My Goal

Readiness

Learn

Do

Quiz

Remember

Outlines what you will learn

A quiz to see if you have the correct building blocks to begin

A video about the key learning points

Worked examples explained by a teacher with a chance to practise

A short quiz on what you've learnt in this goal

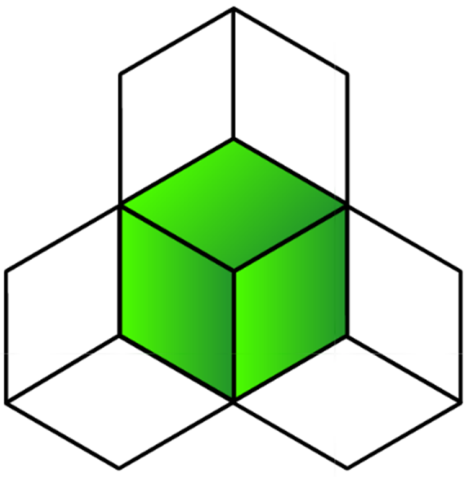

A quiz on skills that are similar to skills from this goal

Score 80% on the quiz to receive a single tick for this goal

Complete all 6 steps to achieve a double tick for this goal

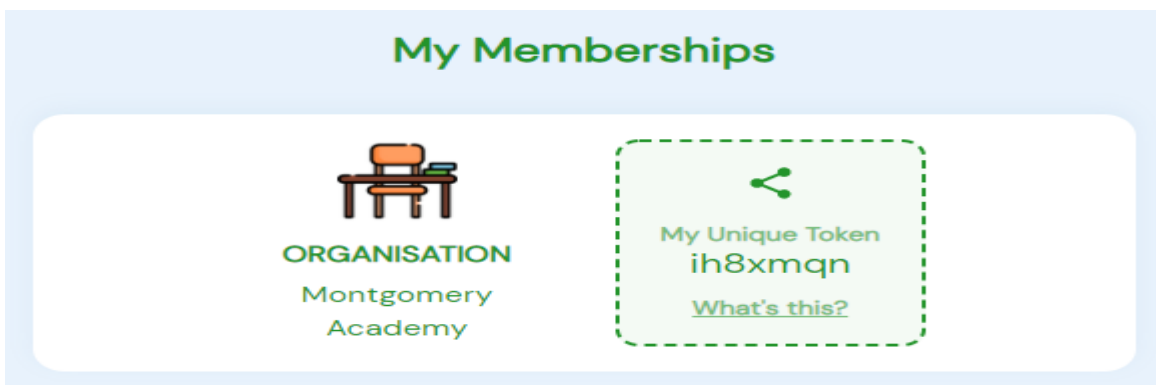

# Complete Mathematics TUTOR

Click this button for a series of 5 question quizzes.

Each question you answer will let the system get to know your maths knowledge more. Once you complete 5 questions, go back to the dashboard and click continue diagnostics.

It will then recommend courses to close the gaps on your areas to develop

## Your Unique Pupil Token

????????

This Unique Token can be used to connect your Pupil account with a TUTOR Family account.

Once a Parent / Guardian has created a Family account, share your unique token from your My Memberships section with them, and they can link their account to yours.

You can find your token number on the bottom right of your dashboard page
