## Tasks

Over the next few weeks I would like you to create a zentangle.

Your work will start by experimenting with the pattern and then move on to creating a picture.

Cant wait to see them! (Miss Lockwood)

First, draw a grid with 9 or 12 squares (or circles) and create your own patterns inside

Next, you could have a go using colour!

Feel free to cut this down to 4 squares if you don't want to do 16.

Finally, I would like you to create your own masterpiece using the skills you have learnt. It can be all in black, colour, or a mixture of both.

**Remember** ,you are the artist!

P.S One of the harbour might be nice.
