

Quest Title:

Pioneers

As historians we will:

Learn about the Anglo-Saxons and Vikings as invaders and pioneers, and their legacy in Britain today.

As geographers we will:

Find out where the Anglo-Saxons and Vikings came from and how place names originated from these times in history.

As mathematicians we will:

Further our place value knowledge and apply this to ordering and comparing numbers to 1000. We will continue to learn our times tables and to count in multiples of 4s, 8s and 50s. We will learn written methods for addition and subtraction.

As technologists we will:

Cook Anglo-Saxon food and design and make a Viking Longship.

As scientists we will:

Find out about nutrition, teeth and the digestive system. We will also investigate skeletons and muscles.

As writers we will:

Write poetry, non-fiction and fiction texts. We will focus on spelling and punctuating our work correctly with capital letters, full stops, exclamation marks, question marks and commas in lists.

DRIVERS: Teamwork and Effective Participators

We will: Encourage all children to participate whole-heartedly in their learning across the curriculum. We will also give all children the opportunity to work in a variety of situations as part of different sized teams.

Learning Outside the Classroom and ECO schools

We will: Experience Forest School mornings throughout the year with Mr Wedderkopp. As a class we will work hard to uphold our 'Eco Schools' values and ethos.

The Arts

We will: Create self-portraits in the style of Chuck Close and design our own illuminated letters. We will learn songs about the Anglo-Saxons and Vikings and use the classroom instruments to compose.

Diversity

We will: Learn about the French language and culture. Continue to learn about different beliefs and religions in RE.
