

Dear Parents/carers,

This year we have decided to introduce a new and exciting Maths platform solely for Year 5 and Year 6. It is called Matheletics. The children have had an introduction to it this week and some of them have also begun experiencing it in school. This is not an additional thing for children to do but will be used instead of Times Table Rockstars homework. We will be setting and assign work from here for the children to complete and this will provide them with additional practice ready for the Year 6 SATs.

All children received their log ins and passwords this week. Work is being set for them to complete over the Easter Half term.

<https://www.mathletics.com/uk/>

Thank you for your continued support  
Kind regards

Miss Steele  
Maths Lead
