# PRINCIPAL'S MESSAGE

Dear Parents/Carers,

We hope that this newsletter finds you and your family safe and well. As a school, community and country we have all been through another very challenging school year. This newsletter would usually be full of news about our extracurricular activities, our trips and our events. Unfortunately, very little of those things have happened this year because of the covid situation. Our main focus has been on keeping our staff and students safe. We have also tried to ensure that whatever the difficulties, our students are still receiving an excellent standard of education and care.

We are very aware of the continued losses that our community has suffered in recent months. We send our condolences to all of you who have lost family and friends.

We are also very aware of how difficult things have been for our students and their families on so many levels. The closure of the school in January has led to our students feeling isolated and worried. We recognise how hard this must have been. We also recognise the impact on our students' education and the worry that will have caused them.

I am very pleased to be able to share how well students have worked and behaved in school this year. On their return in August and in March they displayed a maturity and resilience towards their learning. They have worked very hard and behaved very well. I do feel that having 'lost' their education for some time, our students now recognise how valuable it is to them. I also believe that the experience of working from home has made them more independent. As always, we are trying to take the positives from the situation!

I am very proud of the on-line education we were able to provide during the second school closure. We had learnt a huge amount about providing remote learning after the first closure. We ensured that all staff were well trained and ready to deliver lessons remotely. The school also ensured that we had prepared our students well for working on-line. We were also able to lend out over 300 devices so that all students could access their lessons.

I want to pay tribute to our students who attended well and worked hard, while the school was closed. Our attendance at lessons was 84%, which in the circumstances was excellent. Our students' positivity and warmth kept us going in difficult times.

I also want to pay tribute to the Moat staff who have worked tirelessly during the lockdown to keep our students' education going on-line. Support staff and teachers worked very hard as a team to ensure that we provided high quality remote education.

I want to thank our parents, who have 'home schooled' their children. We are incredibly grateful for your support at such a challenging time. I'm sure that you will agree that home schooling has brought you challenges and maybe some joy!

We are sure that because of the collective efforts of staff, students and parents, much less learning time was lost in the second lockdown.

I am sure that we all hope that the next school year will be 'normal'. A part of this normality is that students should be in perfect school uniform for the new academic year:

A very detailed description of the uniform is included in this newsletter. Could you please ensure that your son/daughter has all of the necessary items for next August. Most of the compulsory items on the list are available at school-wear stockists. The blazer, tie and jumper are available to purchase directly from our official supplier:

**Uniform Direct**  
**54-56 Humberstone Gate,**  
**Leicester.**  
**Telephone – 0116 2511844**  
**Email: [www.uniform-direct.com](http://www.uniform-direct.com)**

Over the summer holiday I would, of course, ask you to ensure that your sons and daughters follow all the government regulations around safety. Our students would also benefit from reading as widely as possible over the summer and we will be putting suitable books on our on-line platforms to support this.

I would like to mention several staff who are leaving us this summer. These include: Ms Mansoor, Miss Whittingham, Miss Mercer and Mrs De Souza. They will all be sadly missed by all at Moat.

We will contact you over the summer by email, through our app and website with information about how the start of next term will be organised. This communication will include dates, times and any safety information.

Finally, I would like to finish by paying tribute to all the NHS and care staff who have worked bravely and tirelessly to keep us safe during the pandemic. I'm sure that as a school and community we would all wish to thank them.

Thank you for your support during another difficult year for the school.

We wish you and your families well over the summer. Do take care of yourself.

Mr B Killeen  
Principal

## Moat Book Day 2021 A Reading Day to Remember!

March 25<sup>th</sup> 2021 will go down in the annals of Reading Room history as the date of the very first Moat Book Day – World Book Day the Moat way!

This bonanza for bibliophiles was an opportunity to celebrate our love of books and reading by taking part in book themed activities aimed to further enthuse those who are already voracious readers and to tempt those who might need some extra persuasion.

