Dear Parent/Carer,

Re: Focus Child

Next week _____ will be a 'Focus Child'. We will be observing them while they play to find out more about their interests and how they are progressing. If you would like to contribute to this, please feel free to take some pictures of your child/family enjoying activities out of school and pass them onto the class teacher.

We value the knowledge and understanding you have of your child and would really appreciate if you would share this with us so that together we can plan activities to meet your child's needs. This will help us plan for their future learning and development.

Kind Regards

The Year R Team
