Music	The human body - focus on musical structure	Poetry - focus on performing	Environment - focus on composing	Around the world - focus on pitch	Time - focus on beats	In the past - focus on notation

Welcome to 3/4p

Hello! Welcome to 3/4P. 3/4P are taught by Mr Peach and are assisted by Miss Pomfret. We are so excited to have you in our class! Over the course of the year, we will be learning about all sorts of amazing things. In Literacy, we will look at Newspaper reports, poetry, recounts and writing stories. In Maths, there are lots of exciting things to learn starting with Place Value and looking at fractions, time and measurement!

My favourite thing to teach is anything where you get to learn about something new. So lessons like History or RE are really great fun. I love finding out about the world and I hope you will as well.

Throughout the year, we will have lots of opportunities to do fun and exciting things. Our year 4's will get to go Swimming for the first time, Mr Tomes will teach us some excellent skills in PE and there are lots of opportunities for acting, music and drama through putting on our production. This year is going to be excellent and I am so proud to be part of the Lower Key Stage 2 team.

Welcome to 3/4KR

Hello! Welcome to 3/4KR. 3/4KR are taught by Miss Raby on Monday, Tuesday and Wednesday, and Mrs Kirkpatrick on Wednesday, Thursday and Friday. We are assisted by Mrs Munro. We are thrilled that you are in our class!

Throughout the year, we will be learning about all sorts of wonderful things. In Literacy, we will look at Newspaper reports, poetry, recounts and writing stories. In Maths, there are lots of great things to learn, starting with place value, and covering addition, subtraction, measurement and more!

Miss Raby's favourite thing to teach is science, as she loves investigating things and doing lots of exciting experiments! Mrs Kirkpatrick's favourite thing to teach is anything related to William Shakespeare, as she loves plays, drama and acting.

Throughout the year, we will be covering lots of exciting topics, including Anglo-saxons and history of the railways. It is also a special year for year 4, as they start their swimming lessons this year! There are also lots of chances to work on our performance skills as we work on a production later in the year. There is so much to look forward to this year, and we can't wait to enjoy it with you here in LKS2!

Welcome to 3/4SP

Hello, welcome to 3/4SP. Mrs Shepherd here I am very happy to be teaching 3/4SP. Miss Rogers is our teaching assistant and Miss Phelps will join us when she returns from maternity leave.

We have lots of exciting topics to look forward to including natural disasters, Ancient Rome and the Norman Invasion.

In our English lessons we will be reading and writing a variety of texts including newspaper reports, short stories, poetry and playscripts. Our maths lessons will cover number, fractions, time and measurement. In science we will carry out some interesting investigations on a variety of topics, including electricity and states of matter.

I love being creative so Art and Design Technology are two of my favourite lessons to teach. We love to sing and act too so our performance later in the year will be lots of fun!

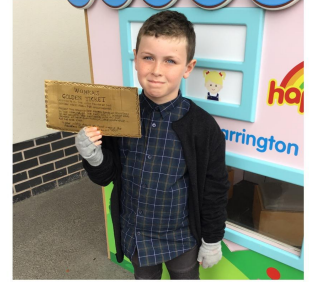

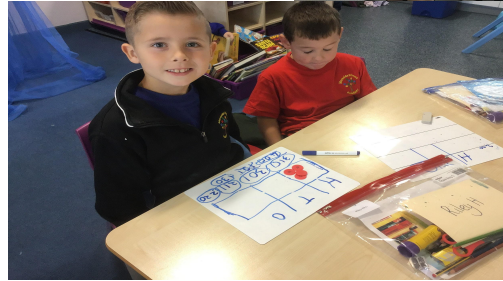

There are so many exciting lessons to look forward to, and I am thrilled to be working with 3/4SP this year.
