

Head of Pre-school and Nursery

The topic will continue with the theme Winter. In class we are exploring textures, colour, shapes, and form, manipulating various media and materials to achieve their planned effect. Through these planned activities children can articulate their own ideas and extend their critical thinking by asking questions.

Learning Intentions linked to class subject:

- Use descriptive words extending vocabulary through creative artwork.
- Develop mathematical Language.
- Develop mark making using a variety of implements

Letter sound for the week is 'N'. Thank you for continuing to create a collage with your children, we use their lovely work at circle time to promote speech sounds every Thursday.

From next week, we will introduce a word wall to our children in class. Each week we will choose two words from their High Frequency Booklet which will be sent home shortly. These will be in your children's bookbag. The booklets have been sent home with the children who will be starting Reception in September this year, but our Word Wall will support all our children to recognize words and blend words together.

Finally, if you have changed your phone number or change of address, please let the office know as we need to hold the correct contact details.
