

English

In English, we will be reading our story Stone Age Boy, which links well with our History topic. We will develop our knowledge of Year 3 spelling, grammar and punctuation. In school, we will be using the reading programme 'Reading Plus' to develop our reading fluency and comprehension skills. This can also be accessed at home. During all lessons, we will continue to focus on a high standard of presentation, including joined handwriting.

Our PE Day

Our PE morning is every **Monday**. Please ensure that children have correct full outdoor and indoor PE kit as we will be using both areas for PE. Long hair should be tied back and earrings cannot be worn. As with all uniform, please ensure children's clothing is all clearly labelled with their name.

Wider Curriculum

Computing - Digital Literacy (E-safety)

PSHE - Being Me in My World.

Music - Charanga

PE - Indoor Athletics & Basketball

Curriculum - History

This half term in Year 3, our History focus enquiry question will be:

'How do we know what it was like in the Stone Age, Bronze Age and Iron Age?'

We will build a rich knowledge base of historical knowledge including how life changed throughout the Stone Age to the Iron Age. We will also investigate significant monuments, events and artefacts using primary and secondary sources to widen and deepen our understanding of this amazing time period.

Year 3 Newsletter Autumn 1 2026

Learning Outcome

At the end of this half term, the children will be presenting their detailed answers and consolidating their knowledge from our History topic.

Homework

The children will receive a homework menu with a range of tasks linked to our History topic.

Children will also be set maths homework every Wednesday on Magma maths. Login details will be shared in the first week. Please send any out of school achievements or extra learning done over Class Dojo, we love to celebrate these!

Maths

In **Year 3** this term we will continue to develop our knowledge of place value and apply that knowledge to 3-digit numbers. We will also deepen our understanding of addition and subtraction of 3-digit numbers.

Please continue to support your child to practise their recall of times tables 2's 5's and 10's. We will also begin to learn times tables 4's and 8's this year. The ability to recall these facts more confidently would be hugely beneficial for your child in their Maths lessons.

Science

This term Year 3 will learn about 'Rocks'! We will explore the rock cycle and learn about different types of rock. We will sort rocks and group them from their properties.

Reading

Please continue to share the love of books with your child. Encourage them to read/share books OR access reading plus at least 5 times per week. This can be recorded on one page per week of the Reading Record. Reads will be counted **Wednesday**.

Reading should be a delightful experience and we encourage you to revisit and re-read favourite books and stories.
