

English

Our Power of Reading text this half term is The Tin Forest by Helen Ward. In class we will be focussing on 2 different writing genres: instruction writing and diary writing.

We will be writing instructions for how to grow a plant and our diary writing will be a narrative recount, written from the perspective of the old man in The Tin Forest.

We will continue to focus on our spelling through the Scode scheme as well as reinforcing our handwriting formation each day through practising the Year 2 common exception words.

Home Reading

Please continue to share both the love of reading books and reading squad eBooks with your child. Encourage them to read/share books at least 5 times per week. Reads will be counted every Monday. Reading should be a delightful experience and we encourage you to revisit and reread favourite books and stories.

Happy readers become confident readers.

Our PE Days

Bramble Class will usually have PE on a Tuesday afternoon.

Please ensure that children have a full PE kit in school all week. Long hair should be tied back and earrings removed as outlined in the school's uniform policy on our website.

Curriculum - Art

This half term in Year 2, as artists, we will be focusing on the question 'How do Artists use shape, form, space and texture?'

We explore this question by learning about different artists with a specific focus on sculptors, such as Barbara Hepworth, Antony Gormley and Henry Spencer Moore.

Year 2 will be exposed to different techniques surrounding sculpture to create their own final piece.

We will also be having a week's focus on RE and DT.

Bramble Class Newsletter Spring 2 2026

Spelling and Handwriting

Please continue to support your child to practise their spellings and handwriting. Bramble Class should be using lead-ins and joins where appropriate.

Homework

Each week the children will be given a task, based on the learning, which has been taught in class recalling learning, which they have learnt recently or last year. Any pupil led ideas and work will be welcomed and celebrated!

Maths

In Spring 2, Year 2 will be finishing off our unit of multiplication and division, followed by measures i.e. length and height. We will be having a big focus on reasoning and problem solving within these topics to underpin the skills we are learning.

As always at the beginning of our lessons we will be using our Quick Maths sheets to develop our arithmetic skills and DNA's to recall and retain past learning.

Science

This half term, Year 2 will continue to learn all about electricity. Here, we will continue to discuss how to stay safe whilst using it and how to build and draw an electrical circuit.

Wider Curriculum

ICT - Computing Science - Scratch Jnr

PSHE - Healthy Me

Music - Zootime.'

PE - Gymnastics (flight) and Locomotion
