

COLLAGE

Learning Challenge : how can I create an oversized animal collage?

Inspired by:

<http://elementaryartfun.blogspot.com/2017/11/collage-animals.html>

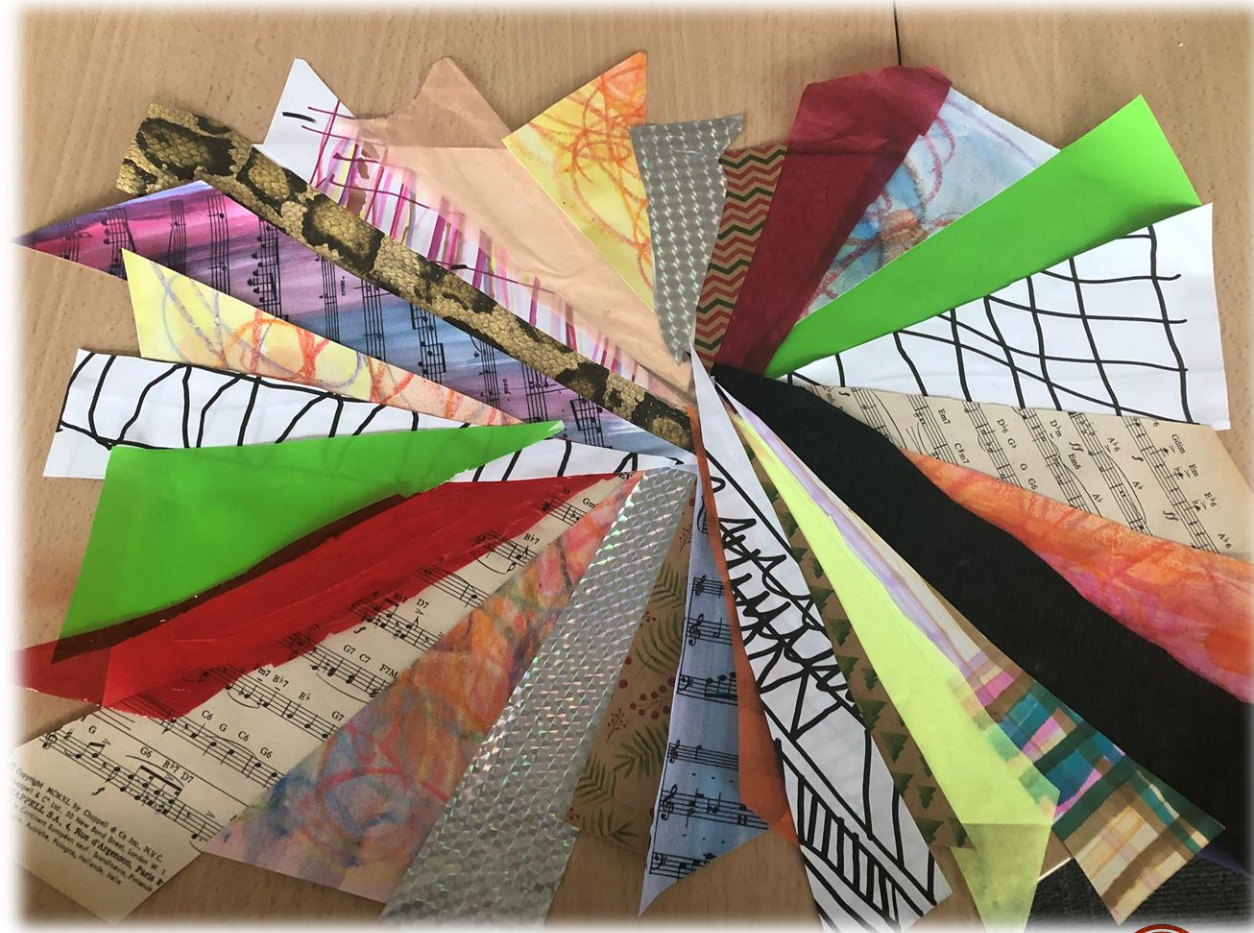

STEP 1:

Gather all kind of papers: newspaper, magazines, wallpaper, scrap paper, old books, wrapping paper, old music manuscripts, coloured plastic wrapping... - you can even create your own paper: use markers, pastels, watercolour, gouache...

