Thursday 9th July

See What I Found?

Start by having a pot of adjectives. Pick an adjective from the pot and then think of an object that matches the describing word. From here the poem can be created as follows:

First line: See what I found?
Second line: (name of object)
Third line: (adjectives and/or descriptive phrase)
Fourth line: (tell where you found it)
Fifth line: (make a comment or question about it)

Example:

See what I found?
Ivy
Slowly growing, creeping
Over the bark of the tree
Will it still be there when the tree is no longer here?
