

Curriculum Re-engagement Programme

Subject: Geography SL: ROY DOL: TTE

	Adaptations
New Year 7	Beginning the newly planned curriculum My Geography
New Year 8	The pupils missed the map skills assessment but much of this is addressed within the newly planned curriculum beginning in September. Teachers will make a focus and take opportunities in line with the curriculum to work on map skills as highlighted in the curriculum planning documents. The pupils missed an assessment on Coasts, but this is not essential for measuring progress and those who go on to GCSE will have extra time given to this within the GCSE course. The Year 8 will be starting the newly planned curriculum in September The Wider World .
New Year 9	The pupils missed an assessment on Rivers, but this is not essential for measuring progress and those who go on to GCSE will have extra time given to this within the GCSE course. The Year 9 will be starting the newly planned curriculum in September Life on the Edge
New Year 10	We covered the weather hazards and climate change topic during closure so will need to identify gaps in knowledge and understanding. We will need to teach the tricellular model of atmospheric circulation. This will be done through exam questions in the Autumn term and a full assessment at the end of the Urban topic. We will give some extended time to recap and revise the weather unit before the joint Urban assessment at the end of October/early November.
New Year 11	<ul style="list-style-type: none">• The exam board propose to remove fieldwork from the GCSE assessment. We now anticipate completing the teaching element of the course by Easter 2021 this will reduce the amount of time we usually have for revision by 5 weeks. We will address this by increasing the amount of practice recall given in lesson and home learning. We will also make use of Kerboodle for home learning for exam practice along with exam questions through out the year in class and at home.• We will reassess once the consultation results and final plans are released. There is hope that Paper 3 will be removed but that might not happen.
