

Key Stage One's home learning grid for Term 3

Topic - Up, Up and Away!

This term our topic is **Up, Up and Away**. As part of our topic we would like you to choose **one or more** of the activities from the grid below to complete at home over the next term. **This is in addition to your weekly maths, spelling and reading homework**. On a Friday, you can bring in any completed home learning to share with your class (this could be the actual piece of work or a photo of it). **We would like all children to bring in at least one piece of topic homework to share over the term.**

Build a vehicle using junk modelling	Go to the library and find out about a type of transport/how it works/who invented it	Write a story about a trip around the world - who is your main character? Where did they visit?
Create a picture or painting of a mode of transport - perhaps you could design your own	Draw and label what you would pack if you were flying all around the world	Plan a journey around the world using a map to show your route
	Research the Wright brothers, Amelia Earhart or Bessie Coleman
