **Peace and Justice** - Including attitudes towards war, violence, capital punishment and the treatment of criminals.
3. **The existence of God, gods and the ultimate reality**- The question of God, The nature of reality and how people experience God.
4. **Dialogue between religious and non-religious beliefs and attitudes**- Challenges for religion, dialogue between different religious and non-religious groups.

Beliefs, Teachings and practices- Christianity

This theme includes a variety of topics including the following:

- Nature of God,
- Concept of God as a Trinity of persons,
- Biblical accounts of Creation,
- The problem of evil and suffering and a loving and righteous God,
- Jesus Christ,
- The concept of salvation,
- Beliefs and teachings about Heaven, Hell, Life and Death
- Worship
- Prayer
- Pilgrimage
- Role of the Church in local and national communities.

Beliefs, Teachings and practices- Islam

This theme includes a variety of topics including the following:

- Core beliefs
- Prophethood
- Sources of wisdom
- Angels
- Beliefs about life after death and human accountability.

The course begins at the start of Year 9 and runs for three years.

How will I study?

Styles of working will be varied and will include studying independently and in groups. There will be opportunities to express personal views in a supportive atmosphere and to listen to, and learn from each other and guest speakers.

Additional Information

There is no coursework, it is graded on 100% terminal examination, but regular homework will be set to develop knowledge and skills.

R.S. is about:

- Giving students the opportunity to consider their own responses to life's experiences, social issues and the world they live in.
- Exploring views, including those of Christians, which have contributed to our culture, traditions and values, such as respect, tolerance, justice, caring for others, doing your best and a spirit of open-minded enquiry.
- Enabling views to be developed on the idea of God and why people may be religious.
- Think about the concept of good and evil, right and wrong.
- Consider the question, 'Can a scientist be religious?'

R.S. is **not** about:

- Expecting or persuading anyone to "be religious". It is about looking at situations in life's experience from social, religious and personal viewpoints, enabling students to develop the skills to consider a range of ideas and draw their own conclusions.

Employers value the subject as an indication that students have a fair-minded approach, and can look at and respect different viewpoints, whilst expressing their own informed opinion.

KEY STAGE 4: FACULTY OF GLOBAL STUDIES

SPANISH

Teacher in Charge

MR M HAWKINS

What course do I follow?

AQA GCSE SPANISH 8692

Why should I take a language?

- GCSE Languages can help some of you gain the English Baccalaureate and support progression into most higher education courses
- Language learning can support career opportunities in an ever-increasing global job market, especially those that have an international dimension
- A GCSE language course is ideal for students who have enjoyed their KS3 language classes
- A GCSE language course will also benefit students who wish to improve their communication skills; become more independent and confident; and appreciate and understand important foreign cultures.

What and how will I study?

- The GCSE course focuses on practical communication in Listening, Speaking, Reading and Writing and builds on topics covered at Key Stage 3
- t specification has a slimmed down vocabulary list compared to previous specifications.
- In Listening and Reading, students will learn to understand and respond to information from announcements, conversations, adverts, letters, news items, instructions, notices, brochures, magazines, emails and websites
- In Speaking, students will develop the skills of sustaining a conversation in answer to questions in which they must express opinions and reasons and describe situations
- In Writing, students will develop the ability to use their chosen language creatively to produce a variety of types of writing, matching language to purpose, audience and context
- There is also a strong emphasis on gaining an understanding of the wider world, including the lifestyles and cultures of other people in a variety of the countries where the language is spoken including a brand new topic called "Celebrity Culture".
- To make sure you get a good result, you will need to complete homework on a regular basis. You will always need to learn new vocabulary and structures as part of your homework. In addition, you will be set Reading, Writing and Speaking assignments or be asked to practise what you have learnt on various websites that we use.

Details of Examination and Assessment

Students must be entered for all of the four skills at either Foundation or Higher level.

Each exam is worth 25%.

KEY STAGE 4: FACULTY OF SCIENCE, INNOVATION & CREATIVITY

DESIGN AND TECHNOLOGY**Teacher in Charge****MRS R SHARRATT****What course do I follow?****GCSE DESIGN AND TECHNOLOGY****What will I study?**

This GCSE will prepare students to participate confidently and successfully in an increasingly technological world. Students will gain awareness and learn from wider influences on Design and Technology including historical, social, cultural, environmental and economic factors. Students will get the opportunity to work creatively when designing and making and apply technical and practical expertise.

The GCSE allows students to study core technical and designing and making principles, including a broad range of design processes, materials techniques and equipment. They will also have the opportunity to study specialist technical principles in greater depth.

This qualification is linear. Linear means that students will sit all their exams and submit all their non-exam assessment at the end of the course.

Upon completion of this course, students will be qualified to go on to further study or embark on an apprenticeship or full-time career in the creative industries.

Details of Assessment**Exam 50%, Project (Coursework) 50%****What's assessed**[Core technical principles](#)[Specialist technical principles](#)**Exam: How it's assessed**

Written exam: 1 hour and 45 minutes

100 marks

50% of GCSE

Section A – Core

This section is 40 marks and contains a mixture of different question styles, including open-response, graphical, calculation and extended-open-response questions. There will be 10 marks of calculation questions in Section A.

Section B – Material Categories

This section is 60 marks and contains a mixture of different question styles, including open-response, graphical, calculation and extended-open-response questions. There will be 5 marks of calculation questions in Section B

Where does this lead to?

(just a few of many examples)

Engineering sectors: energy, aerospace, agriculture, vehicle, robotics, biomedical, electronics...

Design: Architecture, product design, art and design, fashion, CAD...

Building: carpentry, construction, set design, civil engineering, plumbing...

...and many more!

Post 16 design and technology allows you to pursue: BTECs, NVQs, A-Levels, Higher Nationals, and Degree, and apprenticeships.

Project: What's assessed

Practical application of:

- Core technical principles
- Specialist technical principles
- Designing and making principles

How it's assessed

- Non-exam assessment (NEA): 30–35 hours approximately
- 100 marks
- 50% of GCSE

Task(s)

- Students will undertake a project based on a contextual challenge released by Edexcel on the 1st of June.
- The project will test students' skills in investigating, designing, making and evaluating a prototype of a product.
- Task will be internally assessed and externally moderated.

- 1 – Investigate (16 marks)
- 2 – Design (42 marks)
- 3 – Make (36 marks)
- 4 – Evaluate (6 marks)

- Students will produce a working prototype and a portfolio of evidence
- Work will be marked by teachers and moderated externally by the awarding body.

“We aim to teach a balance of modern and traditional making techniques from 3d printing and laser cutting to machining and MIG welding. Having strong links with industry enable us to provide a bespoke curriculum that children enjoy and learn skills that compliment those with post 16 providers.”

“Pupils are proud of the work they complete in Design and Technology”. Ofsted 2019

By using a combination of design and making activities we ensure that pupils bring the best of their knowledge of all subjects into their projects. This unique experience means that students apply knowledge in creative ways.
