Competition 2023

Improve our school grounds and win a prize

There are 3 first prizes: (a bird feeder with fatballs, plus a bird glider and snap band) and 9 runner up prizes (bird gliders and snap bands), and all entrants will get a certificate and class dojos.

This year we are going to improve our school pond and the area around it; this will help every year group with their science lessons as well as improving our local environment. We would like you to make a bug house/hotel out of recycled materials. These can be natural like sticks or man-made materials such as old plastic bottles and cardboard. We will put the bug houses around our pond area, in the school garden, by the canteen and hopefully attract more wildlife into our school grounds. You can work by yourself or as a team.

For some ideas on how to make them, you can check out the websites below:

<https://www.famly.co/blog/bug-hotels-early-years>

<https://www.woodlandtrust.org.uk/blog/2019/09/how-to-build-a-bug-hotel/>

To enter all you need to do is bring your bug house, with your full name and class/age to the school office or straight to Mrs Quigley.

British Science week runs from 10th -19th March 2023, so please have your entries in by Monday 20th March
