

Mayfield School

Protection of Pupils' Biometric Information

Believe. Achieve. Succeed.

Respectful, Resourceful, Responsible, Reflective, Resilient, Ready

Our School Vision

Our vision is to create a family ethos that raises aspirations and makes a real difference to the life chances of our young people.

Our mission

All stakeholders, together, will create an environment of respect and inclusion where all young people are valued, supported, inspired and future ready.

Amendment	Page
Added 'secondary' to 'Mayfield school uses information about your secondary child as part of an automated (i.e. electronically-operated) recognition system. This is for the purposes of paying for food in the senior section. The information from your child that we wish to use is referred to as 'biometric information'.	2
Added 'seniors' to 'Even if you have consented, your child in seniors can object or refuse at any time to their biometric information being taken/used. Their objection does not need to be in writing. We would appreciate it if you could discuss this with your child and explain to them that they can object to this if they wish.'	3
Added a new paragraph to read 'At Mayfield, if this is the case, your child will be given a 4-digit number which they will be required to type into a keypad. The 4-digit number will be different for each individual pupil and this will be given to them by the office team.'	3

NOTIFICATION OF INTENTION TO PROCESS AND PROTECT PUPILS' BIOMETRIC INFORMATION

Mayfield school uses information about your secondary child as part of an automated (i.e. electronically-operated) recognition system. This is for the purposes of paying for food in the senior section. The information from your child that we wish to use is referred to as 'biometric information'.

Under the Protection of Freedoms Act 2012 (sections 26 to 28), we are required to notify each parent of a child and obtain the written consent of at least one parent before being able to use a child's biometric information for an automated system.

Biometric information and how it will be used

Biometric information is information about a person's physical or behavioural characteristics that can be used to identify them, for example, information from their fingerprint. The school would like to take and use information from your child's fingerprint and use this information for the purpose of providing your child with a SCOpay catering account. The information will be used as part of an automated biometric recognition system. This system will take measurements of your child's fingerprint and convert these measurements into a template to be stored on the system. An image of your child's fingerprint is not stored. The template (i.e. measurements taken from your child's fingerprint) is what will be used to permit your child to access services.

You should note that the law places specific requirements on schools and colleges when using personal information, such as biometric information, about pupils for the purposes of an automated biometric recognition system. For example:

- (a) the school cannot use the information for any purpose other than those for which it was originally obtained and made known to the parent(s) (i.e. as stated above);
- (b) the school must ensure that the information is stored securely;
- (c) the school must tell you what it intends to do with the information;
- (d) unless the law allows it, the school cannot disclose personal information to another person/body – you should note that the only person/body that the school/college wishes to share the information with is.

Providing your consent/objecting

As stated above, in order to be able to use your child's biometric information, the written consent of at least one parent is required. However, consent given by one parent will be overridden if the other parent objects in writing to the use of their child's biometric information.

Similarly, if your child objects to this, the school cannot collect or use his/her biometric information for inclusion on the automated recognition system. You can also object to the proposed processing of your child's biometric information at a later stage or withdraw any consent you have previously given. This means that, if you give consent but later change your mind, you can withdraw this consent. Please note that any consent, withdrawal of consent or objection from a parent must be in writing.

Even if you have consented, your child in seniors can object or refuse at any time to their biometric information being taken/used. Their objection does not need to be in writing. We would appreciate it if you could discuss this with your child and explain to them that they can object to this if they wish.

The school is also happy to answer any questions you or your child may have. If you do not wish your child's biometric information to be processed by the school, or your child objects to such processing, the law says that we must provide reasonable alternative arrangements for children who are not going to use the automated system to for senior section catering.

At Mayfield, if this is the case, your child will be given a 4-digit number which they will be required to type into a keypad. The 4-digit number will be different for each individual pupil and this will be given to them by the office team.