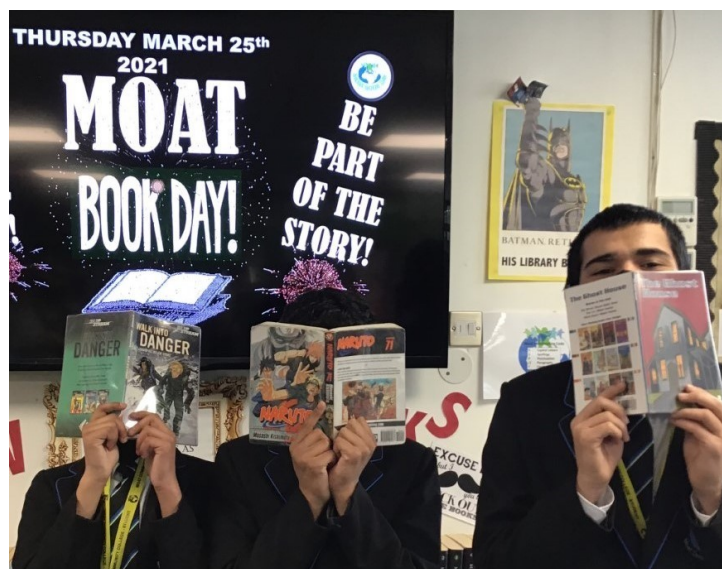

Lessons began with an enticing story extract from a wide range of books, all available to read in full on 'Sora' our new digital reading platform, and each Year 7 student was the lucky recipient of a free book.

All readers are winners, but the winners of the day's very popular 'Moat Way in the Way Book Cover Competition' were Amna Ali (8.10), Dhruhi Bhupendra (7.1), Aisha Jamati (7.4) and Zainab Rakhada (7.1).

Ayesha Aftabalam (9.1) won a special prize for enthusiastic contribution from home, as even self-isolation cannot stand in the way of a keen reader and her books!

Throughout the day students and staff were encouraged to share pictures of their reading books which were added to the Moat Reading Wall - a fitting visual reminder of an enjoyable day and of the invaluable role that reading plays in our lives, not only nourishing our minds and firing our imaginations, but also helping us to make sense of our own experiences and linking us to the experiences of others.

# CAREERS and PDE department

## Careers @Moat

We have been determined to continue with as many career events as possible and explore other means of delivery. This has been particularly important in preparing our year 11 for their post 16 transition.

From the first week of the Autumn term, we began a rigorous process of offering a 'one to one' careers interview to every year 11 student before the Christmas holiday which was necessary to catch up on lost learning from the first lockdown. This action proved to be invaluable in preparing students for their college applications.

In December, we were delighted to offer year 11 students a chance to be given a virtual mock interview by employers organised by LEBC. The students gained much confidence which was further reinforced as individuals were given written personal feedback from the employers. This intervention proved to be a strength to our students, as this year, the colleges decided to interview virtually for places on their courses.

On the 9<sup>th</sup> March we held our Year 8 LEBC Speed Networking event virtually. This event was threatened to have to be cancelled as it fell within the reopening week of the school but with much resilience and negotiation with employers, the event went ahead and helped our students gain meaningful encounters with local employers.

The Year 7's took part in the virtual 'what's my job' event delivered by the LEBC. The aim of the event was for students to learn about the many different opportunities available and to introduce them to the world of work. This event increased confidence and communication skills. Students had fun meeting and discovering the jobs of a large number of employers. This event promoted excellent employability skills for our youngest of students.

In April a small number of our Year 9 students took part in a project delivered by the 'Volunteer It Yourself' team. They built three planters and benches for the school. This project enabled students to use their team working and communication skills as well as develop new employability skills.

## Work Experience @Moat

Due to the coronavirus situation we have had to cancel our work experience this year but we will be delivering a very exciting virtual version.

**Parents can help by letting Steve Dowell ([sdowell@moat.leicester.sch.uk](mailto:sdowell@moat.leicester.sch.uk)) know of any companies who would like to host work experience for our students in the future.**

## Post 16 options @Moat

This year we took a different approach in informing our year 11's about their post 16 options. Many of our local post 16 colleges and providers presented virtually to the students, allowing them to ask questions. This was a very successful way of giving our students the information they needed to make decisions about the post 16 choices.

## Apprenticeship @Moat

We have been providing support for students who are interested in applying for an apprenticeship.

## Enterprise Advisor @Moat

Vipal Karavadra is the director of Fluid Funding, who is our Enterprise Advisor. Vipal has a large contact base with many industrial sectors which we hope will help us in the future. He was involved in an interview with our year 8 students, which is available to view on our social media .

