

Nursery Newsletter

We will continue with the topic Winter. In class the children will be exploring different textures, shapes, manipulate various media to create artwork, practicing mark making with a variety of implements. They will be creating Ice art by using natural objects which we will hang outside for the children to look at throughout the day and chat about any changes they have observed. Through these planned activities we will introduce lots of new vocabulary.

Learning intentions linked to topic:

- Develop mathematical language when using various shapes to create a snowman.
- Create Ice hangings chat about what they observe.
- Ascribe meaning to the marks they make.

Finally, the parent evening will be held on 24th of February appointment sheets will be available from the 23rd of January sorry for the delay.

We have an inset day on Monday the 23rd January.

Have a lovely week.

Mrs Edwards head of Pre-school & Nursery
