

## Year 9 CPR: Environment and Stewardship

You are going to be learning about the environment, and the concept of stewardship

### Task 1: What do you know?

On a piece of paper, write down everything that you already know about the environment and the concept of stewardship. You could consider:

- What things have a positive impact on the environment?
- How do some people lessen their negative environmental impact?
- How do whole communities try to help the environment?
- Why do Christians believe it is important to be stewards to the Earth?
- Challenge: Can you use quotes from religious texts to support the points you have made about religious views?

### Task 2: Review and elaborate on your learning

Check your notes using this webpage and add anything that you did not have down, or did not already know, in a second colour

<https://www.bbc.co.uk/bitesize/guides/zr3c7ty/revision/1> You should work through all 4 information pages.

### Task 3: Having a positive impact on the environment

- Make a list of the things that people do, which have a negative impact on the environment.
- For each of your ideas, write an alternative that people could start doing to help to protect our environment.
- Challenge: Can you think of any ways that communities or companies could work together to improve the environment?

### Task 4: Communicate your ideas

Create a poster or write a letter, which could be shared with others in the community to show your ideas about what we could do to protect our environment.

Remember to keep yourself safe and do not include any personal details on this if you plan to display it somewhere.

Please email completed work, or any questions that you may have, to Miss Colmer on [colmer-rachael@mayfield.portsmouth.sch.uk](mailto:colmer-rachael@mayfield.portsmouth.sch.uk)
