

## Nursery Newsletter

Our topic will continue with 'winter'. During this theme, the children will be exploring ice, snow, shape and form.

In class this week, we shall make ice art by putting pinecones, or pieces of evergreen leaves into water and freezing them. We will place the ice art in the garden for the children to observe throughout the day. We will talk about any changes they observe.

Learning Intentions:

- Explore texture using all our senses
- Talk about what is happening to the ice artwork
- Work together to create a 'winter' display for class.

Please could you create a collage with your children with the number, colour and shape that the children are learning in class? The colour -blue, number -4, shape -rectangle.

Homework will be sent home this week, could you please support your children by designing a hat and mittens. We look forward to displaying their lovely creations.

Learning journeys are available to take home on request, please see Mrs Plowman. You can put your own contributions and children's achievements at home into their learning journal.

Thank you for your continued support towards the snack provision, without your contributions we would not be able to provide a variety of snacks.

Mrs Edwards Head of Pre-School and Nursery