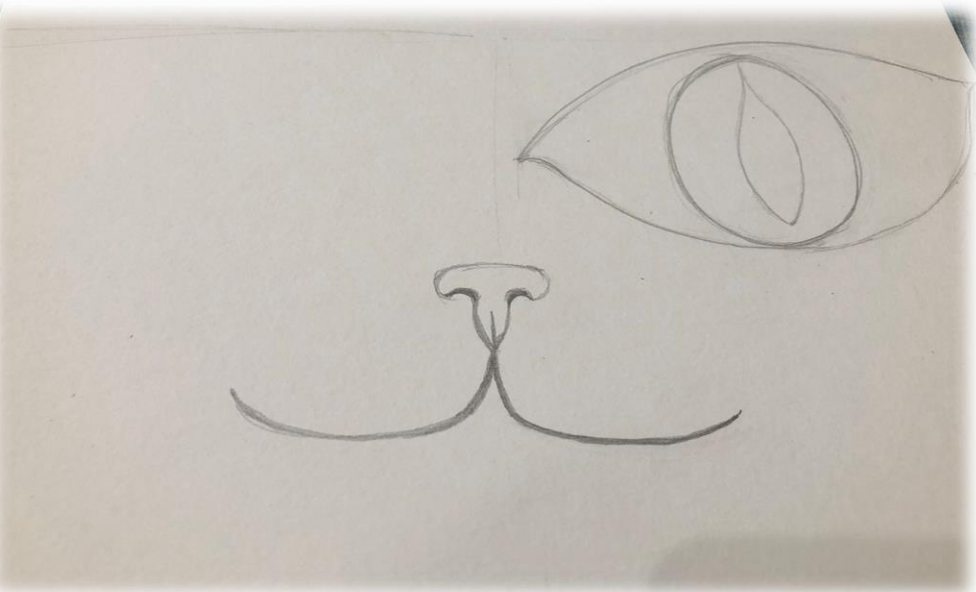

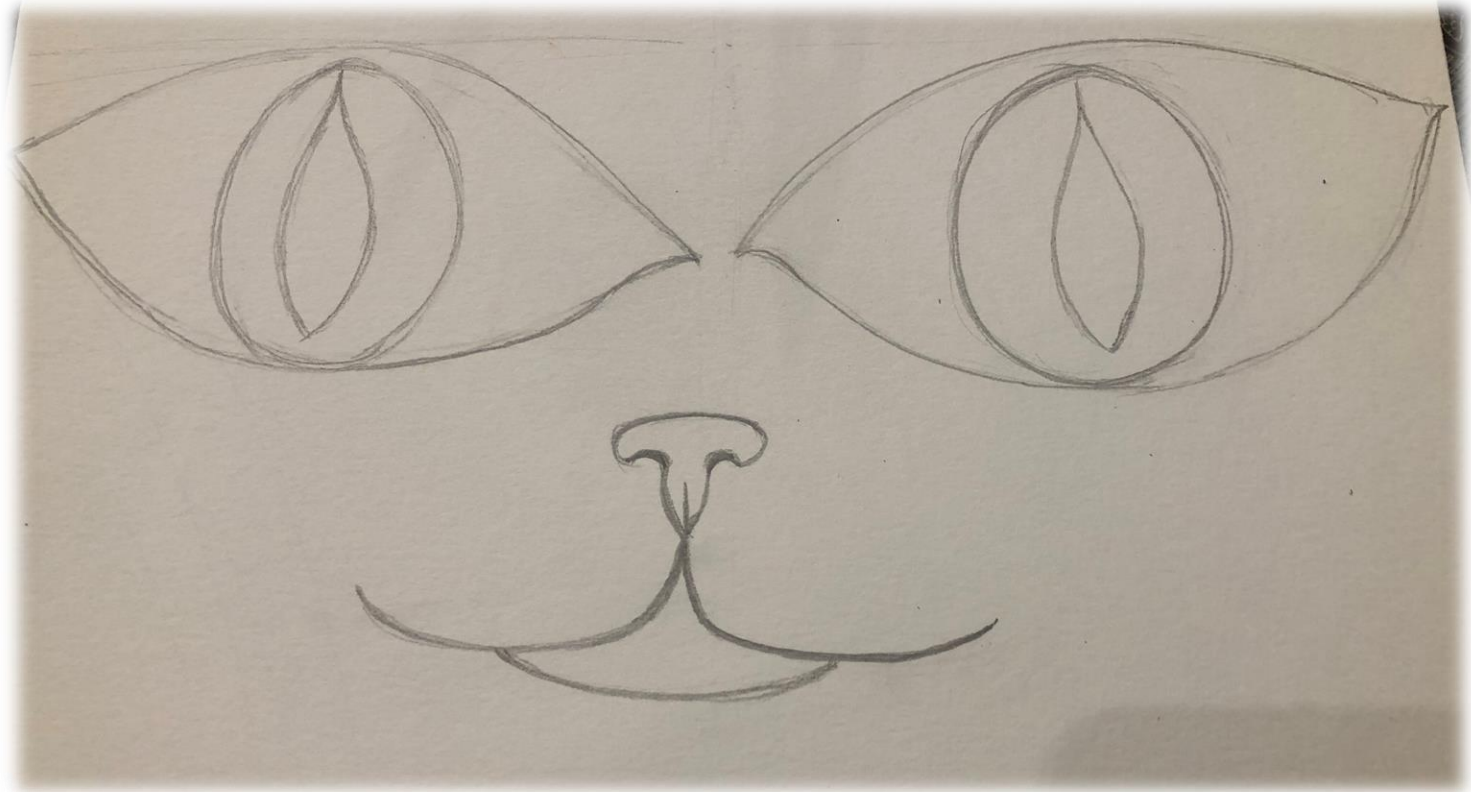

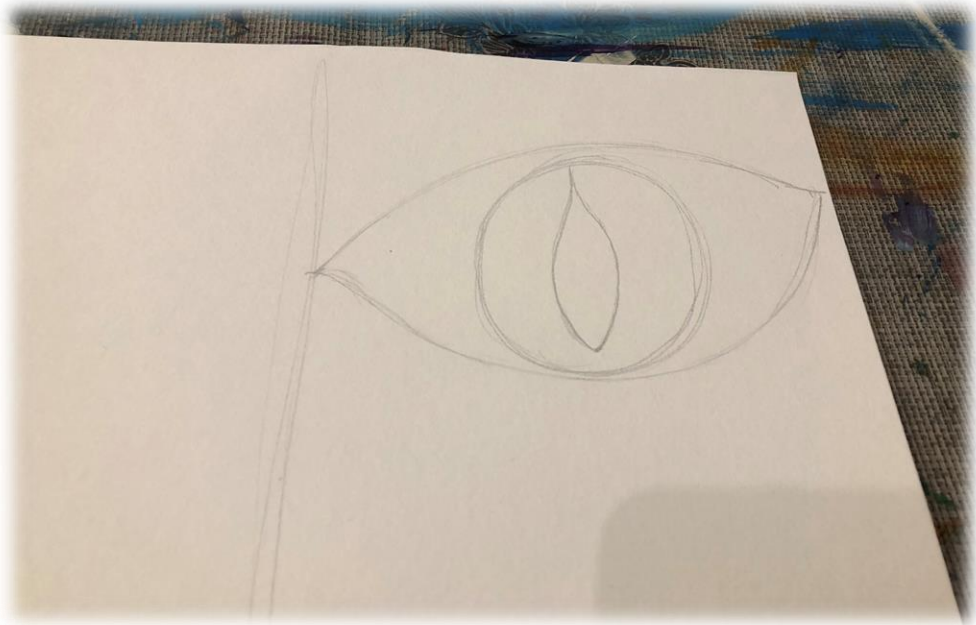

STEP 2:

Cut out long strips of paper (triangle shapes and rectangular shapes) - glue them on an A3 card, pointing towards the middle of the page – overlap the strips and let them go over the edges of the card in an irregular way – alternate colours and designs

