Key Knowledge

- Know when living things are living, dead and have never been alive.
- Know how habitats and micro-habitats help living things to live and feed.
- Identify and name plants and animals living in a habitat.
- Know how living things are connected through food chains.

Big Picture Model

(Processes of Life)

Big Picture Model (Habitats & Microhabitats)

Key Words

	sort	group	classify	feature (criteria)
living	sensitivity	habitat	energy	
dead	growth	micro-habitat	light	
non-living	reproduction	conditions	temperature	
movement	excretion	adapted	water	
respiration	nutrition	food chain	shelter
