

Pupil Premium is additional funding given to schools to address the current underlying inequalities between children eligible for free school meals (FSM) and their peers by ensuring that funding to tackle disadvantage reaches the pupils who need it the most. The pupil premium was introduced in April 2011 and is allocated to schools to work with pupils who have been registered for free school meals at any point in the last six years (known as Ever 6 FSM). Schools also receive funding for children who have been looked after continuously for more than six months, and children of service personnel.

The Government believes that it is for schools to decide how the Pupil Premium Grant (PPG), allocated per eligible pupil, is spent, since they are best placed to assess what additional provision should be made for the individual pupils within their responsibility. Schools are required to publish online information about how they have used the premium. This is to ensure that parents and others are made fully aware of the attainment of pupils covered by the Premium.

Pupil Premium – Diminishing attainment gap

At Melbourne Infant School we pride ourselves on having high aspiration and ambition for all pupils, regardless of their background. Our aims are to ensure that as a school we provide the highest quality education in all aspects, so that <u>all</u> of our children have every opportunity to fulfil their potential, by achieving the highest standards possible and making continuous progress. We believe that with imaginative, great teaching and a lot of love and care, every child can fulfil their potential.

Some interventions are adopted on a whole school basis and are not restricted to pupils eligible for Pupil Premium. However, the implementation of some intervention programmes would not have been possible without the Pupil Premium funding. The majority of school strategies are targeted towards improvement in the attainment and progress of pupils and improvement of each individual child's well-being. A number of these key strategies are resourced from the school's main budget, educational support staff and intervention programmes. We have allocated the additional Pupil Premium Funding to specific initiatives to support the most disadvantaged pupils.

The key objective is to diminish the difference between pupils across groups. The achievement of pupils at the end of EYFS and Key Stage 1 is very good, however levels of attainment are lower for some children who are eligible for Pupil Premium funding. While we recognise this is a national trend, we are committed to doing everything we can to diminish this achievement gap. Through the application of high quality programmes and provision overall, we aim to eliminate barriers to learning and progress. The use of targeted interventions are also important. Children who start with low attainment on entry will need to make accelerated progress in order to reach at least age related expectations. It is also important that low attaining pupils grow in confidence and independence. Therefore, quality social experiences in and outside of school can also have a significant impact.

3. Barriers to future	3. Barriers to future attainment (for pupils eligible for PP including high ability)				
In-school barriers					
Α.	Due to partial closure of schools, some children need additional support to ensure that they are socially and emotionally ready for learning. Learning behaviours of some of the children are slower to develop and in some children aspirations are low.				
В.	Some children require enhanced opportunities to develop their reading skills.				
C.	The attainment of a significant number of children in writing is below or just below the expected standard.				
External barriers					
D.	Parents will be interested and engage with their child's learning both in school and at home. Parents support children during periods of remote learning.				

4. Outc	omes	
	Desired outcomes and how they will be measured	Success criteria
	Children will be socially and emotionally ready for learning through the use of nurture, personalised learning and recovery curriculum.	Children who are in receipt of PP and have been identified as needing nurture provision achieve the targets set from the Boxall profile.
		Children are able to use strategies taught through mindfulness and discrete PSHE lessons about mental health.
A.		Children are using the growth mindset approaches and these are evident in all lessons and in the wider curriculum.
		As learning behaviours improve attainment will improve accordingly.
		Children take pride in their work and their presentation reflects this.

Pupil Premium Strategy: Melbourne Infant School: 2020-2021

В.	To raise attainment for children working at below age-related expectations in reading. To provide opportunities for children working at age-related expectations to exceed in reading.	Children working below age-related expectations improve their phonic screening score throughout the year – Year 2 (Autumn 2-Summer 2) Attainment improves in reading at end of Key Stage 1. Some of the children currently working at age-related expectations exceed age-related expectations by the end of the year.
C.	To raise progress and attainment in writing.	Writing outcomes will improve for PP children working below age-related expectations. The attainment of children in receipt of pupil premium shows an improvement when compared with their historical data. Children are making accelerated progress from their starting points in comparison with non-PP children. Children in Key Stage 1 who have lost learning due to the COVID-19 pandemic are provided with opportunities to maintain
D	Parents will be interested and engage with their child's learning both in school and at home. Parents support children during periods of remote learning.	progress made in previous years. All parents actively involved in their child's learning especially through the use of Class Dojo, Bug Club, the homework format and Spelling Shed. Parents are supported to gain access to technology where possible. Where access to technology is compromised school will provide paper packs during periods of remote learning. Where there is still a need, school provide families with additional support or make the relevant referral to the Multi Agency Team.

5. Planned expenditure