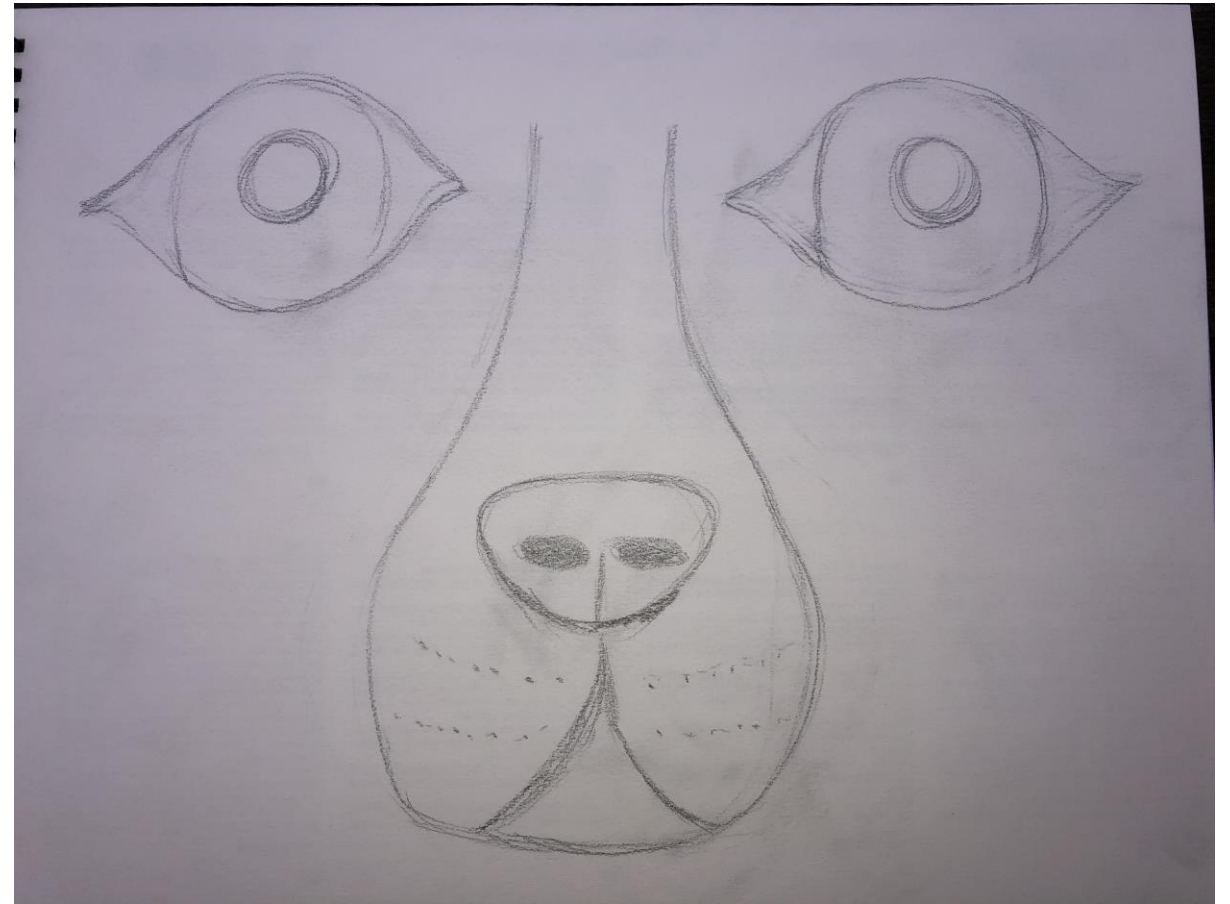

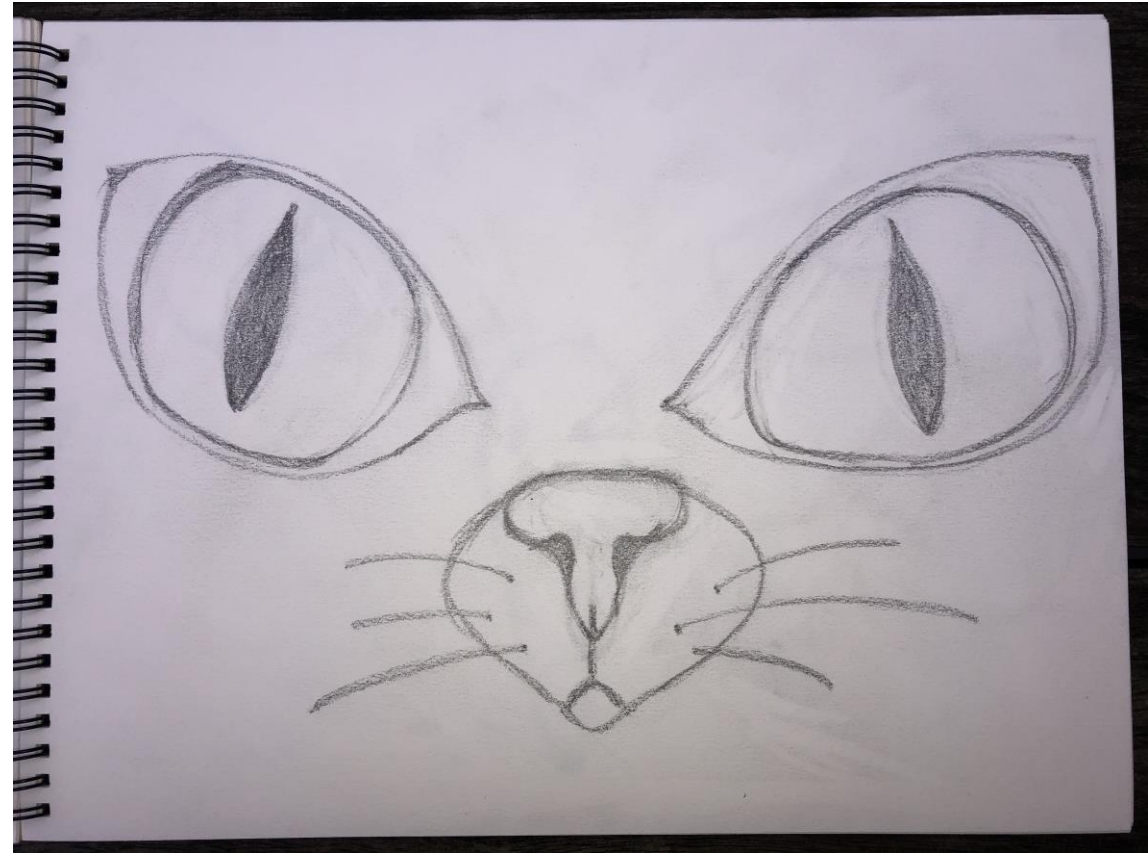

STEP 3: Choose an animal and sketch large eyes/mouth/noose/beak on an A3 card

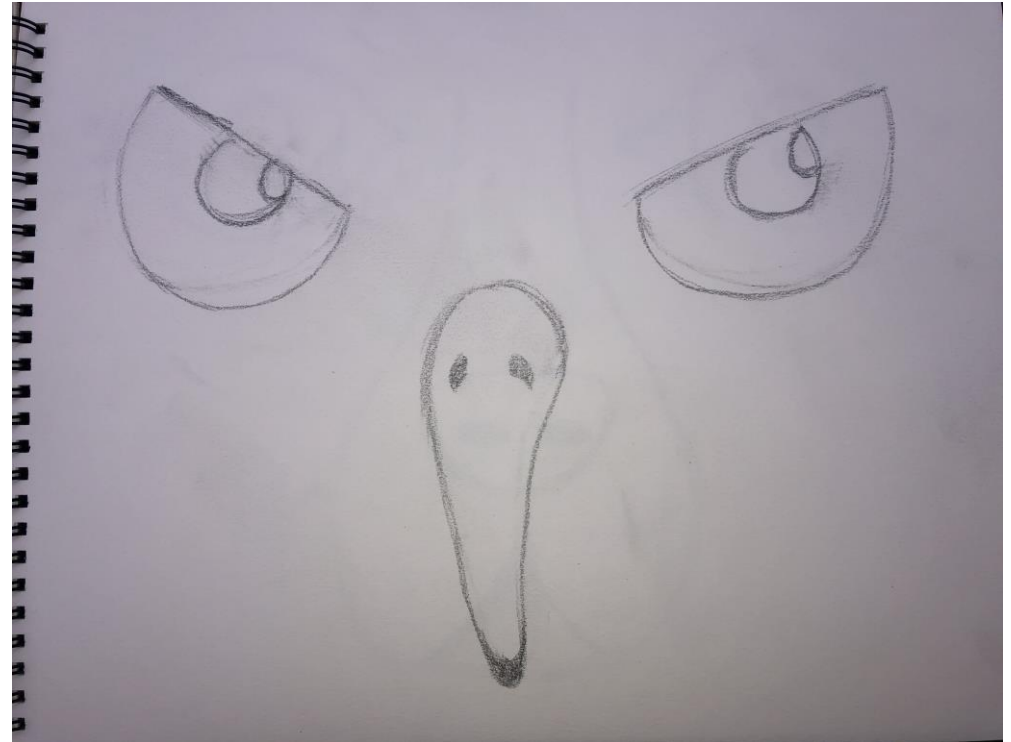

A DOG...

A CAT...

AN EAGLE ...

STEP 4:

- Colour the nose and the eyes with markers/oil pastels/black ink : darker colour on the outside of the iris, lighter in the centre – white shine in the pupil
- Then cut them off and glue them on your collage

STEP 5:

- Glue the eyes and the noose/mouth/beak with a glue stick
- Use acrylic grey/white/black paint to paint around the eyes and the mouth – use a fine brush to paint the hair and the whiskers (if a cat)
