

Pre-school Newsletter

Our topic in class is Spring. The children will be looking at Planting and Growth. We shall be looking at similarities, differences, and change. We are going to try an experiment in class to find out what conditions are best for a seed to grow. We shall put seeds in the dark, water, sand, in a pot and in soil, the children will record their findings.

Learning intentions linked to class subject:

- Talk about the differences in the seed they plant.
- Use key vocabulary to describe change.
- Record the changes they have seen in the seedlings.
- Ascribe meaning to the marks they make.
- Mathematics measure growth and make comparison.

The letter sound for the week will be 'X', we look forward to seeing your children's creations as we use their work at circle time on a Thursday to promote speech sounds.

Can I say thank you for supporting our snack provision by donating fruit or a voluntary contribution towards the cost.

Dates for Diary

Inset day 24th June

Last day of Summer term 22nd of July
