

## CLASS R TIMETABLE – Week beginning 27.04.20

Hello Class R! I hope you are still enjoying time at home and not missing school too much. Don't forget you can now send emails to me to share your learning and I'd love to hear about what you've been up to. Remember to stay active and help out your grown-ups. From Mrs Smith 😊

	Maths: 20 minutes	Literacy: 20 minutes	Other	Ongoing
	Start this week's activities by watching the video of 'Owl Babies' or reading the story together at home. <a href="https://www.youtube.com/watch?v=PzbGJYj4PGY&amp;feature=youtu.be">https://www.youtube.com/watch?v=PzbGJYj4PGY&amp;feature=youtu.be</a> You can also listen to it here: <a href="https://www.bbc.co.uk/cbeebies/radio/story-time-owl-babies">https://www.bbc.co.uk/cbeebies/radio/story-time-owl-babies</a>			<i>For phonics this week, choose a different video &amp; activity from the BBC bitesize site listed below each day to practise your digraphs.</i>
<b>Day 1</b>	<p><b>You will need: 3 owlets &amp; 20 snacks.</b> (e.g toys/pictures/raisins/cheerios) The baby owls are feeling very hungry and need you to feed them! Solve the problems below and find out how many each owlet has:</p> <p>Share 9 snacks equally between the 3 owlets. Share 15 snacks equally between the 3 owlets. Share 20 snacks equally between the 3 owlets and you!</p>	Have a go at making puppets of the characters from 'Owl Babies' using cardboard or wooden spoons, and act out the story. You could even make up your own story with the characters. If you're feeling creative, you could make a cardboard box puppet theatre too.	<p><b>ICT:</b> Barn Owls are one type of owl that we can find in the UK. This webcam shows Barn Owls sitting on a nest of eggs. Watch carefully and keep checking back as they may hatch soon!  <a href="https://www.dorsetwildlifetrust.org.uk/wildlifewebcam">https://www.dorsetwildlifetrust.org.uk/wildlifewebcam</a></p>	<p><b>Reading:</b> 10 mins</p> <p><b>Phonics:</b>  <a href="https://www.bbc.co.uk/bitesize/topics/zvq9bdm">https://www.bbc.co.uk/bitesize/topics/zvq9bdm</a></p> <p><b>Number:</b> Can you put the numbers 0-10 in the correct order?</p>
<b>Day 2</b>	<p>Using 2D shapes, have a go at making different owls. Use the picture to inspire you! How many different 2D shapes can you use? Can you name them all?</p>  <p>If you want, you could send me a photo of your finished owls.</p>	Watch, read or listen to 'Owl Babies' again, then have a go at this sequencing activity. <a href="https://central.espresso.co.uk/espresso/primary_uk/subject/module/activity_index/item986739/graded/index.html">https://central.espresso.co.uk/espresso/primary_uk/subject/module/activity_index/item986739/graded/index.html</a>	<p><b>Science:</b> Have a go at Bird Watching. Sit very quietly at a window or in your garden and look carefully outside. Can you see any birds? You might want to make your own binoculars using cardboard tubes and string, or even use real ones if you have them.</p> <p>Remember, the longer you are quiet for, the more you will see!</p>	<p><b>Reading:</b> 10 mins</p> <p><b>Phonics:</b>  <a href="https://www.bbc.co.uk/bitesize/topics/zvq9bdm">https://www.bbc.co.uk/bitesize/topics/zvq9bdm</a></p> <p><b>Number:</b> Ask a grown up to set a timer for 20 seconds and see how high you can count before the timer runs out.</p>

<p><b>Day 3</b></p>	<p>Owls love to use twigs and leaves to build their nests. Can you collect 20 natural objects from your garden or on a walk? Count carefully as you go.</p> <p>You could keep these to help you build your nest later in the week.</p> <p>Don't forget to wash your hands afterwards!</p>	<p>Imagine that you are the Mummy Owl in Owl Babies. Can you write a postcard to your owl babies to tell them where you are and what you have been doing? Let them know about the adventures you've been having!</p>	<p><b>Cooking:</b> Owl Snacks! Can you make a snack that looks like an owl? The ones in the photo are made using rice cakes, apples, peanut butter, bananas, blueberries and carrot, but you could use whatever you like!</p> 	<p><b>Reading:</b> 10 mins</p> <p><b>Phonics:</b> <a href="https://www.bbc.co.uk/bitesize/topics/zvq9bdm">https://www.bbc.co.uk/bitesize/topics/zvq9bdm</a></p> <p><b>Number:</b> Can you put the numbers 11-20 in the correct order?</p>
<p><b>Day 4</b></p>	<p>Draw a picture, use your fingers or find objects in your home to help you solve these number problems:</p> <p>If there are 10 owl babies in a tree and 4 fly away, how many are left?</p> <p>If there are 7 owl babies in a tree and 3 join them, how many are there all together?</p> <p>Challenge: If there are 12 owl babies in a tree, how many more do you need to make 20 owl babies?</p>	<p>Research owls using the Internet or books. There is lots of information about them on Espresso.</p> <p>Can you write down a fact that you have found out? You could even make a poster all about owls.</p>	<p><b>DT:</b> It's time to make your own birds nest! Be as creative as you can – you could use natural materials like twig and leaves, scrunched paper, paint, playdough, blankets or even lego. Whatever you choose, think carefully about how you are going to build it and make it nice and cosy for your chicks.</p>	<p><b>Reading:</b> 10 mins</p> <p><b>Phonics:</b> <a href="https://www.bbc.co.uk/bitesize/topics/zvq9bdm">https://www.bbc.co.uk/bitesize/topics/zvq9bdm</a></p> <p><b>Number:</b> Ask a grown up to set a timer for 20 seconds and see how high you can count before the timer runs out. Can you beat your score from the other day?</p>
<p><b>Day 5</b></p>	<p>If you need to, use today to have a 'catch-up day' to finish off any of the activities that you have not managed to do so far this week.</p> <p><b>If you have finished everything, you could have a go at this challenge today:</b> Owls often hunt when we are in bed and can be best spotted at night time. Today, see if you can find out more about other animals that like to come out at night time too. We often call these animals 'nocturnal animals'. This clip from Bitesize could help you: <a href="https://www.bbc.co.uk/bitesize/clips/zsshfg8">https://www.bbc.co.uk/bitesize/clips/zsshfg8</a>. You could design a home for a nocturnal animal, make a poster about your favourite animal, record a video of yourself pretending to be a mole, make a mango hedgehog or even practise sleeping all day like a badger! I'd love you to share some of your fun ideas with me using our class email address.</p>			

**If you do not have a school writing book to record work in, please use any paper that you have available at home.**
