

# 4 SIMPLE STEPS FOR ANNOTATING

1. It helps you understand what you have learnt and what to do next.
2. It shows the examiner that you're reviewing your work and improving.

## 1 INTENTION: WHY DID YOU DO IT?

Experiments with colour?  
shape? a new technique?  
improving your skill?

## 2 IS IT SUCCESSFUL? WHY?

WHY is the most important  
bit here - unpick what it is  
that worked/failed

## 3 WHAT HAVE YOU LEARNT?

Are the colours wrong?  
why? Is the technique the  
wrong one? why?

## 4 WHAT WILL YOU DO NEXT?

Will you change the colour,  
texture, shape, composition  
technique... why?

**DON'T TELL THE EXAMINER  
WHAT THEY CAN ALREADY  
SEE - TELL THEM WHY IT  
MATTERS.**