## Visitors @Moat

Research has shown that our students should have meaningful encounters with employers. Experience has shown that ex-students help our present students in a fantastic way. We have a number of opportunities where we welcome alumni that can support our next generation. If you are interested in being involved please contact Mrs Shenaz Kidy on 0116 2625705 ext 809 or email [createyourfuture@moat.leicester.sch.uk](mailto:createyourfuture@moat.leicester.sch.uk).

## National Citizens Service (NCS) @Moat

NCS is for 16 and 17 year old's who are encouraged to take part in social action projects and build skills for work and life. Many of our year 11 students have signed up for this however due to the current situation this event is on hold.

## GCSE Citizenship @Moat

The GCSE students have been developing their campaigning skills by raising awareness about various issues. Active Citizenship is a very important element of the exam. Year 9s have been considering the issues of Peace and Unity. Year 10s have focused on Knife Crime and Year 11s have been developing their knowledge and understanding about forced marriages. Many other topics have been covered depending on the ability and interests of the students.

Just a bit of extra maths...

Improve your maths by following our maths Instagram account [@moatmaths](https://www.instagram.com/moatmaths) which is run by the Moat Maths Department.

This includes exam questions with worked solutions, revision, student work, puzzles and more:

This year, the Maths department have introduced a weekly **Puzzle Corner** as we believe this is one way in which numeracy skills are challenged as a whole. Students have responded really well especially the lower school, as we are getting nearly one hundred entries per week but we're still aiming for more!

The winning students have been awarded prizes and reward points but we are always interested in puzzles that you would like to be used. See your maths teacher for more information. Well done and keep thinking and remember, the answer isn't always obvious!

Puzzle #4 – The frog and the well

Puzzle #5 – How Long is the bird ?

Puzzle #6 – Mis?ing Numb3r

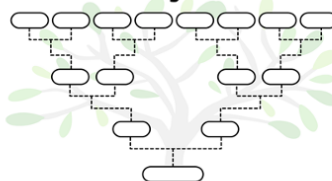

## PUZZLE OF THE WEEK

Puzzle Corner # 1

Mr. and Mrs. Mustard have six daughters and each daughter has one brother.

### Family Tree

How many people are in the Mustard family?

# team @ Moat

The Eco-Team is always working hard behind the scenes to implement the 5R's of ecology in our school. I would like to share an eco-project that *finally* (!) came to completion last week after the many lockdowns.

Refusing to see 221 unused textbooks go to waste, our eco-warriors decided to send them to Africa.

They recycled tomato cans from the school kitchen and transformed them into cute plant cachepots. They then sold these to local businesses on Maidstone road and used the money raised to ship the books.

The textbooks finally departed for Africa last week, where they will be reused by local schools and teachers.

Special thanks to Ms Hughes who entrusted the eco-team with the MFL textbooks, Ms Sheehan who kindly kept the tomato cans for us, and to Ms Burton who let us invade her room during lunchtime.

The charity we worked with is called Books2Africa - <https://www.youtube.com/watch?v=tOCzv3gky9E>

# Charity News

The School Council arranged a bake sale for each year group to raise money for Humanitarian aid for Palestine. The students behaved in a positive manner and the money raised will make a difference in the lives of those that have been affected.

The following amount was raised by each year group.

Year 7 - £206 approximately  
Year 8 - £205 approximately  
Year 9 - £250 approximately  
Year 10 - £410 approximately

Total raised from bake sale ONLY: **£1079.05**

This takes the grand total to **£1735.28**

Many students brought in their own cakes but thanks also go to secret bakers Ms. Amrani, Ms. Cross who very kindly helped out.

The lovely ladies in the catering team took it one step further, they decided to also take part and brought in some home made savouries. They managed to raise more than **£250.00**

The final total we raised as a school is **£2000.28**

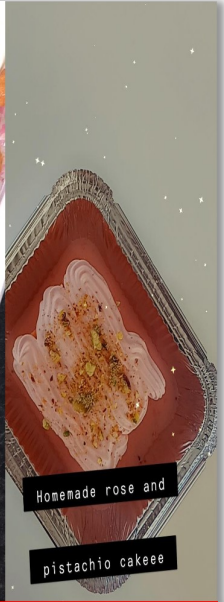

Well done to our students and staff for coming together as a community to help improve the lives of others.
