

How to revise maths

Did you know? You can now click GET HELP on a quiz on Hegarty maths and it takes you to the part of the video you need.

1

Plan

Plan when you are going to revise maths each week.

What are you going to revise?

What are your weaknesses?

How are you going to revise it?

How will you check that you know it?

Do you have your Hegarty maths passport?

2

Recall

Get a list of formulae and learn them by testing yourself on them.

Use flash cards

Use your knowledge quiz books

Ask a friend or family member to test you

3

Practice

Use Hegarty maths videos and quizzes to practise skills.

Use MemRi to space out practice

Use FixUp 5 to correct your weaknesses

Do the Corbettmaths.com 5-a-day tasks

4

Vocab

Do you know your vocabulary in maths?

What do the different command words mean? For example...
Compare

Evaluate

Solve

Show that

Estimate

5

Exam Ready

Have you asked for advice on exam technique?

How many practice exams have you done?

3 papers

1 non-calculator

Using your calculator

Time management

Checking your work

Show working
